

Training Announcement

2017 Drug Recognition Expert School

Course Description: The Drug Recognition Expert (DRE) program has received national acclaim for its success in identifying the drug-impaired individual. Although the focus of the DRE curricula is on the identification of the drug-impaired driver, DRE skills are applied to many different law enforcement activities. In addition, DREs are frequently called upon to differentiate between drug influence and medical and/or mental disorders. The certified DRE is a valuable tool for combating the adverse impact of drugs on the communities they serve.

Due to limits on class size, program prerequisites, and screening criteria, not all applicants are accepted. Applicants need to be aware that the DRE School is demanding, and students must be prepared for the academic challenges of the course and travel requirements.

Locations and Dates: Crowne Plaza Lansing West - Lansing, Michigan
January 23, 2017 - February 3, 2017 (Phases I and II)

Maricopa County Jail - Phoenix, Arizona
February 19, 2017 – February 25, 2017 (Phase III)

Who Should Apply: Road officers actively involved in OWI enforcement. Officers who wish to become a DRE must be willing to accept call-outs, maintain proper paperwork, and complete the minimum number of evaluations and training hours for recertification.

Cost: There are no registration or materials costs to attend. Meals, lodging, and airfare are provided by a grant through the Michigan Office of Highway Safety Planning with funding from the National Highway Traffic Safety Administration. Officer wages are not covered.

How to Apply: See below for DRE school requirements and application.

Submit completed application and supporting documentation to:

Michael P. Harris, DECP Coordinator
Michigan Office of Highway Safety Planning
7150 Harris Drive, P.O. Box 30634
Lansing, Michigan 48909
Fax: 517-284-3338
Email: harrism13@michigan.gov

Application Deadline is November 1, 2016

2017 Michigan Drug Evaluation and Classification Drug Recognition Expert Program Training Application

The Drug Evaluation and Classification Program (DECP) is a transportation safety initiative focusing on the detection and apprehension of drug-impaired drivers. The program is managed and coordinated by the *International Association of Chiefs of Police (IACP)* with support from the *National Highway Traffic Safety Administration (NHTSA)* of the U.S. Department of Transportation.

The DECP has received international acclaim for its success in helping officers identify the drug impaired driver. Drug Recognition Experts (DREs) are frequently called upon to differentiate between drug influence and medical and/or mental disorders. The certified DRE is an extremely valuable tool for combating the adverse impact of drug and alcohol impaired driving.

DRE training is demanding. Students must successfully complete three separate phases of training with a minimum score of 80 percent on all final exams before proceeding to the next phase. The following summarizes each phase:

Phase I (Preliminary Training): Consists of 16 hours of basic knowledge the prospective candidate will need to successfully complete the next phase. Training consists of skills learned in taking accurate vital signs, pulse, blood pressure, and body temperature. Students are also given hands-on practice in pupillary estimation, pupillary response, examination of muscle tone, and an overview of the seven major drug categories used in the DECP.

Phase II (DRE School): Typically conducted directly after the preliminary training. This is a seven-day (56-hour) course dealing with physiology, toxicology, overall drug evaluation, and familiarization with the signs and symptoms of the seven drug categories. This portion includes three written examinations; five quizzes; and a demonstration of proficiency in Standardized Field Sobriety Tests (SFST) and the entire drug evaluation process. Students must successfully complete all portions to proceed to Phase III.

Phase III (Field Certification): The responsibility of successfully completing the field certification phase lies with the student. Certification events will be scheduled to assist all prospective DREs in completing this phase within six months following the academic portions of the training. The requirements of this phase include evaluating at least 12 drug impaired individuals under supervision of a DRE instructor, identifying individuals under the influence of at least three of the seven drug categories, and attaining a 75 percent toxicological corroboration rate.

In addition to the hands-on evaluations, a DRE candidate must maintain a progress log of individuals they have evaluated, up-to-date rolling log; and submit an approved curriculum vitae. A final examination is given once a student has met all of the requirements set forth by the IACP. After successful completion of the final examination, the DRE candidate must obtain endorsement and recommendation by two DRE Instructors.

The DRE certification is valid for a period of two years from the date of endorsement. In order to maintain certification as a DRE, the officer must complete at least four drug evaluations, one evaluation under the direct supervision of a DRE instructor, submit an up-to-date rolling log, be current in the National Data Tracking System, and receive at least eight hours of approved drug or alcohol-related training within the two year period.

For more information about the DECP, visit www.DECP.org or www.michigan.gov/owitraining.

**** Application deadline is November 1, 2016 ****

Michigan Drug Recognition Expert Training Application

To be considered for the Michigan DRE training, the applicant must meet the following criteria:

- Have a minimum of **three** years full-time law enforcement service
- Not be on probation with your present agency
- Be State of Michigan DATAMASTER certified
- Have experience in arresting the impaired driver
- Be willing to appear before an oral interview board
- Have successfully completed IACP/NHTSA approved SFST training course
- Submit at least two OWI reports from within the past six months for review
- Submit a written letter of commitment from your chief, sheriff, or post commander supporting the DECP

DREs must recertify every two years. Following are the requirements for recertification:

- Complete four acceptable evaluations since the date of last certification and one evaluation under the direct supervision of a certified DRE instructor
- Complete eight hours of approved drug/alcohol related training since the date of the DRE's most recent certification
- Present an up-to-date resume and rolling log to the DRE coordinator

APPLICANT INFORMATION

Name: _____ Rank: _____
(last, first, middle initial)

Date of Birth: _____ Hire Date: _____ MCOLES Number: _____

Work Phone: _____ Cell Phone: _____

Agency Name: _____

Agency Address: _____
(street address, city, state, zip code)

Agency Email: _____ Personal Email: _____
(required) (optional)

To assist in the selection process, please provide the following information:

IACP/NHTSA approved SFST training date: _____ OWI arrests in the last two years: _____

SFST Instructor: Yes No ARIDE training completed: Yes No

Michigan Drug Recognition Expert Training Application

DREs often handle suspects who are drug addicts or have other ailments. It is often necessary to come into close contact with these subjects, including collecting biological samples. Are you willing to accept this responsibility?

Yes No

Summarize any prior assignments that may be related to the DECP:

Summarize any formal education, work or practical experience, and training that may be related to the DECP (EMT training, college, corrections, etc.) or attach a resume:

How do you expect DRE training to benefit you, your department, and your community?

Is there anything else the selection committee should know about you or your interest in the DECP?

I understand and accept the requirements of the Drug Recognition Expert training program and attest to the information listed above as accurate and true.

Applicant's signature: _____ Date: _____
