## Training Announcement

### *Advanced Roadside Impaired Driving Enforcement (ARIDE) Program*

The purpose of this 16-hour course is to increase an officer's ability to observe, identify, and articulate the signs of impairment related to drugs, alcohol, or a combination of both. It also stresses the importance of securing the most appropriate biological sample in order to identify substances likely causing impairment. **Applicants must have taken the Standardized Field Sobriety Testing (SFST) Practitioner training in order to attend this course.** The ARIDE program includes the SFST refresher class and requires the student to perform a successful demonstration of Horizontal Gaze Nystagmus (HGN), Walk and Turn, and One Leg Stand at the conclusion of the refresher segment. ***If a student is unable to correctly demonstrate proficiency, they will not be able to continue with the training. Officers are strongly encouraged to review their SFST procedure prior to the class.***

Demand for ARIDE training is high. Once registered for the class, failure to attend without notification may impact enrollment for students and their agencies in future ARIDE training opportunities. Vacancies will be filled on a first-come, first-serve basis. If there is a last-minute emergency, you may substitute with another student who is also SFST certified.
