## Training Announcement

### Advanced Roadside Impaired Driving Enforcement (ARIDE) Program

This 16-hour course is intended to bridge the gap between the Standardized Field Sobriety Testing (SFST) and Drug Recognition Expert (DRE) courses. You will learn how to observe, identify, and articulate the signs of impairment related to drugs, alcohol, or a combination of both. One of the more significant aspects of ARIDE is its review and required student demonstration of the SFST proficiency requirements. The ARIDE program also stresses the importance of securing the most appropriate biological sample in order to identify substances likely causing impairment.
