

PROTECT YOUR HEAD, WEAR A HELMET

Make sure it fits correctly and meets U.S. Consumer Product Safety Commission standards. Look for the certification label inside the helmet.

STAND OUT, BE SEEN

Wear light-colored or reflective clothing.

STAY ALERT, AVOID ROAD HAZARDS

Watch for potholes, cracks, railroad tracks, drainage grates, and obstacles in your path.

CHECK YOUR BIKE

Be sure your brakes work and tires are properly inflated.

THE RIGHT HELMET FIT IS IMPORTANT

Make sure your bike helmet fits correctly, and read the owner's manual for fitting instructions. Buy a helmet to fit a child now, not a helmet to grow into. Helmets should fit snug and sit low on the forehead. Measure your head to fit your size and adjust sizing pads or fit ring until the helmet is snug.

Should not rock side-to-side

One to two finger widths above the eyebrow

Should not slip forward or backward

Tighten chin straps snugly with no more than one or two fingers fitting under the strap.

Side straps should form a V-shape under, and slightly in front of, the ears

RIDE NO MORE THAN TWO ABREAST WHEN RIDING ON THE ROAD

Bicyclists riding side by side can't impede traffic.

MICHIGAN LAW

ALWAYS OBEY TRAFFIC SIGNALS, SIGNS, AND LANE MARKINGS

Use hand signals when turning (see back panel for more information).

MICHIGAN LAW

LIGHT IT UP AFTER DARK

If riding after dark, bikes must be equipped with a lamp on the front that emits a white light and a red reflector on the rear.

MICHIGAN LAW

RIDE WITH TRAFFIC

Bicyclists must ride on the right side of the road.

MICHIGAN LAW

ALWAYS USE HAND SIGNALS to tell cars and other bicyclists what you intend to do.

>> Left turn: Left hand and arm extended straight

>> Right turn: Left hand and arm extended upward

OR

>> Right hand and arm extended straight

>> Stopping or slowing down: Left hand and arm extended down
