

## **LAW ENFORCEMENT INFORMATION NETWORK CHANGES TO THE OFFENDER MANAGEMENT INFORMATION SYSTEM**

This correspondence is being distributed to authorized Law Enforcement Information Network (LEIN) agencies as a guide for changes being made to the Offender Management Information System (OMNI) operated by the Michigan Department of Corrections.

Effective March 16, 2012, agencies will see two new caveats appear on the OMNI Probation/Parole response. Agencies that parse responses should contact their vendors to determine if these changes will have any impact on their systems.

The first caveat will appear when a subject is restricted from possessing a firearm. It will appear directly above the demographic information and states: *\*\*\*Please contact 1-800-ATF-GUNS if this individual is arrested with a firearm; Federal charges may be appropriate\*\*\**.

The second caveat appears when a subject is sentenced to lifetime global positioning satellite (GPS) monitoring. The caveat will appear directly below the demographic information in the *Current Status* Field and states: *Sentenced to Lifetime GPS. Contact MDOC @ 800-877-5664 ext. 3 if subject is arrested.*

Questions regarding this information may be directed to [mspleinfss@michigan.gov](mailto:mspleinfss@michigan.gov).
