15,001 and over	\$4.39 per hundred lbs. + \$8	

When the full-year fee is \$50 or more, a 6-month plate may be purchased. There is a \$10 service fee.

The fees shown on this chart may be prorated to the owner's birthday in two situations:

- 1) if the individual owner has a pickup truck or van weighing over 8,000 lbs., or
- 2) if the individual owner of a passenger vehicle chooses to purchase a commercial license plate. The fee due is the weight fee or the ad valorem fee, whichever is greater.

To prorate, find the 12-month weight fee. Subtract \$8 and then divide by 12 (do not round off). Multiply this amount by the number of months needed. (See the proration chart on page 1.) Round this amount to the nearest whole dollar.

As a final step, add \$8.
