

ABC's of Michigan: Many Ways of Learning

Louise Peacock

Corunna Public Schools

Art Teacher:

Mrs. Lentz, Ms. Schack, and Mr. Pirley

Corunna, Michigan

Grade 5

Governor Jennifer M. Granholm and First Gentleman Daniel G. Mulhern's
"ABC'S OF MICHIGAN- MANY WAYS OF LEARNING"

Student's First Name Alexandria
School Louise Peacock
School District Cosanna
Grade 5th grade
Teacher's Name Mr. Boland
Art Teacher's Name Ms. Shack, Mrs. Lentz, Mr. Pixley

LEARNING STATEMENT

While working on "ABC's of Michigan- Many Ways of Learning,"
I learned...

That the surface of a lightbulb is non-porous so the paint does not sink in.
We learned that with lighter colors you need to outline with darker colors.
Also how good colors look together.
That's what I learned.

Grade 5th

Teacher's Name Mrs. Mathias
Art Teacher's Name Miss Bentz / Miss Shack Mr. Pixley

LEARNING STATEMENT

While working on "ABC's of Michigan- Many Ways of Learning,"
I learned...

That when color is put on top of a color that they make another color. But when you have a light color with a bright color then it sticks out. even when you have to put a color on top of another color to get a color that you need then you have to do that, and that is what I learned does not stick in the light bulb.

LEARNING STATEMENT

**While working on "ABC's of Michigan- Many Ways of Learning,"
I learned...**

I learned that lightbulbs are non-
porous. I learned about
value and how you must cut-
line read. Do not look at the light next
to lights

Art Teacher's Name Mrs. Lentz Ms. Shack Mr. Pixley

LEARNING STATEMENT

**While working on "ABC's of Michigan- Many Ways of Learning,"
I learned...**

It was different painting on a non-porous surface than painting on paper.
I also learned how to use complimentary colors and positive and negative space.

LEARNING STATEMENT

**While working on "ABC's of Michigan- Many Ways of Learning,"
I learned...**

I learned that if someone would use a lighter value of paint isn't that easy to see without a darker value around it so you can see it better. The paint can turn into cool colors if you mix them also they can turn lighter or darker value of color.

LEARNING STATEMENT

While working on "ABC's of Michigan- *Many Ways of Learning*,"
I learned...

I Learned that when you put a light color on the lightbulb, it doesn't show up ~~very~~ good. So I decided to put dark colors around it. Also it does not sink in, like paper.

LEARNING STATEMENT

While working on "ABC's of Michigan- Many Ways of Learning,"
I learned...

In ABC's of Michigan, we learned about non-porous surfaces. They are surfaces that will sink in when you write on paper but not when you are doing it on a light bulb. I also learned about value. One example of value is when you paint a color that does not show up very well, you outline it in a dark and solid color to make it show up.
