Combining Claim For Reimbursement Data

**Do not** combine two months on one claim. However, if the first or last month that a center operates in a fiscal year (October 1st through September 30th) contains claim data for 10 days or less, a center can choose to combine this data with claim data from the preceding or succeeding month. Combined claim days **must not exceed** the total number of days in the calendar month in which the claim is being submitted. Combining June and July should be avoided because of the USDA rate change that takes place in July. Any variance to this instruction must be approved in advance by USDA.

**Exception:** Data from September and October **cannot** be reported on the same claim since each month is in a different fiscal year.

**Check Your Mail**

It is important to check your mailbox for correspondence from the Michigan Department of Education, Child and Adult Care Food Program, even if your operation closes for vacations/holidays. Submit Claims for Reimbursement, Corrections to Claims for Reimbursement, and Corrective Action Reports within the time frames. Do not risk losing reimbursement.

**Fiscal Year 2004 Application Packets**
