Agreement Between the
Michigan Department of Transportation and
United Technical Employees Association
Regarding Work Element Training and Selection

Selection for Training:

There is some inconsistency between districts in the selection process. The Work Element Manual, page 2, states training in work elements will be based on seniority, availability of the work elements, and staffing requirements. It was agreed that:

1. Engineering supervision will select the most senior applicant for training in work elements which are available and which does not conflict with needed staffing.

2. If an applicant with seniority cannot be released when a needed work element becomes available, he or she will be assigned the next available opportunity for the training (Work Element Manual, pg 2).
- 3 Training opportunity will be balanced to include members in under utilized classes in accordance with principles of Civil Service and Michigan Equal Employment Opportunity Council Guidelines for Implementing Civil Service Rule 1.2b. Monitoring for consistency will be done by the central construction division staff.
4. Copies of the Work Element Manual will be distributed to all permanent and temporary technicians. If more manuals are needed, the responsible supervisor can obtain them by calling Lansing.

Processing Work Elements:

The Work Element Manual, page 3, states action will be taken by resident/project engineers within ten (10) work days of receiving a work element certification form. This time table has not always been met in actual practice. It was agreed that:

1. Except in emergency situations, engineering supervision will process the application within 15 work days of submission.
2. The manual states district panels will review applications at least quarterly. To this we would add that there must be no appreciable delay that would affect the applicant's eligibility for reallocation or promotion.
3. An application for work element certification must be submitted within one year of performance to guarantee recognition by the district panel (Work Element Manual, pg 3).
4. Most, but not all, district panels conduct the oral interview and documentation review on a one-on-one basis with a panel member. It is recommended that all panels do this as stated in the "Oral Interview Guidelines" memo dated October 8, 1979. It is also recommended that panel members be rotated to provide for distribution of this duty.
5. The district panel must transmit their action on all work elements processed to the applicants within 10 work days of the panel meeting.

Appeals Process:

Any applicant who feels there is a problem in their work element training or certification which cannot be resolved through normal channels may use the following appeals process:

1. The employee can submit the attached appeals form to the resident/project engineer with a statement concerning the problem within 10 work days of the event. If the

appeal concerns a district panel decision it can be submitted directly to the district field engineer.

2. The resident/project engineer will review the appeal and attempt to resolve the problem within ten (10) work days of receipt. The results will be recorded on the form and forwarded to the district field engineer with a signed and dated copy returned to the employee.
3. If the problem remains unresolved at the project level, the district field engineer will review the appeal and make recommendations on the appeal form with copies returned to the resident /project engineer and the employee within ten (10) work days of receipt.
4. If the problem remains unsolved at the district level, the appeal will be forwarded to Lansing construction division for review and follow-up within 15 work days of receipt.
5. If the employee disagrees with this determination, a grievance may be filed at Step 2.

LETTER OF UNDERSTANDING Human Resources Management Network (HRMN)

During negotiations in 2001 the parties reviewed changes in terminology that resulted from the implementation of the new payroll-personnel system HRMN. The parties have elected to continue to use terminology that existed prior to the implementation of HRMN even though that same terminology is not utilized in HRMN. The parties agree that the HRMN terminology does not alter the meaning of the contract language unless specifically agreed otherwise.

An example of this are the terms “transfer, reassignment, and demotion” which are called “job change” in HRMN. The HRMN history record will show each of these transactions as a job change, however they will continue to have the same contractual meaning they had prior to the implementation of HRMN.
