

Michigan State Police Fire Marshal Division Public Fire Education Program

Vision

To facilitate the implementation of public fire safety education in every community in the State of Michigan.

Mission

In conjunction with a public education advisory group, identify problems, needs, solutions and strategies to enable local fire departments to implement an effective public fire education program in their community.

Goals

1. Develop curriculum for local fire departments to use in delivery of public fire education programs in their communities – consider Fire Fighter Training Council review and approval
2. Provide training to local fire departments in the implementation and delivery of a public fire education program.
3. Identify materials for use in delivery of public fire education programs.
4. Identify funding resources for materials – state, national, community partnerships.
5. Identify successful programs that can be incorporated into curriculum.
6. Coordinate statewide public education conference.
7. Promote public education strategy through attendance at statewide fire association conferences and regional and county meetings.
8. Publish public education updates in Fire TIES publication.
