Pinecrest To Open Second Green House

Pinecrest Medical Care Facility will open its second "Green House" in May, 2008. The newest Green House is modeled after their Pine Grove facility, which was opened in January, 2007.

Application to reside in the Green House is open to the residents of Pinecrest through an application process. Ten private rooms and private bathrooms center around the

hearth and kitchen area. The primary purpose of a Green House is to serve as a place where elders can receive assistance and support with activities of daily living, skilled nursing care and therapy, without their healthcare becoming the focus of their existence.

Pinecrest Administrator and UP Healthcare Roundtable Member, Gerry Betters, states, "Pinecrest is committed to enriching the quality of life for our residents by action. The Green House supports an alternative to long-term care residency."

Pinecrest Administrator, and UP Healthcare Roundtable Member, Gerry Betters.
