PRESCRIPTION DRUG AND OPIOID TASK FORCE RECOMMENDATIONS

The Michigan Prescription Drug and Opioid Abuse Task Force has developed strategic statewide recommendations to address Michigan's growing prescription drug and opioid abuse problem.

PREVENTION

	Require additional training for all professional who will be prescribing controlled substances.
	Encourage the development and maintenance of relationships among state and local agencies to provide necessary information regarding prescription drug abuse, prevention and treatment.
	Collaborate with local coalitions, pharmacies, health profession boards, state agencies and the DEA to increase availability of prescription drug drop-off bins.
	Review successful state and local collection programs for possible replication and expansion.
	Review programs and parameters established within the Medicaid system as well as actions taken by other states to determine the best route forward to eliminate doctor and pharmacy shopping.
	Review programs already in use in Tennessee and Washington to determine how their systems operate and if any of those systems would work in Michigan.
•	Develop a multifaceted public awareness campaign to information the public of the dangers of abuse, how to safeguard and properly dispose of medicines, publicize improper prescribing practices, and reduce the stigma of addiction. The state should try to partner with pharmaceutical companies on this campaign.
TREATMENT	
	Allow pharmacists to disp <mark>ense Naloxone to the public in a similar fa</mark> shion to how pseudoephedrine is dispensed.
	Create a public awareness campaign about the laws that limit civil and criminal liabilities for administering Naloxone.
	Explore the possibility of limited statutory immunity for low-level offenses involved in reporting an overdose and seeking medical assistance.
	Explore ways for the state to increase access to care, including wraparound services and Medication Assisted Treatment, as indicated by national and state guidelines for treatment.
	Insurance companies should consider providing health plans that cover the costs of MAT with reasonable quantity limits on medication used.
	Explore ways to increase the numbers of addiction specialists practicing in Michigan.
	Require additional training for law enforcement in the area of recognizing and dealing with addiction for those officers who do not deal directly with narcotics regularly.
	Expand treatment courts as called on by Gov. Snyder in his 2015 Criminal Justice Message, as well as expand the courts' ability to create pilot programs for use the of Medication Assisted Treatment.
	Requiring a bona-fide physician-patient relationship prior to prescribing controlled substances. Review current guidelines for reducing the development of neo-natal abstinence syndrome caused by prescription drug and opioid abuse.
