The current year's gross annual commercial or productive value recovered by this facility, as reported by your application, is **\$0**. Therefore, the net exemption for the current year for this facility is **\$56,829**. As this gross annual commercial or productive value may change yearly, the value must be reported to the assessor on an annual basis to correctly reduce the exemption.

The applicant and local assessor have 60 days from the date of this letter to appeal the decision to the Circuit Court. If the application costs were based on estimated figures, the applicant must file final costs figures with our office within 90 days after completion of the project. If you have any questions, please contact the Property Services Division at (517) 373-0675.
