Dear Sir/Madam:

Pursuant to the requirements of Public Act 451 of 1994, Part 59, as amended, the State Tax Commission has issued an amended air pollution tax exemption certificate, numbered 1-3747, to DTE Electric Company located at 4695 Jefferson Avenue W, in the City of Trenton, Wayne County. This certificate was issued at the December 16, 2015 meeting of the Commission and the additional amount approved for the exemption is **\$25,400,000.00**, for a total exemption of **\$56,000,000.00**.

As required by Section 5902(2) of the Act, the exemption amount must annually be reduced by the gross annual commercial or productive value derived from any materials captured by the exempted facility. The current year's gross annual commercial or productive value recovered by this facility, as reported by your application, is **\$0**. Therefore, the net exemption for the current year for this facility is **\$56,000,000.00**. As the gross annual commercial or productive value may change yearly, the value must be reported to the assessor on an annual basis to correctly reduce the exemption.

The applicant and local assessor have 60 days from the date of this letter to appeal the decision to the Circuit Court. If the application costs were based on estimated figures, the applicant must file final costs figures with our office within 90 days after completion of the project. If you have any questions, please contact the Property Services Division at (517) 373-0675.

Sincerely,
