INDEPENDENT AUDITOR'S REPORT

To the Honorable Mayor and
Members of the City Council
City of Utica, Michigan
7550 Auburn Road
Utica, Michigan 48317

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the City of Utica, Michigan, as of and for the year ended June 30, 2007, which collectively comprise the City of Utica, Michigan's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the City of Utica, Michigan's management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with U.S. generally accepted auditing standards. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the City of Utica, Michigan, as of June 30, 2007, and the respective changes in position and cash flows, where applicable, thereof for the year then ended, in conformity with U.S. generally accepted accounting principles.

The management's discussion and analysis, retirement system schedules of funding progress and employer contributions, and the budgetary comparison schedules, as identified in the table of contents, are not a required part of the basic financial statements but are supplemental information required by the Governmental Accounting Standards Board. We have applied certain limited procedures, which consisted principally of inquiries of management, regarding the methods of measurement and presentation of the required supplemental information. However, we did not audit the information and express no opinion on it.

To the Honorable Mayor and
Members of the City Council
City of Utica, Michigan

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City of Utica, Michigan's basic financial statements. The accompanying other supplemental information, as identified in the table of contents, is presented for the purpose of additional analysis and is not a required part of the basic financial statements. The other supplemental information has been subjected to the auditing procedures applied in the audit of the financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

MANAGEMENT'S DISCUSSION AND ANALYSIS
JUNE 30, 2007

This discussion and analysis of the City of Utica, Michigan's (the City) financial position and performance provides an overview of the City's financial activities for the fiscal year ending June 30, 2007. Please read it in conjunction with the City's financial statements.

Using This Annual Report

Two statements, the Statement of Net Assets and the Statement of Activities, report the City's finances on a government-wide basis, with a focus on long-term economic resources. Following the Government-Wide Statements are the Fund Financial Statements, which report the City's operations in more detail and focus on the City's ability to provide services in the current year.

Government-Wide Financial Statements

The Government-Wide financial statements report information about the City as a whole using accounting methods similar to those used in the private sector. The Statement of Net Assets reports all of the assets and liabilities of the City and reports the difference between the assets and liabilities as "net assets". The Statement of Activities reports all of the City's revenues and expenses for the year, regardless of the timing of cash flows.

The Government-Wide financial statements are divided into three categories: Governmental, Business-Type, and Component Units. The Governmental Activities include the basic services, such as administration, public safety, ambulance, street maintenance, and recreation. Governmental Activities are funded primarily by property tax levies, State-shared revenues and grants, with some charges for services. Business-Type Activities, which include the Sewer and Water Department and the Senior Housing facility, are primarily funded by charges for services. Component Units are legally separate entities included within the City's basic financial statements because the City is financially accountable for them.

Fund Financial Statements

The Fund financial statements provide detailed information about the City's most significant funds, not the City as a whole. Funds are accounting tools used to track specific sources of funding or expenses. State law mandates the use of certain funds. Others are established at the City Council's direction.

There are three kinds of funds: Governmental, Proprietary, and Fiduciary.

The Governmental Funds account for most of the City's basic services. The focus is on measuring the ability of the City to provide the current year's services. Capital assets and long-term liabilities are not included in the Statement of Net Assets. Revenues are reported when the cash is available to pay current obligations. Expenses are reported when the payment is made, regardless of when the liability for payment was incurred. Acquisition of capital assets and the payment of debt principal and accrued interest are reported as expenses when the cash payments are made.

The Proprietary Funds account for the services primarily funded through customer charges. Like the Government-Wide financial statements, the Proprietary Funds focus on long-term economic resources and report all assets and liabilities. Revenues and expenses are reported when incurred, regardless of the time of cash flows.

The Fiduciary Funds account for the assets that the City holds in-trust or as agent for other agencies or individuals. The Government-Wide financial statements do not report the fiduciary activities because the assets are not available to finance the City's operations.

Current Assets include cash, cash equivalents, and short-term accounts receivables. Non-current assets include land, buildings, and equipment, net of depreciation.

Current Liabilities are due within one year. Long-Term Liabilities are due beyond one year and consist of bonds payable and accrued employee benefits.

Invested In Capital Assets - Net of Related Debt represents the value of capital assets, net of depreciation, offset by the amount of outstanding debt issued to finance the capital assets.

Net Assets - Restricted Assets are current assets that have restrictions placed upon their use by Federal or State law, local ordinance, or grant requirements.

Net Assets - Unrestricted Assets include both designated and undesignated assets upon which there are no legally binding restrictions imposed.

MANAGEMENT'S DISCUSSION AND ANALYSIS
JUNE 30, 2007

The City of Utica, Michigan as a Whole (Continued)

Total Net Assets of the Governmental Activities increased by nearly three percent (3%). The increase in current assets, both restricted and unrestricted, offset the increase in liabilities and depreciation. The City entered into an installment purchase agreement in July 2006 to finance the purchase of police vehicles, related equipment, and an ambulance. Outstanding are three unlimited tax general obligation bonds issued for street repairs.

Total Net Assets of the Business-Type Activities increased by two percent (2%). The Water and Sewer Department embarked on an ambitious project to replace aging water meters and to implement a remote meter reading system that utilizes radio signals. No debt was incurred to finance this project. The Sewer and Water Fund has two outstanding revenue bonds issued for infrastructure improvements. The Municipal Building Authority has one limited tax general obligation refunding bond outstanding for the senior citizen apartment building.

MANAGEMENT'S DISCUSSION AND ANALYSIS
JUNE 30, 2007

Governmental Activities

Governmental Activity revenues totaled \$6.569 million. Property taxes, at sixty percent (60%), are the primary source of revenue, followed by charges for services at nineteen percent (19%), State-shared revenues at seven percent (7%), and operating grants and contribution at six percent (6%). The State Sales Tax is the primary source of State-shared revenues.

Governmental Activity expenses totaled \$6.37 million, of which general government activities accounted for twenty-six percent (26%), police and fire accounted for forty-nine percent (49%), and public works accounted for fifteen percent (15%).

The City contributed to both of its defined benefit pension systems the percent of payroll required by the most recent actuarial valuations.

Business-Type Activities

The City has two Business-Type Activities, the Sewer and Water Fund and the Senior Housing Fund. The Sewer and Water Operations are funded directly through user fees and charges for services. The Senior Housing Operations and Debt Service are funded directly through rental fees.

The Sewer and Water Fund collected \$1.49 million in charges for service and had \$1.53 million in operating expenses. The City purchases water from the Detroit water system and pays Detroit to treat the City's sewage. The City historically adjusts sewer and water rates annually to cover rate increases from Detroit and to cover the operating costs and debt service payments.

The Sewer and Water Fund implemented a new meter reading system that permits meters to be read by a remote radio signal receiver. As part of the remote meter reading project, the City is replacing older meters that are not compatible with the new radio technology. Implementation of the remote meter reading system will reduce the labor cost to read meters and generate utility bills.

The Sewer and Water Fund has two outstanding revenue bond issues, which generated \$32 thousand of interest expense and fees.

The Senior Housing Fund collected \$320 thousand in rental charges and had \$189 thousand in operating expenses. The Fund has an outstanding general obligation bond issue, which generated \$65.5 thousand of interest expense and fees.

The City's Funds

Following the Government-Wide financial statements is an analysis of the City's major funds. The major funds are the General Fund, the Major Street Fund, the Local Street Fund, and the 2001 Street Improvement Fund. The Major and Local Street Funds are established to account for State of Michigan Act 51 revenue sharing. The 2001 Street Improvement Fund accounts for the bond proceeds authorized by the citizens in 2001 for local street improvement projects.

CITY OF UTICA, MICHIGAN

MANAGEMENT'S DISCUSSION AND ANALYSIS
JUNE 30, 2007

General Fund Budgetary Highlights

The City monitors and amends the budget during the year to account for unanticipated events. The City amended the General Fund budget by an additional \$329 thousand in revenues to reflect charges for services, grants, and insurance proceeds received in excess of original projections.

The budgeted expenditures were increased by thirteen percent (13%). The General Government expenditures were amended in anticipation of expenditures subject to a FEMA Hazard Mitigation Grant. The Police and Fire Departments utilized Federal and State grants to finance communications systems upgrades that had not been included in the original budget. The Ambulance Service experienced higher than anticipated activity, resulting in higher payroll costs. The Parts Department utilized available CDBG grant funds to improve the facilities at Grant Park.

Capital Assets and Long-Term Debt Administration

On June 30, 2007, the City had \$16.8 million invested in capital assets: land, buildings, equipment, streets, sidewalks, storm drains, and water and sewer mains.

The City has three outstanding unlimited tax general obligation bonds issued for street repairs and two revenue bonds outstanding for sewer and water improvements. In addition, the City pledges its full faith and credit to support two limited tax general obligation bonds. One, issued by the Municipal Building Authority to finance the senior citizen apartment building on Greeley Street, is supported by rent revenues. The other, issued by the Downtown Development Authority to finance streetscape improvements on Auburn Road and Cass Avenue, is supported by a tax increment financing plan. Additionally, the City has one installment purchase agreement outstanding for the financing of public safety vehicles and equipment.

The City has been awarded Federal road funds through the Transportation Improvement Program to reconstruct Auburn Road and Cass Avenue in the summer of 2008. The City will utilize Act 51 funds to provide the match for Federal funds.

The City has been awarded a grant from the Michigan Department of Environmental Quality to prepare a long-range plan to provide for the sanitary sewer demands of the City.

Economic Factors and Next Year's Budgets and Rates

The State of Michigan continues to struggle economically, as it transitions from a predominantly manufacturing economy to a service economy. Macomb County has been impacted significantly, because of the large presence of automotive manufacturing facilities. Housing prices have declined and foreclosure rates risen.

Revenue growth from property taxes is expected to decline in the short-term because of the relationship between Taxable Value, State Equalized Value, and the housing market. The City is levying the maximum operating millages permitted by the Headlee Amendment.

Payroll and employee benefits represent a significant portion of the City's operating costs. For the fiscal year ending June 30, 2008, the administrative staff not subject to bargaining units agreed to lower wage increases. The Clerk's Office has reduced its staff by one member through attrition.

For the ensuing fiscal year, non-essential equipment purchases have been deferred.

The City has retained the services of a professional grant writer to assist with the procurement of Federal, State, and private grants.

NOTE A - Summary of Significant Accounting Policies

The City of Utica, Michigan (the City) was organized in 1937 and covers an area of approximately 1.8 square miles. The City operates under an elected council and provides services to its approximately 5,000 residents in many areas, including law enforcement, fire protection, and community enrichment and development services.

The accounting policies of the City of Utica, Michigan conform to accounting principles generally accepted in the United States of America (GAAP) as applicable to governmental units. The following is a summary of the more significant policies:

1. Reporting Entity

The City is governed by a City Council consisting of a mayor elected for a two-year term and six council members who are elected to overlapping four-year terms.

The accompanying financial statements present the City and its Component Units, entities for which the government is considered to be financially accountable. Although blended Component Units are legal separate entities, in substance, they are part of the City's operations. Discretely presented Component Units are reported in a separate column in the Government-Wide financial statements to emphasize that they are legally separate from the government (see discussion below for description).

The following organizations are included in the City's annual report for the reasons stated. Individual financial statements can be obtained at the City of Utica, Clerk's Office, 7550 Auburn Road, Utica, Michigan 48317.

Blended Component Units

The Municipal Building Authority of Utica, an entity legally separate from the City, is governed by a seven-member board appointed by the City Council. For financial reporting purposes, the Building Authority is reported as if it were part of the City's operations because its purpose is to finance and construct buildings for the City. The operations of the Building Authority are reported as a non-major Capital Projects Fund.

The City of Utica Police and Fire Retirement System is included as a fiduciary fund because, of the five-member governing board, one must be the City Treasurer and two others are appointed by the City. The City is also responsible for funding the Retirement System.

Discretely Presented Component Units

The Component Units columns in the combined financial statements include the financial data of the City's Discretely Presented Component Units.

The Downtown Development Authority (the Authority) is legally separate from the City. The Authority was created to correct and prevent deterioration in the downtown district and promote economic growth within the downtown district. The City appoints the governing board but members can only be removed for cause. The budgets and expenditures of the Downtown Development Authority must be approved by the City Council. The Downtown Development Authority does not issue separate financial statements.

(Continued)

NOTE A - Summary of Significant Accounting Policies (Continued)

1. Reporting Entity (Continued)

Discretely Presented Component Units (Continued)

The Brownfield Redevelopment Authority (the Authority) is legally separate from the City. The Authority was created to correct and redevelop property in the City that contains environmental hazards. The City appoints the governing board but members can only be removed for cause. The budgets and expenditures of the Brownfield Redevelopment Authority must be approved by the City Council. The Brownfield Redevelopment Authority does not issue separate financial statements.

The City of Utica Library is established under MCLA 397.201, et seq, as amended. The Mayor, with the consent of City Council, appoints directors to the governing board. Board members serve for staggered five-year terms and can only be removed for cause. The Library does not issue separate financial statements.

2. Government-Wide and Fund Financial Statements

The Government-Wide financial statements (i.e., the Statement of Net Assets and the Statement of Activities) report information on all of the Non-Fiduciary Activities of the City (the primary government) and its Component Units. For the most part, the effect of Interfund Activity has been removed from these statements. Governmental Activities, normally supported by taxes and intergovernmental revenues, are reported separately from Business-Type Activities, which rely to a significant extent on fees and charges for support. Likewise, the primary government is reported separately from certain legally separate Component Units for which the primary government is financially accountable.

The Statement of Activities demonstrates the degree to which the direct expenses for a given function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include: (1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment; and (2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenue.

Separate financial statements are provided for Governmental Funds, Proprietary Funds, and Fiduciary Funds, even though the latter are excluded from the Government-Wide financial statements. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the Fund financial statements.

The City reports the following major Governmental Funds:

General Fund - The General Fund is the City's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

Major Street Fund - The Major Street Fund accounts for maintenance and improvement activities for streets designated as "major" within the City. Funding is provided primarily through State-shared gas and weight taxes.

Local Street Fund - The Local Street Fund accounts for maintenance and improvement activities for streets designated as "local" within the City. Funding is provided primarily through State-shared gas and weight taxes.

NOTE A - Summary of Significant Accounting Policies (Continued)

2. Government-Wide and Fund Financial Statements (Continued)

The Capital Projects - 2001 Local Street Fund - The 2001 Local Street Fund accounts for the bond proceeds issued for the purpose of making local street improvements within the City.

The City reports the following major Enterprise Funds:

Senior Housing Operations Fund - The Senior Housing Operations Fund accounts for the operations of the City's Senior Housing facility. Monthly maintenance fees charged to residents provide funding.

Municipal Building Authority Senior Housing Fund - The Municipal Building Authority Senior Housing Fund owns the City's Senior Housing facility and is responsible for the payment of bonds used to finance it. Monthly rental fees charged to residents provide funding.

Sewer and Water Fund - The Sewer and Water Fund accounts for the activities of the sewage collection system and the water distribution system. Funding is provided primarily through user charges.

Additionally, the City reports the following fund types:

Police and Fire Retirement System Pension Trust Fund - The Police and Fire Retirement System Trust Fund accounts for the activities of the police and fire employees retirement system, which accumulates resources for pension benefit payments to qualified police and fire employees.

Agency Funds - The Agency Funds account for assets held by the City in a trustee capacity or as an agent for individuals, organizations, or other governments.

3. Measurement Focus and Basis of Accounting

The Government-Wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the Proprietary Fund, Fiduciary Fund, and Component Units financial statements. Revenue is recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenue in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental Fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized in the accounting period in which they become susceptible to accrual— that is, when they become both measurable and available. Revenue is considered to be available if it is collected within the current period or soon enough thereafter to pay liabilities of the current period, generally collected within 60 days of the end of the current fiscal period. Significant revenues susceptible to accrual include property taxes, most federal intergovernmental revenues (i.e., federal grants), most state intergovernmental revenues (i.e., income taxes, sales taxes, Act 51 funds), special assessments, charges for services and interest. Most licenses and permits, fines and forfeits, and miscellaneous revenue sources generally are recorded as revenues when received in cash because they are not measurable until actually received. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, expenditures related to compensated absences, and claims and judgments are recorded only when payment is due.

(Continued)

NOTE A - Summary of Significant Accounting Policies (Continued)

3. Measurement Focus and Basis of Accounting (Continued)

Private sector standards of accounting issued prior to December 1, 1989 are generally followed in both the Government-Wide and Proprietary Fund financial statements to the extent that those standards do not conflict with the standards of the Governmental Accounting Standards Board. The City has elected not to follow private sector standards issued after November 30, 1989 for its Business-Type Activities.

As a general rule, the effect of Interfund Activity has been eliminated from the Government-Wide financial statements. Exceptions to this general rule are charges between the City's sewer and water function and various other functions of the City. Eliminations of these charges would distort the direct costs and program revenues reported for the various functions concerned.

Amounts reported as program revenue include: (1) charges to customers or applicants for goods, services, or privileges provided; (2) operating grants and contributions; and (3) capital grants and contributions, including special assessments. Internally dedicated resources are reported as general revenue rather than as program revenue. Likewise, general revenue includes all taxes.

Proprietary Funds distinguish operating revenue and expenses from non-operating items. Operating revenue and expenses generally result from providing services and producing and delivering goods in connection with a Proprietary Fund's principal ongoing operations. The principal operating revenue of the Proprietary Funds relates to charges to customers for sales and services. Operating expenses for Proprietary Funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenue and expenses not meeting this definition are reported as non-operating revenue and expenses.

4. Assets, Liabilities, and Net Assets or Equity

Cash and Cash Equivalents

Deposits are carried at cost plus accrued interest and consist of checking accounts, savings deposits, and certificates of deposit. The carrying value of deposits is displayed on the Balance Sheet as "Cash and Cash Equivalents". Excess cash of the individual funds are invested in a JPMorgan Chase, Comerica, MBIA or Lasalle Municipal Funds Trust Account. Each fund records its own share of pooled funds as cash.

Investments

Investments consist of corporate bonds, common stock, and mutual funds. Investments of the Utica Police and Fire Retirement System Trust Funds are managed by Alethia Research and Management and Munder Capital Management and are stated at market value.

Receivables and Payables

In general, outstanding balances between funds are reported as "due to/from other funds". Any residual balances outstanding between the Governmental Activities and the Business-Type Activities are reported in the Government-Wide financial statements as "internal balances".

(Continued)

NOTE A - Summary of Significant Accounting Policies (Continued)

4. Assets, Liabilities, and Net Assets or Equity (Continued)

Receivables and Payables (Continued)

Taxes Receivable at June 30, 2007 represent delinquent personal property taxes for the years 2002 - 2006. These taxes have been turned over to the county for collection. No provision is made for uncollectible accounts. It is felt that any such provision would be immaterial.

No provision is made for uncollectible Accounts Receivable as any such provision would be immaterial.

No provision is made for uncollectible Sewer and Water Bills Receivable because unpaid bills become a lien on the property and are added to the tax bill.

Property Tax Revenue

Properties are assessed as of December 31 and the related property taxes become a lien on July 1 of the following year. These taxes are due on August 31, with the final collection date of February 28 of the following year, before they are added to the county tax rolls. The City bills and collects its own property taxes as well as taxes for the county and several school districts within its jurisdiction. Collections and remittances of the county and school taxes are accounted for in the Current Tax Collection Agency Fund.

The 2006 taxable value of property located in the City totaled \$198,825,105 (a portion of which is captured by the Downtown Development Authority) on which taxes levied consisted of 17.1885 mills for general operating purposes, 1.7187 mills for public safety, .8593 mills for the Public Library, and 2.1533 mills for street debt. This resulted in approximately \$3,179,000 for operating, \$318,000 for public safety, \$159,000 for library operations, and \$428,000 for street debt service. These amounts are recognized in the respective General and Component Unit Funds.

The delinquent real property taxes of the City are purchased by the County of Macomb. These taxes have been recorded as revenue for the current year.

Capital Assets

Capital Assets, which include property, buildings, equipment, and infrastructure assets (e.g., roads, bridges, sidewalks, and similar items), are reported in the applicable Governmental or Business-Type Activities column in the Government-Wide financial statements. Capital Assets are defined by the City as assets with an initial individual cost of more than \$1,000 and an estimated useful life in excess of one year. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated Capital Assets are recorded at estimated fair market value at the date of donation.

Capital Assets are depreciated using the straight-line method over the following useful lives:

Infrastructure	20-40 years
Sewer and Water Distribution Systems	20-50 years
Buildings and Building Improvements	30-50 years
Machinery and Equipment	5-15 years
Furniture and Fixtures	7-15 years

(Continued)

NOTE A - Summary of Significant Accounting Policies (Continued)

4. Assets, Liabilities, and Net Assets or Equity (Continued)

Deferred Charges

Deferred Charges consist of Bond Discount and Issuance Costs which are being amortized over the term of the bonds and the unbilled portion of signed construction contracts.

Compensated Absences

It is the City's policy to permit employees to accumulate earned but unused sick and vacation pay benefits. A liability is recorded when incurred in the Government-Wide financial statements and the Proprietary Fund financial statements. A liability for these amounts is reported in Governmental Funds only when they have matured or come due for payment—generally when an individual's employment has terminated as of year-end.

Long-Term Obligations

In the Government-Wide financial statements and the Proprietary Fund financial statements, long-term debt obligations are reported as liabilities in the applicable Governmental Activities, Business-Type Activities, or Proprietary Fund Statement of Net Assets. Bond premiums and discounts, issuance costs, and the deferred amount on refunding are deferred and amortized over the life of the bonds using the effective interest method. Bonds payable are reported net of the applicable bond premium or discount and deferred amount on refunding. Bond issuance costs are reported as deferred charges and amortized over the term of the related debt.

In the Fund financial statements, Governmental Fund Types recognize bond premiums and discounts, as well as bond issuance costs during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts are reported as other financing uses. Issuance costs are reported as debt service expenditures.

Fund Equity

In the Fund financial statements, Governmental Funds report reservations of Fund balance for amounts that are not available for appropriation or are legally restricted by outside parties for use for a specific purpose. Designations of Fund balance represent tentative management plans that are subject to change.

Use of Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the period. Actual results could differ from those estimates.

NOTE B - Stewardship, Compliance, and Accountability

Budgetary Information

The City follows these procedures in establishing the budgetary data reflected in the financial statements:

- a. Department Heads submit to the Mayor and the City Council a proposed operating budget for the fiscal year commencing the following July 1. The operating budget includes proposed expenditures, and the means of financing them, for the General and Special Revenue Funds.

Informational summaries of projected revenues and expenditures are provided for all other City funds, as well as estimated total costs and proposed methods of financing all capital construction projects.

- b. Public hearings are conducted to obtain taxpayer comments.
- c. After modifications are made, the budget is legally enacted on a departmental (activity) basis for all budgetary funds for the ensuing fiscal year, in accordance with Public Act 621 of the State of Michigan.
- d. The City's Mayor, or her designee, is authorized to transfer budgeted amounts within departmental appropriation accounts; however, any revisions that alter the total expenditures of any department must be approved by the City Council.
- e. All budgets are adopted on a basis consistent with U.S. generally accepted accounting principles.
- f. Budget appropriations lapse at year-end.
- g. The original budget was amended during the year in compliance with applicable state laws. A comparison of the budget with Statements of Actual Revenues and Expenditures, including budget variances, for the General Fund and major Special Revenue Funds is presented in the required supplementary information. A comparison of actual results of operations to the non-major Special Revenue Funds budgets, as adopted by the City Council, is available at the City offices for inspection.
- h. Encumbrances are defined as commitments related to unperformed contracts for goods or services. The City does not record encumbrances in the normal course of operating its accounting system and none are recorded in the accompanying financial statements.

Excess of Expenditures Over Appropriations in Budgeted Funds

The City did not have any expenditure budget variances.

CITY OF UTICA, MICHIGAN

NOTES TO FINANCIAL STATEMENTS, JUNE 30, 2007

NOTE B - Stewardship, Compliance, and Accountability (Continued)

State Construction Code Act

The City oversees building construction, in accordance with the State's Construction Code Act, including inspections of building construction and renovation to ensure compliance with the building codes. The City charges fees for these services. Beginning January 1, 2000, the law requires that collection of these fees be used only for construction code costs, including an allocation of estimated overhead costs. A summary of the current year activity and the cumulative balance generated since January 1, 2000 is as follows:

Cumulative Balance - July 1, 2006		\$402,996
Building Permit Revenue	\$155,201	
Interest Earned On Funds	19,619	
Miscellaneous	923	
Related Expenditures - Direct Costs	(169,652)	
Related Expenditures - Estimated Indirect Costs	(16,965)	
Excess of Revenues Over Expenditures		(10,874)
Cumulative Balance - June 30, 2007		<u>\$392,122</u>

NOTE C - Cash and Cash Equivalents, Restricted Assets, and Investments

The carrying amount of the deposits is separately displayed on the Balance Sheet as "Cash and Cash Equivalents". Deposits are carried at cost.

Michigan Compiled Laws, Section 129.91, authorizes the City to make deposits and invest in the accounts of federally insured banks, credit unions, and savings and loan associations that have offices in Michigan. Investments can also be made in bonds, securities, and other obligations of the United States, or any agency or instrumentality of the United States, which are guaranteed as to principal and interest by the United States, including securities issued by the Government National Mortgage Association; United States government or federal agency obligation repurchase agreements; bankers' acceptance of United States banks; commercial paper rated within the two highest classifications by not less than two standard rating services which mature not more than 270 days after the date of purchase and which involve no more than 50 percent (50%) of any one fund, obligations of the State of Michigan or its political subdivisions, which are rated investment grade, mutual funds composed of investment vehicles that are legal for direct investment by local units of government in Michigan, and investment pools organized under the Surplus Funds Investment Pool Act. Michigan law prohibits security in the form of collateral, surety bonds, or other forms for the deposit of public money.

The Police and Fire Retirement System Pension Trust is also authorized by Michigan Public Act 485 of 1996 to invest in certain reverse repurchase agreements, stocks, diversified investment companies, annuity investment contracts, real estate leased to public entities, mortgages, real estate (if the trust fund's assets exceed \$250 million), debt or equity of certain small businesses, certain State and local government obligations, and certain specified investment vehicles. The Utica Police and Fire Retirement System Trusts Board has authorized Alethia Research and Management and Munder Capital Management to manage its funds. All investments are held by the Trust Division using the Federal Reserve Depository Trust Company Book Entry Systems. They are held in a brokerage account at Merrill Lynch, Pierce, Fenner & Smith, Inc. These investments are uninsured and unregistered.

(Continued)

NOTE C - Cash and Cash Equivalents, Restricted Assets, and Investments (Continued)

The City has approved eight banks for the deposit of its funds according to its investment policy. The investment policy adopted by the Council in accordance with Public Act 196 of 1997 has authorized investment in accordance with Public Act 20 of 1943, as amended. The City's deposits and investment policies are in accordance with statutory authority.

The City's cash and investments are subject to several types of risk, which are examined in more detail below:

Custodial Credit Risk of Bank Deposits - Custodial credit risk is the risk that, in the event of a bank failure, the government's deposits may not be returned to it. The City's investment policy does not directly address a deposit policy for custodial credit risk. At year-end, the City had \$4,651,001 of bank deposits (certificates of deposit, checking and savings accounts) that were uninsured and uncollateralized. The City believes that due to the dollar amounts of cash deposits and the limits of FDIC insurance, it is impractical to insure all deposits. As a result, the City evaluates each financial institution with which it deposits funds and assesses the level of risk of each institution; only those institutions with an acceptable estimated risk level are used as depositories.

Custodial Credit Risk of Investments - Custodial credit risk is the risk that, in the event of the failure of the counterparty, the City will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. The City does not have a policy for custodial credit risk. At year-end, none of the City's investments were subject to custodial credit risk due to one of the following:

- Investments were part of an insured pool.
- Investments were book-entry only in the name of the City and were fully insured.
- Investments were part of a mutual fund.
- Investments were held by an agent in the City's name.

Interest Rate Risk - Interest rate risk is the risk that the value of investments will decrease as a result of a rise in interest rates. The City's investment policy does not restrict investment maturities, other than commercial paper, which can only be purchased with 270-day maturity. At year-end, the average maturities of investments are as follows:

Investment	Fair Value	Weighted Average Maturity
City of Utica Police and Fire Retirement System:		
Corporate Bonds	\$1,137,654	13.97 years
U.S. Government or Agency Bond or Note	\$1,380,973	10.79 years

(Continued)

NOTE C - Cash and Cash Equivalents, Restricted Assets, and Investments (Continued)

Credit Risk - In compliance with State law, the City's investment policy limits investments in commercial paper to the top two ratings issued by nationally recognized statistical rating organizations. As of year-end, the credit quality ratings of debt securities (other than the U.S. government) are as follows:

<u>Investment</u>	<u>Fair Value</u>	<u>Rating</u>	<u>Rating Organization</u>
Government-Wide - Pooled Funds	\$5,806,935	A1	Moody's
City of Utica Police and Fire System:			
Corporate Bonds	\$833,173	AAA	S&P
Corporate Bonds	\$48,685	AA	S&P
Corporate Bonds	\$246,148	A	S&P
Corporate Bonds	\$9,648	BBB	S&P

Concentration of Credit Risk - Through its investment policy, the City requires investments to be diversified by security and institution in order that potential losses on individual securities do not exceed the income generated from the remainder of the portfolio.

Foreign Currency Risk - Foreign currency risk is the risk that an investment denominated in the currency of a foreign country could reduce its U.S. dollar value, as a result of changes in foreign currency exchange rates. The pension system restricts the amount of investments in foreign currency denominated investments to 10 percent of total pension system investments. As of June 30, 2007, the pension system had no foreign investments.

The pension system includes exposure to the international asset class in order to increase diversification and reduce risk. The investments held by the Pension Fund are protected from foreign currency risk through the use of ADRs (American Depository Receipts).

NOTE G - Risk Management

The City is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The City maintains property and liability insurance coverage with the Michigan Municipal Liability and Property Pool and workers' compensation insurance through the Michigan Municipal League Workers' Compensation Fund. These programs were developed to administer a group program of liability and property self-insurance for Michigan municipalities. Member contributions are combined to provide each member with coverage for claims. Any funds not needed to pay claims and maintain prudent reserves are available for distribution to members, to increase liability limits, or to offer additional services to members as the Pool Board of Directors decide. The pools enter into reinsurance agreements to reduce exposure to large losses on all types of insured events.

The City carries commercial insurance for employee health and accident coverage.

Settled claims resulting from these risks have not exceeded insurance coverage in any of the past three years.

NOTE H - Post Employment Benefits Other Than Pensions

Union and other contracts require the City to pay:

1. One hundred percent (100%) of medical insurance premiums for Department of Public Works (DPW) retirees and their dependents until age 65. The City may provide "GAP" coverage when the retiree is eligible for Medicare.
2. One hundred percent (100%) of medical insurance premiums for Police Department retirees and their spouses, until eligible for Medicare.
3. A City Council Resolution grants single medical insurance coverage for a retired Deputy Clerk, Treasurer, and DPW Superintendent.
4. An employment contract grants single medical insurance coverage for a retired Fire Chief and Assistant Fire Chief. The City may provide "GAP" coverage when the retiree is eligible for Medicare.

At June 30, 2007, twelve retirees were eligible and receiving benefits. Expenditures for those benefits, for the fiscal year ended June 30, 2007, amounted to \$141,526. The City funds these expenditures as they are incurred and charges current operations in the respective departments.

Upcoming Reporting Change - The Governmental Accounting Standards Board (GASB) has recently released Statement Number 45, *Accounting and Reporting by Employers for Postemployment Benefits Other Than Pensions*. The new pronouncement provides guidance for local units of government in recognizing the cost of retiree health care, as well as any "other" postemployment benefits (other than pensions). The new rules will cause the Government-Wide financial statements to recognize the cost of providing retiree health care coverage over the working life of the employee, rather than at the time the health care premiums are paid.

The new pronouncement is effective for the year ending June 30, 2009. During the fiscal year ended June 30, 2006, the City contributed \$100,000 to a retiree healthcare trust fund managed by the Municipal Employee Retirement System of Michigan (MERS). This contribution will be applied to the Other Postemployment Benefits (OPEB) obligation that will be determined by an actuarial valuation when the City implements GASB Statement Number 45.

NOTE I - Pension Plans

The City makes contributions to two pension plans that cover substantially all full-time employees.

1. City of Utica Police and Fire Retirement System:

A. Plan Description

The Plan is a single employer public employee defined benefit pension plan that covers police officers and fire chiefs and is established under Public Act 345 of the State of Michigan.

Plan members are required to contribute 5% of compensation. The City is the only non-employee contributor to the Plan and is required to contribute the remaining amounts necessary to fund the Plan using actuarial computations.

As of June 30, 2006, the date of the most recent actuarial valuation, the Plan had 18 current active employee members, and 6 retired members receiving benefits.

The Plan provides for vesting of benefits after 10 years. Eligibility for service retirement requires 25 years of service regardless of age or age 60 regardless of service. The Plan provides a straight-life pension equal to 2.5% (2.25% for post-7/1/97 hires) of 3-year average final compensation (AFC) times the first 25 years of service, plus 1% of AFC times years of service in excess of 25.

The Plan also provides for a deferred retirement after 10 years of service, which begins at the date retirement would have occurred had the member remained in employment and is computed as service retirement but based upon service AFC and benefit multiplier in effect at termination.

The Plan also provides benefits for surviving spouses upon death after retirement, Duty, and Non-Duty death in service and disability.

The Plan does not issue a separate financial report.

B. Contributions Required and Contributions Made

The City's funding policy provides for periodic employer contributions at actuarially determined rates that, expressed as percentages of annual covered payroll, are designed to accumulate sufficient assets to pay benefits when due. The normal cost and actuarial accrued liability are determined using an entry age actuarial funding method.

During the year ended June 30, 2007, contributions to the system totaled \$317,528 (\$254,378 employer and \$63,150 employee) which were in accordance with the contribution requirements determined by the actuarial valuation of the Plan as of June 30, 2006, using the entry age actuarial funding method. Significant actuarial assumptions used include: (a) a 7.5% investment rate of return; (b) projected salary increases of 4.2% - 8.0% per year; and (c) no cost of living adjustments. Both (a) and (b) include an inflation component of 4%. The actual value of assets was determined using techniques that smooth the effects of short-term volatility over a four-year period. The unfunded actuarial liability is being amortized as a level percentage of payroll, open basis, over a 25-year period. The remaining amortization period is 25 years.

2. City of Utica Pension Plan

A. Plan Description

All full-time employees other than the Police Officers and the Fire Chiefs are covered by the Municipal Employees Retirement System of Michigan (MERS) Plan which provides retirement and disability benefits and death benefits to Plan members and beneficiaries. The City participates in the MERS, an agent multiple-employer defined benefit plan administered by the MERS Retirement Board. Act No. 427 of the Public Acts of 1984, as amended, establishes and amends the benefit provisions of the participants in MERS. The MERS issues a publicly available financial report that includes financial statements and required supplementary information for MERS. That report may be obtained by writing to the Municipal Employees Retirement System of Michigan, 447 N. Canal Road, Lansing, Michigan 48917 or by calling (800) 767-6377.

B. Contributions Required and Contributions Made

The City is required to contribute at actuarially determined rates; for the year ended June 30, 2007, the rate was 5.44% for Police Dispatchers, 10.97% for AFSCME members, and 9.23% of annual covered payroll for all other covered City employees. Employees are required to contribute to the Plan at the rate of 5% of covered payroll. The contribution requirements of the City are established and may be amended by the Retirement Board of MERS. The contribution requirements of Plan members, if any, are established and amended by the City, depending on the MERS contribution program adopted by the City and negotiations with the City's competitive bargaining units.

NOTE I - Pension Plans (Continued)

2. City of Utica Pension Plan (Continued)

B. Contributions Required and Contributions Made (Continued)

For the year ended June 30, 2007, the City's annual pension cost of \$103,267 for MERS was equal to the City's required and actual contributions. The required contribution was determined as part of the December 31, 2005 actuarial valuation using the entry age normal actuarial cost method. The actuarial assumptions included (a) a rate of return on the investment of present and future assets of 8% and (b) projected salary increases of 4.5% per year compounded annually, attributable to inflation. The actuarial value of MERS assets was determined on the basis of a valuation method that assumes the fund earns the expected rate of return and includes an adjustment to reflect market value. The City's unfunded actuarial accrued liability is being amortized as a level percentage of projected payroll on an open basis. The remaining amortization period at December 31, 2005, the date of the latest actuarial valuation, was 30 years.

Three-year trend information is as follows:

	December 31, 2006	December 31, 2005	December 31, 2004

NOTE J - Contingencies

Federal and State Grants:

Under the terms of certain federal and state grants, periodic audits are required and certain costs may be questioned as not representing appropriate expenditures under the terms of the grants. Such audits could lead to reimbursement to the grantor agencies. The City management believes disallowances, if any, would be minimal.

NOTE K - Act 425 Agreement

On June 26, 1996, the City of Utica, Michigan (Utica) entered into a contract for conditional transfer of property pursuant to Public Act 425 of 1984, with the Charter Township of Shelby Township, Michigan (Shelby Township). The term of the contract is from the date of execution through September 30, 2026.

Pursuant to this contract, a parcel of land of approximately 305 acres was transferred from Utica to Shelby Township for the purpose of an economic development project.

Under the terms of the contract, Shelby Township shall have jurisdiction and be solely responsible for providing water and sewer and cable television services to the east half of the property. All other services, including taxation, shall remain the jurisdiction of Utica.

Commencing September 30, 1997, and annually thereafter during the first fifteen years of the contract, Utica shall pay to Shelby Township a sum equal to three mills levied on the taxable value of the real and personal property located in the development area, less any tax adjustments. During the final fifteen years of the contract, Utica shall pay Shelby Township the sum of \$100 annually. The payment for the fiscal year ended June 30, 2007 was \$259,669.

Commencing on September 30, 1997, and annually thereafter up to and including the year 2011, Shelby Township shall pay Utica a sum equal to \$26,103 per year up to a total of \$391,546.

NOTE L - Municipal Building Authority

The Municipal Building Authority of Utica, Michigan, a public corporation, is organized and existing under the Authority of Act 31, Public Acts of Michigan, 1948, as amended, and Ordinance Number 3, of the City of Utica, Michigan.

The Municipal Building Authority has two funds.

The first fund is the Municipal Building Authority Capital Projects Fund. This Fund receives rent payments from the City for leasing of land and buildings. It is the City's intention to continue to use the Building Authority for capital improvements and future expansion. This Fund will be used to pay for these expenditures. Capital improvements paid by this Fund are included in the General Fixed Asset Account Group.

The second fund is the Municipal Building Authority Senior Citizen Housing Fund. This Fund has been set up under Ordinance Number 130 of the City of Utica, Michigan to provide for the acquisition and construction of a housing facility for senior citizens. Under the terms of the Ordinance, the Municipal Building Authority issued Building Authority Revenue Bonds, Series 1992. This Fund receives rent payments under a Revenue Lease Contract with the City in amounts sufficient to satisfy the Authority's debt service requirements.

NOTE M - Component Units

The Component Units columns in the combined financial statements include the financial data of the City's other component units. The City's other component units are the Downtown Development Authority of Utica, Michigan, the Brownfield Redevelopment Authority of Utica, Michigan, and the Utica Public Library. They are reported in a separate column to emphasize that it is legally separated from the City. The governing boards are appointed by the Mayor and the City Council, but once appointed members can only be removed for cause until their terms expire.

Downtown Development Authority

The Downtown Development Authority of Utica, Michigan, a public corporation, was established August 21, 1989 pursuant to the Act 197, Public Acts of Michigan, 1975, and Ordinance Number 24 of the City of Utica, Michigan.

The Downtown Development Authority was established to halt property value deterioration and increase property tax valuation where possible in the business district of the City, to eliminate the cause of that deterioration, and to promote economic growth. These activities are financed from proceeds of a Tax Increment Financing Plan. Pursuant to this Plan, the Downtown Development Authority receives that portion of the tax levy of all taxing bodies paid each year on real and personal property in the project area on the captured assessed value as defined by Act 197. The Downtown Development Authority is required to expend the tax increments received for the development program only pursuant to the Tax Increment Financing Plan. Upon abolishment of the Downtown Development Authority, surplus funds shall revert proportionately to the respective taxing bodies.

Brownfield Redevelopment Authority

The Brownfield Redevelopment Authority of Utica, Michigan, a public corporation, was established by resolution of the City Council on May 1, 2001, pursuant to the Act 381, Public Acts of Michigan, 1996.

The Brownfield Redevelopment Authority was established to facilitate the implementation of Brownfield plans relating to the designation and treatment of Brownfield Redevelopment zones and to promote the revitalization of environmentally distressed areas. These activities are financed from proceeds of Tax Increment Financing Plans. Pursuant to these Plans, the Brownfield Redevelopment Authority receives that portion of the tax levy of all taxing bodies paid each year on real and personal property in the project area on the captured assessed value as defined by Act 381. The Brownfield Redevelopment Authority is required to expend the tax increments received for the development program only pursuant to the Tax Increment Financing Plans. Upon abolishment of the Brownfield Redevelopment Authority, surplus funds shall revert proportionately to the respective taxing bodies.

Utica Public Library

The City of Utica Public Library is established under MCLA 397.201, et seq, as amended. The Mayor, with the consent of the City Council, appoints directors to the governing board. Board members serve for staggered five-year terms and can only be removed for cause.

Library operations are funded primarily by a one mil tax levy.

The Municipal Building Authority Senior Housing Fund accounts for an apartment building constructed with Revenue Bonds. The Revenue Bonds were refunded by issuing General Obligation Limited Tax Bonds. The refunding bonds are payable from rental payments to be made to the Municipal Building Authority by the City pursuant to a refunding contract. The City of Utica, Michigan, through its Senior Housing Operations Fund, operates and maintains the building. All rents are collected by the Senior Housing Operations Fund along with a maintenance fee. Rents are then transferred to cover Debt Service and Reserve requirements.

To the Honorable Mayor and
Members of the City Council
City of Utica, Michigan
7550 Auburn Road
Utica, Michigan 48317

In planning and performing our audit of the financial statements of the City of Utica, as of and for the year ended June 30, 2007, in accordance with U.S. generally accepted auditing standards, we considered the City's internal control over financial reporting (internal control) as a basis for designing our auditing procedures for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing our opinion on the effectiveness of the City's internal control. Accordingly, we do not express an opinion on the effectiveness of the City's internal control.

Our consideration of internal control was for the limited purpose described in the preceding paragraph and would not necessarily identify all deficiencies in internal control that might be significant deficiencies or material weaknesses. However, as discussed below, we identified certain deficiencies in internal control that we consider to be significant deficiencies or material weaknesses.

A control deficiency exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect misstatements on a timely basis.

A significant deficiency is a control deficiency, or combination of control deficiencies, that adversely affects the entity's ability to initiate, authorize, record, process, or report financial data reliably in accordance with U.S. generally accepted accounting principles such that there is more than a remote likelihood that a misstatement of the entity's financial statements that is more than inconsequential will not be prevented or detected by the entity's internal control.

To the Honorable Mayor and
Members of the City Council
City of Utica, Michigan
Page Two

A material weakness is a significant deficiency, or combination of significant deficiencies, that results in more than a remote likelihood that a material misstatement of the financial statements will not be prevented or detected by the entity's internal control. The following item is a material weakness.

The employee assigned to reconcile the City's general bank account was unable to reconcile it therefore; the reconciliation had not been completed for several months as of June 30, 2007. The reconciliation was ultimately completed by the Treasurer/Finance Director who also performs general ledger duties, signs checks and, makes journal entries, and has the ability to collect cash at the counter. The bank should be reconciled monthly on a timely basis by someone other than the Treasurer/Finance Director who cannot sign checks or make journal entries.

This communication is intended solely for the information and use of the City Council, management, and others within the organization and is not intended to be and should not be used by anyone other than these specified parties.

Sincerely,

PAUL V. ENGSTROM & CO., L.L.P.

Paul V. Engstrom & Co., L.L.P.
