Re: Reliance One, Inc.

Dear Mrs. Beckhorn:

This law firm represents Reliance One, Inc. (ROI), which is a staffing agency headquartered in Auburn Hills, Michigan. By contract, ROI has provided test drivers for its client, Roush Performance, at Roush's Auburn Hills, Warren, Livonia, and Allen Park locations. ROI's contract with Roush to provide test drivers expires on April 30, 2015.

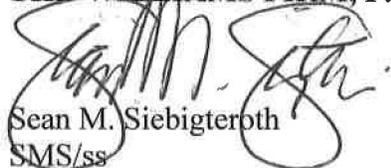

Due to the expiration of its contract to provide test drivers, ROI will terminate the employment of the test drivers on or about April 13, 2015. On information and belief, those employees will be offered employment through the new staffing engaged to provide test drivers for Roush. ROI will notify test drivers of this fact.

ROI informed test drivers at commencement of employment that they have been retained on a variable-hour, project-specific basis. An average of fewer than fifty (50) employees have been employed by ROI as test drivers for Roush on a 20+ hour/week basis since January 2015.

Please contact me directly with any questions you may have.

Very truly yours,

THE WILLIAMS FIRM, P.C.
