

USE OF CLASS B AFFF FIREFIGHTING FOAM

Following the discovery of PFAS in Michigan, the State Fire Marshal and local fire departments have been working together to assess the current use of Class B AFFF Foam and develop new guidelines to best protect Michiganders and the environment.

The new guidelines will help limit the amount of PFAS contamination from the use of Class B AFFF Foam, while also ensuring public health and safety and safeguarding our communities and natural resources.

NO TRAINING
