

EXECUTIVE BUDGET

Fiscal Years 2021 and 2022

STATE OF MICHIGAN

Gretchen Whitmer, Governor

Chris Kolb, State Budget Director

This publication was produced and printed by the Department of Technology, Management and Budget. The purpose of the publication is to inform state and local officials and residents about Governor Whitmer's recommended budget for fiscal year 2021 and projections for fiscal year 2022. This document is required by law MCL 18.1363 and by the Michigan Constitution, Article V, Section 18.

STATE OF MICHIGAN
OFFICE OF THE GOVERNOR
LANSING

GRETCHEN WHITMER
GOVERNOR

GARLIN GILCHRIST II
LT. GOVERNOR

February 6, 2020

My Fellow Michiganders:

I am pleased to put forth my Executive Budget Recommendation for fiscal year 2021. This budget plan makes another strong investment in K-12 schools, with increased funding in the per-pupil foundation allowance, special education, and at-risk youth. The goal remains giving every child a path to a high wage skill for a better life for themselves right here in Michigan.

The strong emphasis on education in this budget proposal is also reflected through a preschool expansion and rate increase, training for literacy coaches, and supplies for educators. A major investment is also made in Michigan Reconnect, providing a tuition-free pathway to an in-demand industry certificate or associate degree for Michigan adults over the age of 25.

Protecting public health and safety is also prioritized in this budget with continued investments to clean up our water and prevent lead poisoning. Funding is provided to train new State Police troopers to keep our communities safe, as well as investments in programs aimed at family unification and reducing the number of foster care cases. I am also proud of the recommended new investments aimed at providing increased access to family planning services and prenatal and postpartum care for low-income women.

While I am proud of the investments in this Executive Budget, there is still so much more that needs to be done for the people of Michigan. With a General Fund that has been flat for more than 20 years, accompanied by numerous spending pressures, a range of important state and local programs remain underfunded. Despite these revenue challenges, this budget maximizes our resources and invests in programs and policies that will have a positive impact.

A new law requiring the Legislature to present the budget to me by July 1 will mean that the Legislative and Executive branches must work together leading up to that date to jointly negotiate a budget focused on the needs of our state. The fiscal year 2021 Executive Budget Recommendation provided on the following pages provides the starting framework for that work.

Sincerely,

Gretchen Whitmer
Governor of Michigan

BUDGET OVERVIEW

Executive Budget Summary For Fiscal Years 2021 and 2022

Governor Whitmer is again dedicated to improving the state's schools, supporting Michigan families, and protecting the environment. The fiscal year 2021 Executive Budget supports programs and policies that will accomplish those goals for the people of Michigan.

This overview highlights the Governor's biggest initiatives and the major pressures that the state faces to its general fund. The remainder of this budget book provides more detailed information on other investments being recommended that support the academic growth of our students, the well-being of our families in Michigan, and the health and safety of our residents.

Investing in Our Children

Governor Whitmer is committed to making Michigan a great place for our students and our teachers. This budget strategically invests in all of our students and their range of educational needs. It also helps create a state where teachers want to be, funding programs from preschool through higher education that will put our state on track toward better academic and career outcomes. Our students are the future, and we have an obligation to help provide the resources and pathways that will help them live productive, meaningful lives. By helping to correct decades of underfunding in Michigan schools, we can start to make sure that every student has access to a quality education.

For fiscal year 2021, the Governor recommends \$15.9 billion in total funding for the state's K-12 schools. This includes a foundation allowance investment of \$290 million, which will provide additional resources of between \$150 and \$225 per pupil to fund basic classroom and operational expenses. The increase will also close the equity gap to \$343 per pupil between schools at the minimum and maximum foundation allowances, helping to ensure that every school has the resources to succeed.

With the cost of educating different types of students varying greatly depending on the unique educational needs of each student, a weighted foundation allowance will ensure that available resources are targeted to increase the chances of success for each student population. The Governor's plan to implement an aggressive weighted funding formula will increase investments to economically disadvantaged students by \$60 million, special education students by \$60 million, and English language learners by \$5 million.

Another key factor in student success is access to quality preschool programs. The evidence shows that children who attend a preschool program are better prepared for kindergarten than those who do not, with low-income and disadvantaged children often making the most progress. That is why Governor Whitmer is investing more funding into the Great Start Readiness Program, which currently serves 38,000 children statewide. The funding added in this Executive Budget will enroll an additional 5,000 children across the state, targeting areas with the highest levels of academic need, and increase the full-day per-child rate by almost 15%. In addition, this budget adds extra funding to the early literacy program. This investment will help to train literacy coaches across the state, making sure they are prepared to help the children who need them most.

The fiscal year 2021 Executive Budget also champions our teachers. This budget sets forth various programs and investments that will help make Michigan a top choice for educators. A Teacher Cadet Program will help create a student-to-teacher pipeline for high school students, while helping to keep our educated youth at home where they can grow to become advocates for their schools and communities. This budget also seeks to reimburse teachers for classroom supplies that they have paid for out of their own pockets, helping to offset the hundreds of dollars per year they are spending for these resources. In addition, this budget seeks to streamline processes for out-of-state teachers with in-demand skills to teach in Michigan and improve online resources and job posting databases to help with recruitment efforts.

The fiscal year 2021 Executive Budget also includes one-time grants for school facility upgrades. These upgrades will provide students with safe, healthy, learning environments where they can succeed. Improvements include air and water filter replacement, lead and asbestos abatement, heating and cooling modifications, and other facility upgrades. In total, this budget makes the largest investment in school operations in 20 years.

Recommended State Funding for School Operations is the Largest Increase Per Pupil in 20 years

Learning does not stop when a student leaves high school. Many go on to community colleges and state universities or seek certification in a career or technical education program. The fiscal year 2021 Executive Budget Recommendation provides investments for all these higher education pathways. A 2.5% increase in operations funding for the state’s universities and community colleges is recommended in this budget, and the Governor continues her mission to increase higher education attainment in the state to at least 60% over the next ten years by launching the Reconnect program. Reconnect provides a tuition-free pathway to an in-demand industry certificate or associates degree for eligible students over the age of 25. This investment in our talent will help Michigan residents live better, more prosperous lives while helping to contribute to the economy right here at home.

Support for Michigan Families

The Governor knows that healthy families are at the core of creating a vibrant state where our children can flourish. That is why this budget helps to eliminate barriers to quality health care and affordable childcare. With these types of key investments, we can start to improve the quality of life for thousands of families across the state.

One of the most important investments pertaining to families in this budget is the Healthy Moms, Healthy Babies program which encompasses a variety of initiatives that will address known gaps in access to care and counseling services for families, and particularly mothers. The program will expand Medicaid eligibility for low-income women, allowing them greater access to reproductive health and family planning services. When a mother has delivered a child, the program will enhance access to postpartum care, which has shown to decrease the cases of maternal mortality. Then after the mother takes her child home, the Healthy Moms, Healthy Babies program will connect at-risk families to in-home resources such as child safety counseling and nursing services. Access to these resources will promote healthy and safe environments for mothers and their children.

This budget also takes a significant step in promoting access to quality childcare and paid parental leave in Michigan. Governor Whitmer has committed to providing paid parental leave to all of Michigan's 46,000 state employees. This policy follows those recently implemented by the federal government and helps parents who must choose between going to work or spending this critical time with their families. In addition to access to parental leave, this budget expands the number of low-income families eligible for subsidized childcare, which will help those families' bottom lines and empower them to seek better career opportunities.

Supporting a Clean Environment

The environment in which we live has a strong impact on our daily life. From the air we breathe to the water we drink, our health and happiness relies on the quality of our environment. This budget invests in several programs and policies that will address Michigan's environmental needs. Top priorities include providing resources for decreasing phosphorous runoff in the Western Lake Erie Basin, providing cooperative support of the Brandon Road Lock and Dam to help prevent the spread of invasive species like Asian Carp, implementing grants that will protect local communities from the negative impacts of climate change, improving the energy efficiency of state facilities, implementing the Michigan Saves green bank to encourage lenders to provide favorable rates to private residents for renewable energy improvements, and funding abatement activities at contaminated properties.

General Fund Pressures

Fiscal year 2021 general fund revenues are now estimated at \$11 billion. This revenue amount is still barely above the level of two decades ago and is not enough to keep up with inflation and the increased baseline costs faced by the state. Had the general fund continued to grow at the rate of inflation since fiscal year 2000, it would be estimated at over \$16 billion.

General Fund - General Purpose Revenue

Note: Fiscal years 2020 and 2021 reflect reduction of \$170m+ under HB 4125

A variety of factors contribute to the fund remaining flat – most recently a number of diversions of revenue for roads and other purposes. Additionally, many baseline cost increases are hitting the budget for fiscal year 2021 as a result of past state policy decisions, changes in federal policy or increased enforcement of past audit findings, other inflationary and unavoidable costs, and legal judgments or settlements. Combined, these increased costs add up to over \$600 million in increased ongoing general fund expenditures just to maintain the current level of state services. Because of those new baseline costs, this budget limits new ongoing general fund budget commitments to only the most critical needs and instead targets available one-time funding to initiatives that will have long-term benefits for the health and safety of the state’s residents.

Total Budget

The recommendation for the fiscal year 2021 budget, including all state and federal revenue, stands at \$61.9 billion. The state’s total general fund budget is \$11 billion, an increase of 5.8% from the current fiscal year 2020 level due to baseline cost increases. The state’s school aid fund budget stands at \$15.9 billion, an increase of 4.9% from fiscal year 2020.

Department of Agriculture and Rural Development

Governor's Recommended Budget for Fiscal Years 2021 and 2022

The Department of Agriculture and Rural Development safeguards the state's food supply and promotes the agricultural interests of the state. This department accomplishes this mission through the achievement of their key goals of assuring food safety, human and animal health, environmental sustainability, and economic development.

The Governor's recommended budget for fiscal years 2021 and 2022 includes total ongoing funding of \$110.3 million, of which \$53.5 million comes from the state's general fund. The Governor also recommends \$10.0 million general fund in one-time funding in fiscal year 2021.

Highlights

The Governor's recommended budget enhances support for the following key agricultural and rural development programs:

- ◆ An increase of **\$10.6 million for the Conservation Reserve Enhancement Program** (general fund). Specifically, \$10 million in one-time support is provided to leverage up to \$250 million in federal funding to reimburse Michigan farmers for implementation of conservation practices designed to reduce the transport of phosphorus, nitrates, and pesticides into the soil, ground water, and surface water, thereby improving stream habitats, reducing flood peaks, and restoring critical habitat for game and nongame wildlife species. Additionally, \$600,000 in ongoing (general fund) support will provide outreach and education, technical assistance, and grants for water research in affected areas.
- ◆ Provides **\$504,000 for the Feed and Fertilizer Audit Program** (restricted funds) for auditors to monitor feed and fertilizer producers to ensure compliance with statutory reporting requirements.
- ◆ Adds **\$225,000 for the Licensing and Inspection IT System** (general fund) to cover ongoing maintenance and support costs for Phase I of the licensing and inspection system upgrade, which will consolidate over 40 license types with a simple public facing interface.
- ◆ Increases support by **\$76,900 for the Cervid Program** (general fund) to ensure compliance with Public Act 132 of 2019, which revised the Animal Industry Act. New statutory requirements expand Chronic Wasting Disease certification requirements to include all breeding herds and requires a permit for intrastate movement.

Funding Protects Public Health and the Environment

Reduction

The Governor’s budget **reduces general fund by \$4 million by eliminating the Food and Agriculture Investment Program** as the agency continues to leverage funding through its state, federal, and local partners, and provides targeted economic development support through its rural development funds.

Department of Attorney General

Governor's Recommended Budget for Fiscal Years 2021 and 2022

The Attorney General is the top lawyer and law enforcement official protecting and serving the people of Michigan. The Attorney General is responsible for protecting the public from violent criminals, enforcing consumer protections, leading the fight against human trafficking and opioid abuse, and preserving the state's natural resources.

The Governor's recommended budget for fiscal years 2021 and 2022 includes total ongoing funding of \$107 million, of which \$41.6 million comes from the state's general fund.

Highlights

The Governor's recommendation makes key investments in the following programs:

- ◆ **\$387,500 in new funding to support the Elder Abuse Task Force** (general fund) to provide staffing to investigate abuse of seniors, including financial crimes committed by family members and guardians.
- ◆ **\$4 million for legal efforts for environmental protection** including protecting residents from chemical contamination of drinking water and commercial pollution.
- ◆ **\$3.7 million to support child support enforcement efforts** (\$900,000 general fund) to enforce court ordered child support obligations to help ensure the basic needs of children are met.

Elder Abuse Referrals to Adult Protective Services Have Tripled in a Decade

Reduction

The Governor's budget **recognizes \$521,100 in savings** (general fund) based on the success of the Public Safety Initiative in handling over 107,000 felony and misdemeanor cases for county prosecutors since 2013.

Department of Civil Rights

Governor's Recommended Budget for Fiscal Years 2021 and 2022

The Department of Civil Rights works to prevent discrimination and enforce civil rights laws in the areas of employment, education, housing, public accommodation, law enforcement and public service. This mission is accomplished through investigative services in response to complaints received by the department, as well as various training and community-based partnership initiatives that promote voluntary compliance. The department is overseen by an eight-member commission that is appointed by the Governor.

The Governor's recommended budget for fiscal years 2021 and 2022 includes total ongoing funding of \$16.8 million, of which \$13.5 million comes from the state's general fund.

Highlights

The Governor's recommended budget continues support for the following key civil rights programs:

- ♦ **\$9.8 million for Complaint Investigation, Legal Services Review, and Enforcement** (\$6.6 million general fund) to investigate complaints to determine whether unlawful discrimination has occurred and ensure that submissions have met required statutory legal criteria. The agency further serves as negotiator between the claimant and responder to bring about a successful resolution for all parties involved.
 - ♦ **\$2 million (general fund) for Education and Community Partnerships.** These resources support diversity training and information sharing in collaboration with community-based organizations, governmental units, advocacy groups, law enforcement, and the private sector. In particular, support is maintained for the Advocate, Leaders, Police and Community Trust Programs operating in 10 major cities. These programs bring federal, state, and local law enforcement leaders together with community leaders to address trust issues between police and the communities they serve.
-

Community Colleges

Governor's Recommended Budget for Fiscal Years 2021 and 2022

Michigan's 28 public community colleges served over 340,000 students last year, providing affordable access to postsecondary educational opportunities. These institutions are a critical component in realizing the Governor's educational attainment goal of at least 60% of Michigan residents between the ages of 25 and 64 earning a college degree or certificate by 2030.

The Governor's recommended budget for fiscal year 2021 includes total funding of \$433.8 million, all of which comes from the school aid fund.

Highlights

The Governor's recommended budget includes:

- ♦ **\$8.1 million in additional community college operations funding** (school aid fund), representing a 2.5% increase over fiscal year 2020. This increase is distributed through the existing performance funding formula. Receipt of the funding increase is contingent on colleges holding tuition increases below 4.25% (equal to 2.5 times the projected inflation), in order to limit tuition cost increases for students and their families and ensure the fiscal sustainability of the new Reconnect Program for adults pursuing credentials, certificates, and associate's degrees.
 - ♦ **\$11 million for community college retirement obligations**, bringing the total to \$98 million. The Governor's recommended budget continues to provide state support for retirement contributions to the Michigan Public School Employees Retirement System (MPERS), providing fiscal stability to community colleges. The increase in required funding is driven primarily by changes in actuarial assumptions tied to longer lifespans for retirees.
-

Continuing Funding

Beyond the investments highlighted above, the Governor's recommended budget continues \$2.2 million in funding for **Renaissance Zone Tax Reimbursements** to hold community college districts harmless from the impact of property tax exemptions in designated Renaissance Zones.

Department of Corrections

Governor's Recommended Budget for Fiscal Years 2021 and 2022

The Department of Corrections is dedicated to protecting public safety through the operation of 27 state correctional facilities, housing approximately 38,000 prisoners, while also supervising 54,400 parolees and probationers. The department provides a variety of programming, training, and support services to ensure that every offender has access to the tools they need to become self-sufficient members of society.

The Governor's recommended budget for fiscal years 2021 and 2022 includes total ongoing funding of \$2.1 billion, of which \$2 billion comes from the state's general fund.

Highlights

The Governor's recommended budget includes:

- ♦ **\$8.5 million for new custody staff training** (general fund) to address high attrition among corrections officers. Funds support the training of 330 corrections officers annually to maintain safe prison operations.
 - ♦ **An investment of \$500,000 for employee wellness enhancements** (general fund) to help manage occupational stress among correctional employees. Funds will support additional employee wellness resources to address the negative impacts that working in high-stress correctional environments have on department employees and their families.
 - ♦ **Continuation funding of \$132.7 million for offender success programming** to further reduce Michigan's prisoner population. Funds provide offenders with educational programming, job training, and support services designed to minimize the chances of future offense and help offenders become productive citizens. As a result of continuous investments in offender success programming, the state has maintained historically low recidivism rates below 30% for the past three years.
-

Prisoner Population at Lowest Level in over 25 Years

Reduction

The Governor’s budget recognizes savings of **\$10 million general fund** through the relocation of the Special Alternative Incarceration Program in Chelsea to the Cooper Street Correctional Facility in Jackson. As a result of declines in the number of offenders eligible and sentenced to the program, the relocation aligns program capacity with current placements and allows for greater operational efficiencies at the Cooper Street Correctional Facility.

Department of Education

Governor's Recommended Budget for Fiscal Years 2021 and 2022

Leadership for Michigan's public education system is vested by the Michigan state constitution in the elected members of the State Board of Education and the Superintendent of Public Instruction. The Michigan Department of Education's (MDE) major responsibilities include administration of the School Aid budget, early childhood learning, school improvement and accountability, and educator preparation and certification.

The Governor's recommended budget for fiscal year 2021 includes total ongoing funding of \$450.4 million, of which \$87.6 million comes from the state's general fund. The Governor also recommends \$1.8 million in one-time funding in fiscal year 2021, all of which comes from the general fund.

Highlights

The Governor's recommended budget includes four key investments in MDE programs:

- ◆ **\$27 million for Child Development and Care** (federal funds) to expand access to high-quality child care for low-income families by increasing the income limit from 130% to 150% of the federal poverty level (\$31,995 for a family of three), effective January 1, 2021, and to cover the cost of required background checks for child care workers. This investment will expand child care services to an estimated 5,900 children.
- ◆ **\$1.8 million for Public Broadcasting Services (PBS) Early Childhood Initiative** (general fund) in one-time funds to expand high-quality and evidenced-based learning to all children ages 0-5 in the state. This includes the expansion of PBS programming PBS KIDS, Ready to Learn, and Pre-School U programs which provide supports to parents and early childhood teachers.
- ◆ **\$180,000 for Michigan's educator supports** (general fund) to focus on improved recruitment and retention of teachers in districts that are struggling academically. Efforts will also be made to inform and educate the public on the teaching profession and to increase the number of qualified educators in the state.
- ◆ **\$100,000 for Michigan's poet laureate** (general fund) to create and support a state poet laureate who will travel the state meeting with teachers and students to promote poetry, the spoken word, and literary arts in a generation of young students.

Department of Environment, Great Lakes, and Energy

Governor's Recommended Budget for Fiscal Years 2021 and 2022

The Department of Environment, Great Lakes, and Energy (EGLE) strives to protect Michigan's water, air, and land resources to safeguard public health and sustainably manage the environment.

The Governor's recommended budget for fiscal years 2021 and 2022 includes total ongoing funding of \$503 million, of which \$54.1 million comes from the state's general fund. The Governor also recommends \$20 million in one-time general fund in fiscal year 2021.

Highlights

The Governor's recommended budget provides support for the following key EGLE programs:

- ♦ **\$20 million for rapid environmental contamination response** (general fund). This one-time funding provides additional resources for identification, prioritization, and initial abatement of contaminated properties across the state.
 - ♦ **\$4 million for the Oil and Gas program** (general fund) to fully support the permitting, drilling oversight, monitoring, and regulatory enforcement of the state's oil and natural gas wells. The Oil and Gas program encourages oil and gas development while providing for the protection of public health, public safety, and the environment. Michigan currently has over 18,500 active oil and gas wells that the department oversees, and associated restricted funding is not sufficient to fully fund the program.
-

**Annual Renew Michigan Funding
Supports Cleanup at Sites Around the State**

Department of Health and Human Services

Governor’s Recommended Budget for Fiscal Years 2021 and 2022

The Department of Health and Human Services (DHHS) provides opportunities, services, and programs to promote a healthy, safe, and stable environment that allows Michigan residents to be self-sufficient. DHHS operates a network of offices throughout the state and administers critical programs including Medicaid, public health, child welfare, and public assistance.

The Governor’s recommended budget for fiscal year 2021 includes total ongoing funding of \$27 billion, of which \$5 billion comes from the state’s general fund. The Governor also recommends \$128.3 million in one-time funding, of which \$53.5 million comes from the state’s general fund.

Highlights

The Executive Budget includes seven new investments in critical DHHS programs, including \$57.8 million to enhance access to critical health care services and improve outcomes, \$29.2 million to improve outcomes within the state’s foster care system, and \$29 million to address broader, emerging health care challenges such as opioid use disorder, social determinants of health, and behavioral health needs. Investments include the following:

- ♦ **\$37.5 million for Healthy Moms, Healthy Babies** (\$17.6 million general fund) to reduce infant mortality rates and racial disparities in birth outcomes through expanded maternal and reproductive health services and home visiting programs. Funding will extend Medicaid family planning benefits to women of child-bearing age up to 200% of the poverty level, expand Medicaid postpartum coverage from 60 days to 12 months after birth, increase evidence-based home visiting services to high-risk mothers and vulnerable families, and expand psychiatric support services to perinatal providers.

Infant Mortality Rates per 1,000 live births Michigan Comparisons and US National Average

- ◆ **\$20.3 million for long-term care services and supports options counseling** (\$8.5 million general fund) through a network of independent, conflict-free providers. Services supported by this funding will provide beneficiaries with information on all long-term care options available to them, allowing them to seek the care best suited to their needs.
 - ◆ **\$20.6 million for a Comprehensive Child Welfare Information System** (\$12.2 million general fund) to complete the first phase of the replacement of the current Michigan Statewide Automated Child Welfare Information System with a modern cloud-based system. The Governor's budget also includes \$11.3 million (\$5.8 million general fund) for this new system as a fiscal year 2020 supplemental appropriation. The entire upgrade for all phases is planned to be completed by fiscal year 2025.
 - ◆ **\$8.6 million for foster care prevention programming** (\$5.4 million general fund). New federal funding made available under the federal Family First Prevention Services Act will allow the state to invest in programs designed to prevent children from entering foster care and to reduce the utilization of residential care for foster children, producing better outcomes for Michigan's vulnerable youth. These costs will be offset by estimated savings of \$11.3 million (\$5.3 million general fund) generated by fewer children entering the higher-cost foster care system.
 - ◆ **\$11.7 million for Social Determinants of Health infrastructure** (\$7.1 million general fund) to invest in community-based systems and technological infrastructure to support data sharing across programs and providers and appropriately connect individuals to state and local services. Funding will establish a standard screening tool to determine health-related social needs (e.g., food security and housing stability) and make referrals to community-based resources. Local partnerships across eight regions will coordinate services, identify gaps in community-based programs, and guide resource investment.
 - ◆ **\$12.3 million to expand DHHS's response to the opioid crisis** (one-time, \$10 million general fund). This funding will support initiatives involving data-driven quick response teams, a predictive analytics system, substance use disorder treatment outcomes monitoring, and a revolving loan fund for recovery housing providers. Funding will also support training for community providers and criminal justice diversion grants.
 - ◆ **\$5 million to increase psychiatric care staffing** (general fund) to improve the quality of care and staff and patient safety at state psychiatric hospitals. Funding supports 63 new positions across four facilities. An additional \$30 million in one-time general fund is recommended in the budget for the Department of Technology, Management and Budget to address a backlog of facility maintenance needs.
-

Other Investments and Continuing Funding

The recommended budget also includes funding for initiatives to address other key challenges:

Rural Health Care

- ♦ **\$352.6 million to leverage special financing for hospital reimbursement rates** (federal and restricted revenues). The Executive recommendation boosts Medicaid reimbursement for outpatient hospital care, which is especially advantageous to small and rural hospitals which rely more heavily on Medicaid and have relatively higher outpatient utilization. The rate increase leverages hospital provider tax revenue to match federal Medicaid dollars and provides ongoing state general fund savings of \$15 million through a statutory state retainer.
- ♦ **\$86.5 million to expand the MIDocs medical residency program** (one-time, \$21.6 million general fund). This investment will improve access to critical services in rural and medically underserved areas of the state by providing loan forgiveness to physicians committed to serving in those areas. One-time funding when combined with base funding will support 48 residency slots within cohorts beginning residencies over the next five years.

Health Care Access

- ♦ **\$17.2 million to increase reimbursement to tribal health centers** (\$75,000 general fund). This investment will allow the department to utilize advantageous federal matching funds available for Medicaid pharmacy reimbursement to tribal health centers, enabling tribes to expand health care and social services for tribal members.
- ♦ **\$8.7 million to increase reimbursement for private duty nursing services** (\$3.1 million general fund) to ensure frail and chronically ill children have access to needed care in home and home-like settings.
- ♦ **\$5.1 million for Non-Medicaid Community Mental Health Services programs** (general fund) to enhance community-based services and supports for individuals with mental illness, serious emotional disturbance, and developmental/intellectual disabilities who do not meet Medicaid eligibility criteria. Around 52,000 Michigan residents currently access these services.
- ♦ **\$2 million for an Oral Health Assessment program** (general fund) to screen public school children entering kindergarten. This program will provide free dental screenings and assessments to children who do not have dental coverage.

Other Critical Health and Safety Issues

- ♦ **\$10.0 million for a Lead Poisoning Prevention Fund** (one-time general fund) to enhance Michigan's ability to eliminate lead poisoning by injecting private capital into lead remediation efforts in homes. This fund will establish a loan loss reserve for private lenders, encouraging lending for lead remediation at below-market interest rates.

Health and Human Services

- ♦ **\$2.5 million for first responder and public safety staff mental health** (one-time general fund) to provide firefighters, police officers, paramedics, dispatchers, and corrections officers with services to support their mental health. This funding will provide greater resources to address post-traumatic stress disorder, suicidal ideation, and other mental health crises.
- ♦ **\$1.3 million for Campus Sexual Assault Prevention and Education program** (general fund) to support college and high school sexual assault programming including education, awareness, prevention, reporting, bystander intervention, peer advocacy groups, and student organizations.

Value for Health Care Spending

- ♦ **\$5 million for behavioral health system redesign efforts** (\$3 million general fund) that support policy development and projects that will strengthen and improve the behavioral health system by protecting safety net programs and integrating physical and behavioral health payments and clinical services.
- ♦ **\$5 million to create a Medicaid Transformation Office** (\$2.5 million general fund). Effective value-based payments are a powerful tool for states to increase the quality of Medicaid services while also containing state costs. Funding will support the development of innovative programs and payment mechanisms in Michigan's physical health and behavioral health managed care programs.

Protecting Health Care Coverage

- ♦ **Maintains \$4.5 billion in funding for the Healthy Michigan Plan** which provides comprehensive health care coverage for around 675,000 Michigan residents living in low-income households. State match requirements were fully phased in at 10% starting in January 2020. Going forward, the federal government will continue to cover 90% of the costs of health care services under the program. State-level financial savings due to the program continue to more than offset state match costs, and Michigan hospitals continue to realize much lower levels of uncompensated care costs.

Reductions

The recommended budget includes the following reductions to ensure state funds are spent in the most effective manner while preserving funding for critical services:

- ♦ **\$182.9 million from Medicaid pharmacy reimbursement reform** (\$45.8 million general fund) tied to implementation of a single, statewide Medicaid preferred drug list (PDL). The PDL will help maximize federal rebates and provide DHHS greater leverage in negotiating lower prices with drug manufacturers. Savings will be used, in part, to increase pharmacy reimbursement rates to further enhance access to provider networks throughout the state.
- ♦ **\$84.4 million through restructuring nursing home reimbursement rates** (\$30.3 million general fund). DHHS will implement reimbursement changes to shift from a cost-based to a patient-driven payment model. With federal Medicare implementing similar changes,

Michigan will work with nursing home providers to implement payment reform that incentivizes quality services for those cared for in nursing homes, simplifies Michigan's labor-intensive and complex cost-based reimbursement system, and achieves state savings.

- ◆ **\$49.7 million reduction to Medicaid health plan rates** (\$17.9 million general fund) in recognition of uncollected third-party liability recoupments. The rate reduction will incentivize the plans to seek and collect appropriate reimbursement from other liable parties.
- ◆ **\$5.1 million from Community Mental Health local match funds** (general fund). Funding was included for fiscal year 2020 to offset county match requirements for Medicaid behavioral health and shift the costs to the state general fund. The Executive Budget instead redirects this funding to allow for expanded non-Medicaid behavioral health services.
- ◆ **\$4.9 million due to reduced placement of foster children in higher-cost congregate care** (\$2.4 million general fund) resulting from new federal placement requirements. The Family First Prevention Services Act of 2018 included new Qualified Residential Treatment Program (QRTP) requirements for congregate care providers, as well as new restrictions on the placement of children in congregate care settings. This will ensure that children are cared for in the most home-like setting possible.

Department of Insurance and Financial Services

Governor's Recommended Budget for Fiscal Years 2021 and 2022

The Department of Insurance and Financial Services (DIFS) ensures access to safe and secure services for Michigan consumers by providing oversight of the state's insurance and financial services sector.

The Governor's recommended budget for fiscal years 2021 and 2022 includes total ongoing funding of \$73.3 million, all of which is from restricted and federal fund sources.

Highlights

The Governor's recommended budget includes one key change for fiscal year 2021:

- ◆ **Increase of 20.0 FTEs for implementation of No Fault Auto Insurance reform** (no additional funding authorization needed). These positions are in addition to 16.0 FTEs and \$3.2 million authorized in Public Act 154 of 2019. Since passage of this fiscal year 2020 supplemental appropriation, DIFS has seen a higher than expected level of activity related to no fault implementation. The Governor's recommendation provides for appropriate staffing to process claim appeals, auto insurance fraud investigations, rate and utilization reviews, as well as conduct consumer education and outreach and respond to consumer complaints and inquiries.

DIFS Funding Supports Industry Oversight and Consumer Protection

Reduction

The recommended budget reduces funding for the following:

- ♦ **\$150,000 (general fund) for Executive Director Programs is discontinued.** These funds were intended to support development of the annual Healthy Michigan Plan uncompensated care report required pursuant to Public Act 107 of 2013. However, this report has been fulfilled by the Department of Health and Human Services so the funds are not necessary.

Judiciary

Governor's Recommended Budget for Fiscal Years 2021 and 2022

Michigan's Constitution vests the state's judicial power in "One Court of Justice" composed of the Supreme Court, the Court of Appeals, the Circuit Court, the Probate Court, and courts of limited jurisdiction such as the district courts and municipal courts.

The Governor's recommended budget for fiscal years 2021 and 2022 includes total ongoing funding of \$314.8 million, of which \$203.8 million comes from the state's general fund.

Highlights

The Governor's recommended budget provides for the following key programs:

- ♦ **\$325,700 increase for pretrial risk assessments** (general fund) to support enlightened pretrial bail practices focused on reducing incarceration rates of low-risk defendants, protecting the general public, and controlling county public safety expenditures. With evaluation and analysis by independent academic investigators, the results of this pilot project are expected in the fall of 2020.
 - ♦ **\$18.2 million for Michigan's problem-solving courts** (\$12.9 million general fund) to support specialized courts that focus on rapid treatment and rehabilitation of underlying substance abuse and mental health issues as an alternative to incarceration.
 - ♦ **\$3.3 million for community dispute resolution services** (\$879,800 general fund) which allows Michigan residents to resolve small claims, general civil, and landlord-tenant cases without appearing in court.
-

**Problem-Solving Courts Successfully Reduce Recidivism.
Graduates Commit Far Fewer Crimes.**

Department of Labor and Economic Opportunity

Governor's Recommended Budget for Fiscal Years 2021 and 2022

The Department of Labor and Economic Opportunity (LEO) coordinates economic, labor, housing, and workforce development efforts across the state through the work of the Michigan Strategic Fund, the Michigan State Housing Development Authority, the State Land Bank Authority and other employment and workforce focused programs and commissions. LEO strives to drive economic development, build vibrant communities, attract and retain talent, protect health, safety, and economic security of workers, and create affordable housing.

The Governor's recommended budget for fiscal years 2021 and 2022 includes total ongoing funding of \$1.4 billion, of which \$174.9 million is from the state's general fund. The Governor also recommends \$12 million in one-time funding in fiscal year 2021, all of which is from the general fund.

Highlights

The Governor's recommended budget provides support for the following key LEO programs:

- ◆ **\$35 million for Reconnect in the Higher Education budget** (restricted funds) to accelerate the state's progress towards reaching the critical goal of 60% of Michiganders with a postsecondary degree or industry credential by 2030. Reconnect will provide tuition-free training for non-traditional students older than age 25 to receive a credential, certificate, or an associate degree. The funding is included in the fiscal year 2020 supplemental and will provide support for the program over two years.
- ◆ **\$100 million for Business Attraction and Community Revitalization** (\$58.6 million general fund), a gross increase of \$20.6 million from the reduced FY 2020 level. This adjustment restores funding to an appropriate investment level to support job creation, stimulate private investment, and revitalize and redevelop vital properties in communities across the state.
- ◆ **\$27.9 million for Going Pro** (general fund) to reinstate job training grants to businesses to support training for new and current employees in high-demand, skilled trades industries. In fiscal year 2019, the Going Pro program trained over 25,000 employees and contributed to over 1,500 new apprenticeships.
- ◆ **\$15 million for Pure Michigan** (general fund) to promote Michigan as a travel destination, with the ability for the tourism industry to continue contributing additional funding to this statewide effort that encourages travelers to experience Michigan's four-season natural beauty, its unique urban destinations and its world-class cultural attractions.
- ◆ **\$10 million for a Nature, Science, and Cultural Experiences Grant Program** (general fund) to provide new competitive one-time grants to anchor institutions for transformative projects that bring art, science, nature, history, and culture to Michigan residents and

visitors, provide economic benefits to local communities, and preserve and celebrate Michigan's cultural diversity.

- ♦ **\$14 million for the Centers for Independent Living** (\$5.6 million general fund) to provide critical services to residents with disabilities who rely on assistance to live independently. This \$2 million increase will allow the Centers for Independent Living to continue assisting individuals in finding affordable and accessible housing, access transportation, coordinate benefits, and access other community resources.
- ♦ **A total of \$2 million for a Postsecondary Best Practices Grant and Focus: HOPE.** The new Postsecondary Best Practices Grant will encourage institutions of higher education to implement best practices around college completion, while funding for Focus: HOPE will further support their workforce development, youth development, and community empowerment and advocacy programs.

Restores core economic development funding for the Business Attraction and Community Revitalization program.

Reductions

The recommended budget reduces funding for the following programs:

- ♦ Removal of \$2.25 million general fund for fiscal year 2020 one-time items.
- ♦ **\$250,000 general fund reduction for the First Responder Presumed Coverage Fund** as a new dedicated restricted revenue stream, estimated to collect \$4 million annually, has been identified through the recently enacted Sports Betting and Internet Gaming legislation.

Legislature

Governor's Recommended Budget for Fiscal Years 2021 and 2022

The Legislature is a sovereign and independent branch of state government that consists of a 38-member Senate and a 110-member House of Representatives. The elected Legislature is endowed with the constitutional authority to enact laws that regulate state government and protect the interests of the people.

The Governor's recommended budget for fiscal years 2021 and 2022 includes total ongoing funding of \$207.2 million, of which \$193.7 million comes from the state's general fund.

Highlights

The Governor's recommended budget continues support for the following legislative entities:

- ♦ **\$148.2 million for the Senate and the House of Representatives** (\$147 million general fund), associated fiscal agencies, and supporting entities.
 - ♦ **\$19.2 million for the Legislative Council** (\$18.8 million general fund) to support Council operations which include bill drafting, research, and other services to the Legislature.
 - ♦ **\$26.7 million for the Office of Auditor General** (\$18.3 million general fund), with constitutional authority to conduct financial and performance audits of all state branches, departments, offices, boards, authorities, and other institutions.
 - ♦ **\$8.2 million for the State Capitol Historic Site** (\$4.9 million general fund) for the maintenance and restoration of the State Capitol building and grounds.
 - ♦ **\$4.8 million for the Independent Citizens Redistricting Commission** (general fund), an increase of \$1.4 million based on state constitutional requirement (25% of Department of State general fund appropriation).

Department of Licensing and Regulatory Affairs

Governor's Recommended Budget for Fiscal Years 2021 and 2022

The Department of Licensing and Regulatory Affairs (LARA) serves as the state's primary regulatory agency, providing oversight for a wide range of program areas, including health and childcare, business, construction, marijuana, indigent criminal defense, liquor, and professional occupations.

The Governor's recommended budget for fiscal years 2021 and 2022 includes total ongoing funding of \$482.6 million, of which \$148.2 million is from the state's general fund. An additional \$5 million is recommended as one-time funding from the general fund.

Highlights

The Governor's recommended budget provides:

- ♦ **\$117.5 million for Indigent Criminal Defense** (\$117.3 million general fund) for 134 trial court funding units to meet the ongoing requirements for the effective assistance of counsel for indigent criminal defendants. This is a \$36.5 million increase from the fiscal year 2020 level as more trial courts will be incurring full year implementation costs for their compliance plans to meet standards #1-4, as approved by the Michigan Indigent Defense Commission.
- ♦ **\$50.3 million for Marijuana Regulation** (all restricted funds) to administer the state's medical and recreational marijuana industry, which includes \$20 million allocated to support research for veteran medical conditions and preventing veteran suicide, in accordance with Initiated Law 1 of 2018. Across the full state budget, excise tax collections from recreational marijuana sales are forecast to result in the following fiscal year 2021 distributions: \$36.9 million to qualifying local counties and cities, \$43.1 million to the school aid fund for K-12 education, and \$43.1 million for road and bridge repair and maintenance.
- ♦ **\$5.8 million to replace Michigan's Liquor Sales, Purchasing and Inventory IT system** (to be funded from the Information Technology Investment Fund). As a control state, the Michigan Liquor Control Commission is responsible for regulating the sales and distribution of all distilled spirits across Michigan, an industry that exceeds \$1.4 billion in annual sales. Net profits are returned to the state.

Replacing this 40-year old IT system will increase efficiency, improve fraud detection, provide for more accurate reporting, and enhance the overall user experience for over 13,000 retail users of the system. This project will be completed over two years, with an additional \$1.1 million needed to complete the project in year two.

- ♦ **\$5 million for the Michigan Saves green bank** (all general fund), to leverage private investment in clean energy improvements for Michigan's residents and businesses. By providing a credit enhancement to lenders, the green bank incentivizes lenders to provide

more favorable rates and terms for renewable energy improvements benefitting property owners and the environment.

Since 2010, over \$1.9 billion in net profits from liquor sales have been deposited to the general fund.

Reductions

The recommended budget reduces funding for the following programs:

- ♦ A cumulative **\$810,300 reduction in Liquor Purchase Revolving Fund** appropriations, of which \$400,000 is replaced with other restricted funds. An additional \$100,000 fund shift in the Bureau of Construction Codes achieves \$100,000 in general fund savings.
- ♦ Funding for **Urban Search and Rescue** is not included in the Governor's recommended budget. This is a \$600,000 general fund decrease in recognition of the one-time nature of the funding.

Department of Military and Veterans Affairs

Governor's Recommended Budget for Fiscal Years 2021 and 2022

The Department of Military and Veterans Affairs provides operation-ready military forces to protect our state and supports veterans and their families through outreach, benefit coordination, and the operation of three veteran homes providing skilled nursing care. The department is comprised of the Army National Guard, Air National Guard, Michigan Veteran Homes, and Michigan Veterans Affairs Agency.

The Governor's recommended budget for fiscal year 2021 includes ongoing funding of \$211.1 million, of which \$66.4 million comes from the state's general fund, and one-time funding of \$13.2 million general fund.

Highlights

The Governor's recommended budget provides continuing support in these key areas:

- ♦ **\$66.5 million ongoing support for Michigan Veteran Homes** (\$28 million general fund) to provide quality long-term care for veterans and their eligible family members at the state's three veteran homes, including two new homes located in Grand Rapids and Chesterfield Township in Macomb County. These state-of-the-art facilities will provide Centers for Medicare and Medicaid Services-certified skilled nursing care to 256 military veterans, while beginning to reduce the reliance on state general fund revenue by maximizing federal funding sources. One-time funding is provided to support the transition from the current home in Grand Rapids to the new one over the course of fiscal year 2021.
 - ♦ **\$62.3 million for National Guard Operations, Support Facilities, and Armories** (\$10.7 million general fund) to maintain trained, combat-capable forces to ensure the security of our state. This includes the maintenance of 41 readiness centers, nine maintenance facilities, four aviation facilities, three training installations, and two air bases.
 - ♦ **\$6.5 million for National Guard Tuition Assistance Program** (general fund) to continue offering tuition assistance to members of the Michigan National Guard pursuing post-secondary education. Starting in fiscal year 2021, efficiencies as a result of policy changes within the program will be leveraged to expand tuition assistance to members' spouses.
-

The Number of National Guard Members Utilizing Tuition Assistance Continues to Grow

Reductions

The recommended budget reduces funding for the following programs:

- ♦ **\$2 million general fund reduction to the County Veteran Service Fund** to align funding with past utilization rates of the grant program.
- ♦ **\$250,000 general fund reduction to the Michigan Veterans Facility Authority**, reflecting efficiencies created by changes in the authority's staffing structure and meeting schedule.

Department of Natural Resources

Governor's Recommended Budget for Fiscal Years 2021 and 2022

The Department of Natural Resources works diligently to protect, manage, and conserve Michigan's forests, land, water, wildlife, and cultural resources. The department is dedicated to creating, maintaining, and improving outdoor recreation opportunities for the public today and future generations.

The Governor's recommended budget for fiscal years 2021 and 2022 includes total ongoing funding of \$459.9 million, of which \$46.9 million comes from the state's general fund. The Governor also recommends \$8.4 million in one-time funding in fiscal year 2021, of which \$2.5 million is supported by general fund.

Highlights

The Governor's recommended budget includes the following key investments:

- ◆ In addition to continued funding of \$5.1 million (general fund) for Invasive Species Prevention and Control, **an \$8 million contribution for costs of an Asian Carp barrier in Illinois** (state restricted funds) is provided for fiscal year 2020 from previously reserved state funds.
- ◆ **\$2.5 million to build the Milliken Visitor Center** near Arch Rock on Mackinac Island (general fund). Interactive exhibits capturing Michigan's rich history will be available for visitors to enjoy indoors and outdoors.
- ◆ **\$1 million for the Michigan Conservation Corps** (general fund) will fully restore the program. This program provides summer employment for at-risk youth in Pontiac, Flint, Detroit, and Saginaw. Upon completion of the program, many program participants go on to college to further their education or obtain full-time employment.
- ◆ **\$8.1 million for the Good Neighbor Authority** (federal funds) will support additional projects and staff to manage timber sale development, forest management, invasive species control, and wildlife habitat restoration projects on national forest land.
- ◆ **\$1.4 million for Wildfire Equipment Replacement** (state restricted funds) to purchase, maintain, and modify wildfire fighting equipment. As the severity of wildfires increases, newer and more modern equipment is needed to safely and effectively fight fires.
- ◆ **\$567,800 for State Park Operations** (state restricted funds) to recruit and retain well-trained staff for management positions.

State Parks Funding Has Increased over 15% in Last Five Years

School Aid

Governor's Recommended Budget for Fiscal Years 2021 and 2022

The School Aid budget provides operational support for the state's public education system, which is charged with providing a quality education from cradle to career. Setting students on a path toward lifelong learning requires educational opportunities during a child's first 1,000 days, high-quality Pre-K to 12 instruction, academic supports, interventions for students in need, and programs to provide all students with the tools and skills to succeed in college or in a career.

The Governor's recommended budget includes total ongoing funding of \$15.8 billion in fiscal year 2021, with \$13.9 billion from the school aid fund and \$40 million from the state's general fund. The Governor also recommends \$76 million in one-time funding in fiscal year 2021, with \$36 million from the school aid fund and \$40 million from the state's general fund.

Highlights

The Governor's recommended budget includes support for several key programs:

- ♦ **\$415 million to continue building a weighted funding model** that includes a base per-pupil amount plus additional funding for students with more costly educational needs:
 - ♦ **\$290 million to increase base per-pupil funding to \$8,336** for districts at the minimum (a \$225 per-pupil increase) and \$8,679 for districts at the maximum (a \$150 per-pupil increase). This reduces the gap between the highest and lowest funded districts to \$343 per pupil.
 - ♦ **\$60 million to increase state reimbursements for special education services by 2.1 percentage points.** This doubles the additional state reimbursement and, including other state payments for special education services, brings total state funding for special education services to nearly \$1.3 billion, which will help districts address the wide variety of needs for special education students, ranging from academic supports to one-on-one specialists.
 - ♦ **\$60 million to provide additional supports for academically at-risk, economically disadvantaged pupils.** This brings total funding for this purpose to \$582 million. Across the state, economically disadvantaged students tend to have lower academic success rates. This funding will allow districts to provide additional instructional supports like tutoring and non-instructional supports like counseling to improve academic outcomes for these students.
 - ♦ **\$5 million for additional payments for English Language Learners.** This brings total funding for this purpose to \$18 million and will help support higher-cost student intervention services.

- ◆ **\$205.9 million for teacher retirement obligations**, bringing the total to \$1.5 billion. The Governor’s recommended budget continues to provide state support for retirement contributions to the Michigan Public School Employees Retirement System (MPERS), providing fiscal stability to districts and libraries. The increase in required funding is driven primarily by changes in actuarial assumptions tied to longer lifespans for retirees.
- ◆ **\$42 million to expand state-funded preschool programming**. This new program expands access to preschool programming for children living in high-poverty, high-academic need school districts. This expansion would provide services to an estimated 5,000 children, giving those children a strong foundation for their future academic success.
- ◆ **\$35.5 million to increase payments for state-funded preschool programs**. The Great Start Readiness Program provides free preschool to 38,000 4-year-olds. The Executive Budget raises the state payment for a full-day preschooler from \$7,250 to \$8,336 – the same level as the proposed K-12 base foundation allowance. This represents the first rate increase since 2014.
- ◆ **\$40 million for school infrastructure**. These one-time grants will support districts with air and water filter replacement, lead and asbestos abatement, heating and cooling modifications, building modifications, and other facility upgrades to provide students with safe, healthy learning environments.
- ◆ **\$25 million to reimburse teachers for out-of-pocket supply costs**. Most teachers spend their own money to supply their classrooms. The budget helps to offset these costs through a teacher supply reimbursement and purchasing program that provides funding to teachers to purchase classroom supplies.

Recommended State Funding for School Operations is the Largest Increase Per Pupil in 20 years

Reduction

The recommended budget reduces funding for the following program:

- ♦ \$24.0 million to reduce foundation allowance payments for cyber schools in recognition of lower facility, maintenance, and transportation costs compared to brick and mortar schools.

Department of State

Governor's Recommended Budget for Fiscal Years 2021 and 2022

The Department of State administers Michigan's motor vehicle programs throughout the state via branch offices, ExpressSOS online services, renewal by mail, and self-service transactions. Major services include registering vehicles, licensing drivers, titling vehicles, and monitoring driver performance. The Secretary of State also administers state election laws and supervises statewide elections.

The Governor's recommended budget for fiscal years 2021 and 2022 includes total ongoing funding of \$256.1 million, of which \$19.1 million comes from the state's general fund.

Highlights

The Governor's recommended budget provides for the following:

- ♦ An increase of **\$790,000 to enhance branch security** (general fund) by supporting a pilot program that will provide uniformed personnel in five branch offices to increase security for the public and branch employees in cases of threatening or disorderly behavior.
- ♦ Continued support of **\$93.8 million for branch office operations** to support 131 branches handling more than 12 million customer services interactions annually. The Governor's budget ensures these operations are soundly funded by replacing \$4.7 million in transportation administration collection funds with general fund and including an increase in "look-up" fees charged to commercial entities requesting driver and motor vehicle information. The current fee of \$11 will be raised to \$13, generating \$9.4 million in revenue per year.

Transactions from the Point of Service

Over 12.4 million transactions per year

Reduction

The Governor's budget **reduces general fund by \$663,200 for legal services** which will be replaced with funding available from enhanced driver license and enhanced official state personal identification card fees, with no programmatic impact.

Department of State Police

Governor's Recommended Budget for Fiscal Years 2021 and 2022

The Michigan State Police is a full-service statewide law enforcement agency consisting of nearly 3,000 civilian and enlisted members who provide a wide range of public safety services. As a leader and partner in law enforcement and public safety, the department provides primary law enforcement, investigative resources, and forensic science services throughout the state.

The Governor's recommended budget for fiscal years 2021 and 2022 includes total ongoing funding of \$725.9 million, of which \$474.7 million comes from the state's general fund. The Governor also recommends \$9.7 million in one-time funding in fiscal year 2021, all of which comes from the general fund.

Highlights

The Governor's recommended budget invests in the following areas:

- ◆ **\$2.5 million for trooper recruit schools** (one-time general fund) to support training costs associated with two trooper recruit schools anticipated to graduate a total of 120 troopers. This investment will allow the department to backfill projected vacancies and maintain enlisted strength near 2,000 to ensure public safety across the state.
- ◆ **\$7.2 million to support the recommendations of the Michigan Joint Task Force on Jail and Pretrial Incarceration** (one-time general fund). Funding will support the development and delivery of de-escalation and crisis response training to assist law enforcement, dispatch, and jail officers during encounters with individuals who have behavioral health needs. Evidence suggests that such training increases safety for both the individual involved and the responding officer.
- ◆ **Maintains a recent investment of \$2.1 million in forensic science** (general fund) to continue expanding laboratory capacity to further reduce case turnaround times. Timely and efficient laboratory services contribute to quicker adjudication times, reduced court backlogs, and earlier resolution for victims.

Budget Maintains State Police Enlisted Strength Near 2,000

Reduction

The Governor’s budget recognizes **\$2 million in savings from secondary road patrol grants** (general fund), by reinstating funding for Secondary Road Patrol grants to county sheriffs to historical funding levels supported by a dedicated revenue stream.

Department of Technology, Management and Budget

Governor's Recommended Budget for Fiscal Years 2021 and 2022

The Department of Technology, Management and Budget (DTMB) supports the business operations of state agencies through a variety of centralized services: information technology, contracting and procurement, budget and financial management, building management and maintenance, oversight of the state retirement systems, construction management, space planning and leasing, and motor vehicle fleet operations.

The Governor's recommended budget for fiscal years 2021 and 2022 includes total ongoing funding of \$1.7 billion, of which \$529.1 million is from the state's general fund for fiscal year 2021. The Governor also recommends \$67.1 million in one-time funding in fiscal year 2021, of which \$65 million is from the general fund.

Highlights

The Governor's recommended budget for DTMB focuses on continued funding and strategic investments that protect public health and safety, increase cyber security efforts, and generate savings to the general fund.

- ◆ **\$56.3 million to Purchase Venture Michigan Fund Tax Vouchers** (general fund), thereby avoiding future revenue reductions and saving general fund. The Governor also recommends a supplemental payment of \$19.1 million in the current year for this purchase, and a \$62.5 million payment in fiscal year 2022.
- ◆ **\$35 million for the Information Technology Investment Fund (ITIF)**. The ITIF will support four projects in fiscal year 2021 (bringing the cumulative ITIF portfolio to 90 projects) to modernize legacy information technology systems and improve the regulatory oversight of drinking water, the efficient administration of tax collections, and operation of the state's retail liquor sales program.
- ◆ **\$30 million for State Psychiatric Hospital Special Maintenance** (general fund). Provides one-time funding for necessary capital improvements such as roof replacements, HVAC upgrades, and other critical building systems repairs at all five of the state's psychiatric hospitals.
- ◆ **\$20 million for Advanced Persistent Cyber Threats** (general fund) to mitigate cyber threats from entities that are hostile to the State of Michigan. Funds will be used to support a number of measures, including emergency response, threat intelligence, and vulnerability assessments that will enhance protections for Michigan's critical information technology infrastructure.

Technology, Management and Budget

- ◆ **\$10 million for Paid Parental Leave** (general fund) to offset disproportionate costs to departments in providing state workers up to 12 weeks paid leave if they are a new or adoptive parent, to promote a more family friendly work environment.
 - ◆ **\$5 million for a Green Revolving Fund** (general fund) to provide for energy efficiency and renewable energy projects at state facilities. This fund will allow for the re-investment of funds generated from long-term cost savings in new projects and establish a long-term program focused on reducing the state's carbon footprint.
 - ◆ **\$2.5 million to Replace a Customer Relationship Management System** (state restricted funds) in the Office of Retirement Services that serves 25,000 customer contacts each month from over 530,000 active, inactive, and retired customers.
-

\$437 million in Critical IT Projects Supported Since Information Technology Investment Fund Initiated in Fiscal Year 2013

Reductions

The Governor's recommended budget reduces funding for the following programs:

- ◆ **\$500,000 in Administrative Services** (general fund), which is related to efficiencies in the services provided.
- ◆ **\$750,000 in Business Support Services** (general fund), which will be offset through a fund shift to state restricted contract revenue.

Department of Transportation

Governor's Recommended Budget for Fiscal Years 2021 and 2022

The Department of Transportation provides for the efficient and effective movement of people and goods through support for the state's network of roads and bridges, public transportation systems, and rail and aviation programs.

The Governor's recommended budget for fiscal years 2021 and 2022 includes total ongoing funding of \$5.3 billion, including \$600 million of revenue that is statutorily diverted from the general fund.

Highlights

The Governor's recommended budget for transportation includes investments in several areas, funded by increases within existing sources of revenue:

- ◆ An additional **\$205.3 million for road and bridge construction** to support state and local roads, highways, and bridges. A total of \$132 million of this increase represents additional funding diverted from the general fund by statute under the 2015 revenue package. An additional \$48.8 million reflects federal funding expected from the Federal Highway Administration, with the remaining \$24.5 million attributable to increases in baseline restricted revenue. The Governor's total Fiscal Year 2021 Executive Recommendation for road and bridge construction and maintenance is \$4.1 billion.
- ◆ An additional **\$30 million for transit and rail programs** that enhance Michigan's multi-modal transportation network. This funding is supported by the Comprehensive Transportation Fund and includes \$13 million of new support for local and intercity transit, \$12 million for passenger and freight rail improvements, and \$5 million for marine passenger services.
- ◆ An additional **\$30 million for airport improvements**. A total of \$27 million of the increase represents potential federal funding for Michigan airports that has been applied for under competitive grants. These grant awards would be matched by \$1.2 million in additional State Aeronautics Fund revenue. An additional \$1.8 million increase in revenue is statutorily dedicated to capital improvements at Detroit Metropolitan Airport.
- ◆ An additional **\$7.6 million to address increasing cost of highway maintenance materials**. This funding supports inflationary costs incurred by the department for structural steel, concrete, road salt, and other materials.
- ◆ **\$3 million for a new Rebuilding Michigan Office of Accountability and Transparency**. This office will track and communicate on the expenditures and progress of road projects funded by State Trunkline Fund bonds authorized by the State Transportation Commission on January 30, 2020. The appropriation will support the first of three years of operations for the office.

Transportation

- ◆ **\$2.4 million for traffic signal maintenance**, supporting a billing process improvement for state-owned traffic signals that are operated under cost sharing agreements with local governments.
-

Department of Treasury

Governor's Recommended Budget for Fiscal Years 2021 and 2022

The Department of Treasury administers the State's tax system, directs the disbursement and investment of state funds, safeguards the credit of the State, distributes payments to local governments, forecasts state economic activity and revenue, supervises the enforcement of property tax laws, and audits county and municipal financial records. Treasury also houses the State Lottery, whose mission is to maximize contributions to the School Aid Fund, and the Michigan Gaming Control Board which provides oversight of casino and internet gaming operations.

Excluding revenue sharing payments, the Governor's recommended budget for fiscal years 2021 and 2022 recommends total ongoing funding of \$735.9 million, of which \$225.8 million is from the state's general fund. The Governor also recommends \$44.0 million in one-time funding in fiscal year 2021, \$40.0 million of which is from the general fund.

Highlights

The Governor's recommended budget provides new funding for support of the following Treasury programs:

- ◆ **\$17 million for replacement of Treasury's collections IT systems** (general fund; \$2 million ongoing, \$15 million one-time). The State Treasury Accounts Receivable (STAR) and Michigan Accounts Receivable Collection (MARC) systems rely on antiquated and unsupported software and require an expensive mainframe platform. These systems process over 520,000 business and individual tax and non-tax assessments valued at \$3.8 billion annually.

Specifically, the one-time funds will be allocated from the Information Technology Investment Fund (ITIF) held within the budget for the Department of Technology, Management and Budget to provide for a replacement solution. The ITIF supports information technology projects that lead to transformative change in state service delivery and the modernization of legacy systems. A \$2 million ongoing increase in the Treasury budget will support the annual maintenance costs of the new system.

- ◆ **\$40 million for local climate resilient infrastructure grants** (general fund, one-time) to support planning activities and resilient, green infrastructure projects that aim to protect local communities from the negative impacts of Michigan's changing climate conditions.
- ◆ **\$9.4 million increase in debt service payments** (general fund) for Clean Michigan Initiative, Quality of Life Bonds, and Great Lakes Water Quality Bonds. Total debt service payments for fiscal year 2021 will be \$113.7 million.
- ◆ **\$5.5 million for the Michigan Gaming Control Board** (state restricted funds) to implement the recently enacted legislation legalizing sports betting and internet gaming. To

Treasury

effectively monitor and enforce the new laws, additional regulation officers, auditors, and analysts will be added across several operational areas.

- ♦ **\$5 million for wrongful imprisonment compensation** (general fund) to fund future payments to individuals who were wrongly convicted of crimes and imprisoned, in accordance with statutory provisions.
- ♦ **\$2.6 million to restore funding for local government programs** (general fund) that allow Treasury to continue providing critical assistance to help prevent financially distressed schools and communities from falling into further jeopardy.
- ♦ **\$860,000 for the Michigan Infrastructure Council** (\$610,000 general fund) to provide ongoing support to the council, a nine-member panel charged with facilitating a coordinated approach to ensuring Michigan's assets are effectively constructed, operated, and maintained.

Reduction

The recommended budget removes **\$1.25 million** in funding for municipal cost sharing grants that were one-time in nature.

Department of Treasury – Revenue Sharing

Governor’s Recommended Budget for Fiscal Years 2021 and 2022

Michigan’s revenue sharing program distributes sales tax revenues collected by the state to local units of government, allowing communities to determine how best to fund local services. A constitutionally dedicated portion of sales tax revenue is distributed to cities, villages, and townships on a per capita basis; the remainder is subject to annual appropriation.

Funding for fiscal year 2021 is recommended at \$1.4 billion in restricted revenues, which includes \$902.6 million for constitutionally required revenue sharing payments.

Highlights

The Governor’s recommended budget includes three key investments:

- ♦ **\$37.2 million for Constitutional Revenue Sharing Payments** for cities, villages, and townships, bringing total Constitutional payments to \$902.6 million. This represents a \$16.5 million, or 1.9% increase over the most recent estimates for constitutional payments in fiscal year 2020 and is based on estimated growth in sales tax collections.
- ♦ **\$6.5 million for City, Village and Township Revenue Sharing** to provide eligible cities, villages, and townships with a 2.5% increase over the total fiscal year 2020 funding level. Total funding for City, Village, and Township Revenue Sharing will be \$267.6 million.
- ♦ **\$5.7 million for County Revenue Sharing and the County Incentive Program** to provide a 2.5% increase over total fiscal year 2020 funding for eligible counties. Total revenue sharing payments for counties will be \$232.2 million.

The Executive Budget retains the existing distribution formulas for revenue sharing as contained in fiscal year 2020 current law. The fiscal year 2021 budget will also continue to require compliance with good government provisions that require local governments to follow accountability and transparency standards to receive their incentive-based payments under the City, Village, and Township Revenue Sharing program and the County Incentive Program.

Fiscal Year 2021 Revenue Sharing Funding			
(\$ in Millions)			
Cities, Villages, and Townships	Constitutional	Statutory	Total
FY 2020	\$ 886.2	\$ 261.0	\$ 1,147.2
FY 2021	\$ 902.6	\$ 267.6	\$ 1,170.2
<i>\$ Increase</i>	\$ 16.5	\$ 6.5	\$ 23.0
<i>% Increase</i>	1.9%	2.5%	2.0%
Counties			
FY 2020	Not Applicable	\$ 226.5	\$ 226.5
FY 2021		\$ 232.2	\$ 232.2
<i>\$ Increase</i>		\$ 5.7	\$ 5.7
<i>% Increase</i>		2.5%	2.5%

Constitutional Revenue Sharing is based on the January 2020 Consensus Revenue Estimating Conference.

Individual amounts may not add to totals due to rounding.

Universities and Financial Aid

Governor's Recommended Budget for Fiscal Years 2021 and 2022

The Higher Education budget provides operating support to Michigan's 15 public universities as well as funding for student financial aid programs. Public universities are a critical component in realizing the Governor's educational attainment goal of at least 60% of Michigan residents between the ages of 25 and 64 earning a college degree or certificate by 2030. Over 285,000 students were enrolled in the state's public universities last year.

The Governor's recommended budget for fiscal year 2021 recommends total funding of \$1.7 billion, of which \$1.3 billion comes from the state's general fund.

Highlights

The Governor's recommended budget includes:

- ♦ **\$38.1 million in additional university operations funding** (general fund), representing a 2.5% increase over fiscal year 2020. This increase will be distributed across-the-board to provide planning stability for universities. Receipt of this additional funding is contingent on universities holding tuition increases below 4.25% or \$586 (equal to 2.5 times the projected inflation), in order to limit tuition cost increases for students and their families. This investment also includes a 2.5% increase for MSU AgBioResearch and MSU Extension.
- ♦ **\$35 million for the new Michigan Reconnect Grant program** (funded from the talent investment fund) to provide grants for non-traditional students seeking training toward in-demand industry certifications or credentials. These funds are being recommended in a fiscal year 2020 supplemental to get the program up and running and will support the program through fiscal year 2021.
- ♦ **\$10 million to establish the Michigan Student Loan Refinance Program** (general fund). In efforts to lower the amount of outstanding student loan debt, this new revolving loan fund program will enable a qualified individual to refinance up to \$50,000 of his or her student loans through the Michigan Department of Treasury with a new lower interest rate. The program will be open to individuals with federal and nonfederal student loans used to pay expenses at a Michigan institution of higher education, who have resided in Michigan for at least 12 months, and have been making regular payments on those loans for at least 3 years.

Continuing Funding

Beyond the investments highlighted above, the Governor's recommended budget continues funding for the following programs:

- ♦ **\$142.9 million in continued funding for student financial aid programs**, including \$68 million for the Tuition Incentive Program, \$38.4 million for Competitive Scholarships, and \$32 million for Tuition Grants. Beginning in fiscal year 2021, the Tuition Incentive Program awards will be limited to a tuition cap of 2.5 times the per-credit in-district community college tuition rate, restraining program cost growth. All other award amounts are continued at current levels.
- ♦ **\$6.6 million for university retirement obligations**, bringing the total to \$12.9 million. The Governor's recommended budget continues to provide state support for retirement contributions to the Michigan Public School Employees Retirement System (MPERS), costs that would otherwise be paid by public universities. The increase in required funding is driven primarily by changes in actuarial assumptions tied to longer lifespans for retirees.

FY 2021 Public University Operations Funding (\$ in Thousands)					
University	FY 2020 Operations Funding	FY 2021 Increase	FY 2021 Indian Tuition Waiver Funding	FY 2021 Total Funding	Percent Increase - Operations

Consensus Economic Outlook

The consensus economic outlook for 2020, 2021, and 2022 was adopted at the January 10, 2020, Consensus Revenue Estimating Conference by the Administration, House Fiscal Agency, and Senate Fiscal Agency. The summary text incorporates data released since the Consensus Conference. Table 1 provides the figures agreed upon at the conference.

2019 U.S. Economic Review

Economic growth has slowed but remains positive. Trade uncertainty still lingers as a driver of lackluster business investment but may improve in 2020. On January 29th, 2020, the President signed the U.S.-Mexico-Canada Agreement (USMCA), which will provide more certainty in North American trading. In addition, the Phase 1 trade deal with China may help to ease uncertainty, although with few details, the impact and extent is yet to be seen. Consumer confidence has remained high and unemployment has declined. A contracting manufacturing sector, slower retail sales, and slower economic expansion may mean that while recession fears have lessened, they are not entirely eliminated.

U.S. real (inflation-adjusted) gross domestic product (GDP) increased an estimated 2.3 percent in calendar year (CY) 2019, down from the 2.9 percent rate of growth recorded in 2018. Beginning in mid-2009, the current U.S. economic expansion is the longest on record. Real GDP in the first quarter of 2019 grew at a solid annualized rate of 3.1 percent but slowed in the second quarter to a modest 2.0 percent annual rate and remained steady at a 2.1 percent rate in the third and fourth quarters.

U.S. wage and salary employment rose 1.6 percent in CY 2019 – marking the ninth straight national annual increase. December 2019 marked a record 111th straight monthly national employment increase. In 2019, monthly employment gains averaged 176,000 jobs per month – down from the average 223,000 jobs per month gain in 2018 but still solid growth.

Nationally, the unemployment rate fell from 3.9 percent in 2018 to 3.7 percent in 2019 – the lowest annual unemployment rate since 1969. 2019 marked the ninth straight year of a declining national unemployment rate.

The price of West Texas Intermediate oil trended upward through the beginning of 2019 with the monthly average price per barrel increasing from \$50 in December 2018 to \$64 in April 2019. Oil prices declined in May and June, down to \$55 per barrel, then fluctuated between \$54 and \$57 per barrel before rising to \$60 per barrel in December of 2019.

Housing starts have risen each year since falling to an all-time low in 2009. Starts have more than doubled from their all-time lows. In 2019, housing starts totaled an estimated 1.290 million units, up 3.2 percent from last year. Despite these gains since 2009, housing starts remain at historically low levels and well below levels from the previous decade.

In 2019, light vehicle sales declined slightly from last year with sales totaling an estimated 17.0 million units in 2019, down from 17.2 million units in 2018. Monthly light vehicle sales were moderate throughout 2019 with the annualized monthly light vehicle sales rate ranging between 16.5 million units and 17.4 million units.

In January 2019, the Fed stated that it “will be patient” about future rate increases and made no rate changes early in the year before it began to lower rates from August to October. In 2019, the Federal Reserve decreased interest rates by 0.25 percentage points three times, lowering the federal funds target-range to 1.50 to 1.75 percent.

The S&P 500 stock index ended 2019 up 28.9 percent from the end of 2018. This is a significant shift from the end of 2018, which was down 6.2 percent from the end of 2017.

2019 Michigan Economic Review

Michigan wage and salary employment increased an estimated 0.5 percent in 2019, which marked the ninth consecutive year of growth after declining for 10 consecutive years. Between December 2018 and December 2019, Michigan employment rose a preliminary 19,500 jobs, after rising 48,500 jobs over the prior 12-month period.

In 2019, the annual Michigan unemployment rate fell to a preliminary annual average estimate of 4.0 percent – marking the tenth straight decline in the annual Michigan unemployment rate and the lowest annual unemployment rate since CY 2000.

In 2019, wage and salary payments received by Michigan workers rose an estimated 2.9 percent after increasing 3.7 percent in 2018. Total personal income grew an estimated 3.8 percent in 2019, the same growth rate as in 2018. With 1.1 percent inflation, real (inflation adjusted) personal income rose an estimated 2.7 percent in 2019.

Michigan motor vehicle production increased by 4.5 percent in 2019 compared to 2018. Approximately 1,915,000 vehicles were produced in 2019 compared to the 1,832,000 vehicles produced in 2018. In 2019, General Motors’ UAW employees went on strike during contract negotiations. The approximately six-week strike caused a temporary decline in automotive production, but total production for 2019 still increased from 2018 levels and remained well above the historical low of 1,146,000 units produced in 2009.

Michigan manufacturing employment declined slightly in 2019. In December 2019, manufacturing employment totaled 628,900 jobs, which was down 5,300 jobs from December 2018. However, compared to the historically low monthly level recorded during the Great Recession, December 2019 manufacturing employment is up 198,400 jobs.

U.S. Consensus Economic Outlook: 2020 - 2022

Real GDP growth is projected to grow 1.8 percent in 2020, 1.7 percent in 2021, and 1.5 percent in 2022 (see Table 1). U.S. light vehicle sales are expected to remain at relatively high levels at estimated 16.8 million units in 2020 and 16.6 million units 2021. In 2022, light vehicle sales are forecast to decline to 16.4 million units.

The U.S. unemployment rate is forecast to fall to an estimated 3.5 percent in 2020 from 3.7 percent in 2019. In 2021 and 2022, the unemployment rate is expected to be 3.5 percent and 3.6 percent, respectively. Consumer prices, as measured by the U.S. Consumer Price Index (CPI), are expected to rise 1.8 percent in 2020, 1.9 percent in 2021, and increase 2.0 percent in 2022.

Michigan Consensus Economic Outlook: 2020 - 2022

Michigan wage and salary employment is expected to increase 0.6 percent in 2020, 0.5 percent in 2021, and 0.3 percent in 2022. Michigan's unemployment rate is expected to fall from 4.1 percent in 2019 to 3.8 percent in 2020. The unemployment rate is expected to remain stable as both the labor force and employment increase. The jobless rate is forecast to be an estimated 3.7 percent in 2021 and 3.8 percent in 2022.

Michigan personal income is projected to rise 3.7 percent in 2020, 3.5 percent in 2021, and 3.4 percent in 2022. Inflation is forecast to increase 1.8 percent in 2020, 1.7 percent in 2021, and 1.8 percent in 2022. As a result, real Michigan personal income is expected to rise 1.8 percent in 2020 and 2021, and 1.5 percent in 2022.

Forecast Risks

International geopolitical and trade tensions may grow considerably over the forecast horizon. International trade risks surround the ongoing U.S.-China trade negotiations and the United Kingdom's imminent departure from the European Union. Additionally, tensions in the Middle East represent a major geopolitical risk. Slower than expected world economic growth could have a negative impact on the U.S. economy.

Uncertainty surrounds the timing, composition, and impact of monetary and fiscal policies at the federal level. The Federal Reserve's action on rates and quantitative easing are uncertain, as is the impact of Fed actions on consumer and business sentiment, spending and investment.

Light vehicle sales are expected to remain at elevated levels, but slightly down from recent historically high levels. Major auto companies continue to restructure in response to lower sales and future trends. A larger decline in sales than expected would hurt both the U.S. and Michigan economies, especially the manufacturing sector. The imposition of potential tariffs on autos and auto parts imported into the U.S., and likely retaliatory tariffs on U.S. exports, could substantially harm the U.S. and Michigan economies.

Boilerplate language in the Fiscal Year 2020 Enacted Appropriations requires an annual report, within 14 days after the release of the Executive Budget Recommendation on estimated state restricted fund balances, state restricted fund projected revenues, and state restricted fund expenditures for the fiscal years ending September 30, 2019 and September 30, 2020.

NOTE: Columns may not add due to lapses to the general fund, transfers out, or work project expenditures.

⁵ FY 2020 represents current law, including enacted supplemental appropriations in Public Acts 154 and 162 of 2019, approved State Administrative Board transfers, and approved State Administrative Board transfer reversals.

STATE OF MICHIGAN
OFFICE OF THE GOVERNOR
LANSING

GRETCHEN WHITMER
GOVERNOR

GARLIN GILCHRIST II
LT. GOVERNOR

February 6, 2020

Members of the Legislature and Citizens of the State of Michigan:

Article XI, Section 5, of the Michigan Constitution of 1963 provides that increases in rates of compensation for employees in the state-classified service authorized by the Civil Service Commission require prior notice to the Governor. The Constitution also requires that I, as Governor, transmit such increases to the Legislature as part of my budget recommendation. With this letter, I am officially transmitting the compensation adjustments.

The attached cost summary, prepared by the Office of the State Employer, details additional costs for compensation. Represented and non-exclusively represented employees are scheduled to receive a 2 percent base wage increase in fiscal year 2021 on October 1, 2020 and a 1 percent base wage increase on April 4, 2021. The Office of State Employer has estimated that the total additional cost from all funding sources of these pay recommendations is \$121.7 million for fiscal year 2021. I have incorporated the costs into my Executive Budget Recommendation.

The Constitution provides that the Michigan Legislature may, by a two-thirds vote of the members elected to and serving in each house, reject or reduce a Civil Service Commission compensation adjustment within 60 calendar days of transmission by the Governor. I urge the Legislature to allow the compensation adjustment as authorized by the Civil Service Commission to take effect.

Sincerely,

Gretchen Whitmer
Governor of Michigan
