

## MI School Data News and Updates

**Updated as of June 17, 2020**

### **MI School Data User Migration: Action Needed by June 30**

MI School Data secure users will need a [third party MILogin account](#) to access secure data when the new site is launched this summer. Users who do not already have this type of MILogin account must create one with the same email address as their original account prior to the migration to ensure continuous access to secure data. If this is not done **by June 30**, users will need to fill out a security form and request a new account after the new MI School Data site is launched. Please refer to the [MILogin/MI School Data Instructions](#) for information on how to set up your MILogin account now to ensure continued access to your data.

### **Recently Released to the Public**

- A new report on MI School Data, the [School-Level Expenditure Report](#), breaks down expenditures of federal, state and local funds for public schools starting with 2018-19 data. Built in collaboration with MDE, this is the first report on MI School Data to show expenditures at the school level. This report fulfills reporting requirements found in the Every Student Succeeds Act. Users can compare expenditures at the county, city, ISD, district or school levels with multiple visual tools.
- **School Services and Offerings** on the [Parent Dashboard](#), which shows information on schools' select programs and services (collected from districts in the MSDS and the Points of Pride section of the EEM), have been updated to reflect data captured as of April 10.
- New cross-tabulated data files have been added to the Assessment and Accountability section of the [Data Files](#) page on MI School Data. The PSAT, SAT, MI-Access and Student Growth cross-tabulated files include data for the subgroups of gender, race/ethnicity, English Learners, and students with disabilities. These are available beginning with school year 2018-19, and were developed as part of an Every Student Succeeds Act requirement. Cross-tabulated M-STEP and test participation data are planned for release later this year.

## Coming Soon

- The **Average Class Size K-3** metric on the [Education Dashboard](#) will be updated with school year 2019-20 data.

This page is updated the first and third Wednesday of every month with news and report release information. For a schedule of report releases, please see our [Report Calendar](#). Check the ticker on [MI School Data](#) for updated report release news.
