Introduction

[Public Act 173 of 2015](#), the Michigan educator evaluation law, links teacher certificate renewal and progression to your evaluation data for the most recent five-year period. For additional policy perspective on educator evaluations visit MDE's "[Educator Evaluations](#)" web page.

Because educator certification is tied to the evaluation labels submitted by districts and public school academies (PSAs) to the state within the REP application, teachers will be able to view the effectiveness labels reported by their district to the state within their Michigan Online Educator Certification System (MOECS) account.

As an authorized user of the REP application, you may have teachers that find they would like to appeal the Educator Effectiveness ratings from a previous school year as they review the submissions in the MOECS system. In order for appeals to be made to the Educator Effectiveness ratings, you will need to follow the instructions below to perform the updates as needed. To find additional policy guidance on Educator Effectiveness Appeals visit MDE's "[Educator Effectiveness Label Data Appeals Resources](#)" web page.

You will only be able to update Educator Effectiveness ratings originally submitted by your district. If an employee of your district needs to appeal effectiveness ratings from a previous district, they will need to contact that district, and their REP authorized user can submit the appealed rating.

Appeals may be submitted for the last five years of Educator Effectiveness ratings. Educator Effectiveness ratings reported in years prior to that, will not be able to be appealed.
