2012 STATISTICAL REPORT

INTRODUCTION

Since the 2000 edition of the MDOC Statistical Report, bound paper copies have no longer been produced and distributed. Instead, these annual statistical reports are published only on the official MDOC web site on the Internet. The MDOC home page web address is <http://www.michigan.gov/corrections>, and the Statistical Reports are located under the *Publications & Information* link.

The crime breakdowns in the core tables of the first three sections of the report, regarding felony court dispositions, prison intake and prison population, are all based on the longer 10-character offense codes, as was first shown in the 1999 report. They are also sorted by offense code rather than by crime frequency or maximum term. Since the new sort order keeps sequential offense codes together, similar crimes that have identical maximum penalties are no longer consolidated. This new level of detail provides much richer information than in the past.

However, the additional detail also makes the crime tables much longer; the reader must be careful to watch for related offense codes when attempting to examine the data for a particular type of crime. For example, several separate offense codes now appear for the crime of first degree criminal sexual conduct (750.520B--) in each crime table, because each code represents a specific characteristic of the offense.

Summary narrative reflecting on the Department's observations about what the data show has again been kept to a minimum, as the Department now produces a separate Annual Report for that purpose.

Section Overview

This report is divided into ten major sections (A-J).

- **Section A, Court Dispositions**, contains data on statewide felony court dispositions broken down by offense, sentencing jurisdiction, and type of disposition.
- **Section B, Prison Commitments**, provides prison intake data by the number and characteristics of new prisoners received by the Department.
- **Section C, Prisoner Population**, presents descriptions of Michigan's correctional facilities and statistics regarding the characteristics of the prisoner population.
- **Section D, Parole Board**, summarizes data on offender movement to parole and Parole Board activity and decisions, and examines the parole outcomes.
- **Section E, Probation and Parole Supervision**, contains data and information regarding the community supervision programs and functions of the Department's Field Operations Administration (FOA).
- **Section F, Department Operations**, contains data and information about a variety of Department programs and administrative functions/operations. Section F contains the following subsections:
 - *Prisoner Program, Misconduct and Litigation Statistics*
 - *Michigan State Industries*
 - *Bureau of Health Care Services*
 - *Department Expenditures and Personnel Summaries*
- **Section G, Prisoner Reentry**, was a new section in 2005 and reflects the development of the statewide initiative by several stakeholders, one of whom is MDOC. The first year that prisoners were paroled to the community under this initiative was in 2005.
- **Section H, Community Reentry Program and Electronic Monitoring**, brings the Residential Reentry Program and the Intensive Detention Reentry Program under the umbrella of Prisoner Reentry, along with RF electronic tether and GPS monitoring.
- **Section I, Special Alternative Incarceration Program (SAI)**, is administered by the Correctional Facilities Administration with Cooper Street Correctional Facility serving administratively as the parent institution. SAI has been redesigned to operate under Prisoner Reentry principles.
- **Section J, Office of Community Corrections**, provides data regarding the utilization of community sanctions and services for non-violent offenders in order to reduce admissions to prison.

Court Dispositions

This section contains data on statewide felony court dispositions broken down by offense, sentencing county and type of disposition. Offenders may have committed multiple offenses that the felony courts handle as a single court disposition or sentencing event. Both offender-based data and offense-based data have distinct uses that are not interchangeable, therefore, offender-based data is presented in **A1 Series of Tables**, and offense-specific data is presented in **A2 Series of Tables**.

New as of the 2011 Statistical Report: The **A1 and A2 Series of Tables** were improved as they were converted from the retiring mainframe to newer technology. The improvements were in a number of areas: breakdown by County instead of by Circuit Court; clearer disposition groupings prioritized by the degree of offender incapacitation; inclusion of previously unreported offenses; and a more uniform method of aggregating offenses (crimes) into offenders (people). These improvements have resulted in more offenders being reported in the **2011 A1 Series of Tables** and more offenses being reported in the **2011 A2 Series of Tables** than in similar tables for prior years. In order to provide a historical context for the improved 2011 tables, improved versions of the previously published years 2003 through 2010 have been published in a report titled, 'MDOC Statistical Report Supplement: Court Dispositions (A1 and A2 Series of Tables, Revised Using Improved Data Analysis Methodology)'. This report also includes tables for 2011, and has been posted on the MDOC website.

Tables A and A1 through A1c aggregate multiple offenses and/or disposition (sentencing) dates into offenders. In other words, offenders with multiple offenses and/or multiple dispositions from the same sentencing county during the year were reported as follows:

- Offenses/Dispositions for the same offender that occurred on different days were reported as separate disposition events. (It is possible that these separate events were combination events, as discussed in the next bullet.)

- Offenses/Dispositions for the same offender that occurred on the same day were aggregated together into one disposition event using the following sequence in order to report the most severe details for the disposition:

- The most severe disposition was reported (e.g., a disposition to prison was reported over a disposition to jail).

- If the dispositions were of equal severity, then the disposition with the longest minimum term was reported.

- If the dispositions and minimum terms were of equal severity, then the disposition with the longest maximum term was reported. (Minimum term is used as the first severity tie-breaker, since it represents the minimum penalty imposed by the judge based on the mitigating/aggravating facts of the offender's current criminal activity, whereas the maximum term represents the Legislature's statutory limitations on judicial discretion for the current criminal activity.)

The **A1 Series of Tables** are based on offenders, so multiple offenses/dispositions for the same offender are aggregated and reported per the above sequence.

Table A shows the statewide prison commitment rates of offenders for the current year and the previous nine years.

Table A1 shows the court dispositions of offenders broken down by disposition type and by sentencing county within each of the two Field Operations Administration (FOA) regions.

Tables A1a through A1c show the information in **Table A1** broken down by major crime categories (i.e., non-assaultive, drug and assaultive offenses).

The **A2 Series of Tables** are based on all offenses, so multiple offenses/dispositions for the same offender are reported individually by offense.

Table A2 shows the court dispositions of offenses broken down by disposition type and offense.

Tables A2a through A2c show the information in **Table A2** broken down by major crime categories (i.e., non-assaultive, drug and assaultive offenses).

The crimes in the **A2 Series of Tables** are sorted by Michigan Compiled Law (MCL) numbers and Prosecuting Attorney's Coordinating Council (PACC) codes (the sort order used since 1999). Since this sort order keeps related codes together, similar crimes that have identical maximum penalties are not consolidated. This level of detail provides much richer information, but the reader must be careful to watch for related codes when attempting to examine the frequency and disposition pattern for a particular type of crime. For example, several separate offense codes appear for the crime of first degree criminal sexual conduct (750.520B--) because each code represents a specific characteristic of the offense.

Prison Commitments

B

This section provides data on prison commitments and intake — the number and characteristics of prisoners receiving court commitments to the Department of Corrections (DOC).

The difference between commitments and intake is the exclusion of one category of commitments, called additional sentence imposed. Additional sentence imposed commitments are excluded from intake because rather than new offenders committed to the DOC, these are active prisoners who, while incarcerated receive an additional sentence, either because of a crime committed while incarcerated or because of later sentencing on a previously existing pending charge. Additional sentence imposed commitments do not represent additional prisoners but instead represent additional sentence time for known prisoners.

Tables B1a and **B1b** show prison intake, excluding additional sentence imposed commitments, which show the volume of new prisoners committed to the DOC. All of the other tables and charts in this section include the additional sentence imposed commitments and show characteristics of all court commitments to the DOC.

Table B2 shows the prison commitments broken down by offense and minimum sentence. **Tables B2a** through **B2c** show the information in **Table B2** broken down by major crime categories (i.e., non-assaultive, drug and assaultive). **Table B3** shows female intake broken down by offense and minimum sentence.

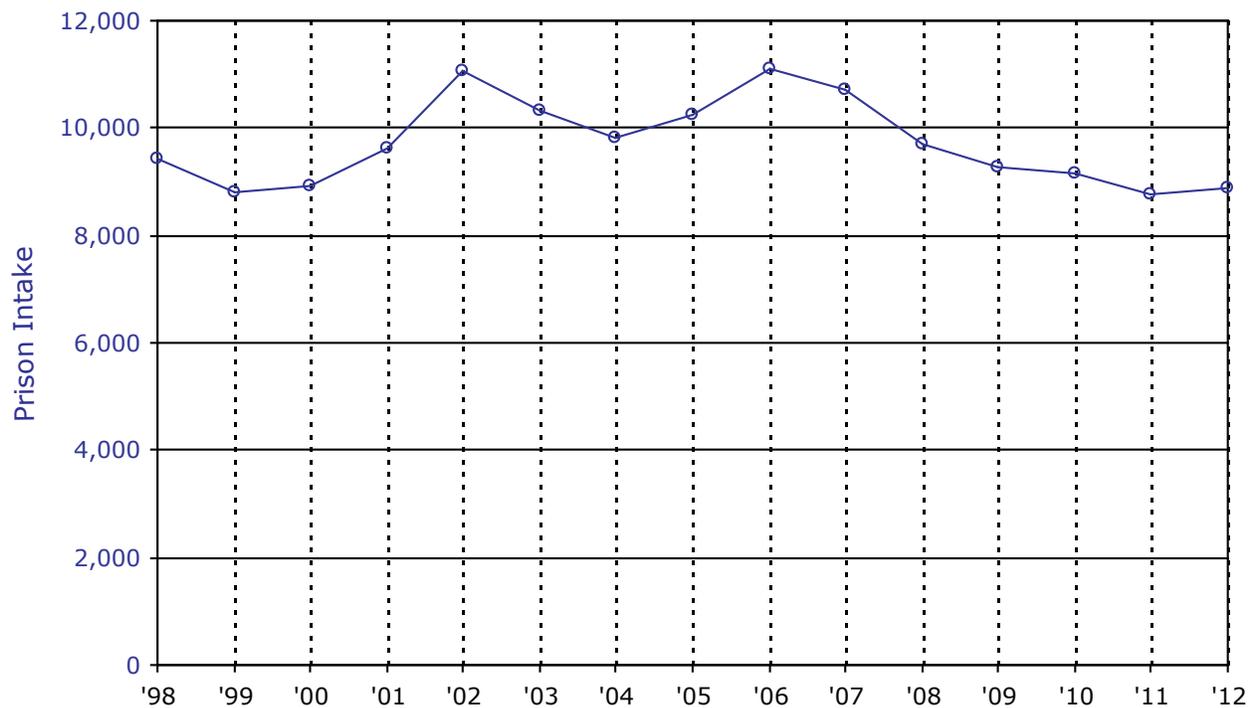

The offenses in **Tables B2** through **B2c** and in **Table B3** are sorted by Michigan Compiled Law (MCL) numbers and Prosecuting Attorney’s Coordinating Council (PACC) codes (the sort order used since 1999). Since this sort order keeps sequential codes together, similar crimes are not consolidated. This level of detail provides much richer information, but the reader must be careful to watch for related codes when attempting to examine the prison intake frequency and minimum term distribution for a particular type of crime. For example, several separate offense codes now appear for the crime of first degree criminal sexual conduct (750.520B--) because each code represents a specific characteristic of the offense.

Tables B4a through **B7** summarize commitments to prison broken down by various other characteristics — including age, race, gender, commitment type, and major crime type.

B1b Reported Index Crimes and Prison Intake

*Excluding Additional Sentence Imposed
Calendar Years 2005 - 2012*

State index crime totals are calculated by combining actual figures with estimates of missing data, using an estimation process adapted from that used by the FBI. The MSP's estimation process is designed to help ensure an accurate portrayal of crime trends, and minimize fluctuations due to reporting discrepancies.

*Index crimes include murder, rape, robbery, aggravated assault, burglary, larceny, motor vehicle theft and arson.

 Largest minimum term is reported.
 When minimum terms exceed maximum penalties, that may be due to anomalies in criminal justice practices, habitualized offenses, database errors, etc.
 Each minimum term category is rounded up from the preceding category (for example, the ten-year category includes all minimums longer than five years up to exactly ten years).
 Minimum term averages are based on raw data (with life sentences excluded from the calculations).

NOTES: Be sure to check for related offense codes when examining a particular type of crime. They may or may not be in sequential order or even on the same page.
 Largest minimum term is reported.
 When minimum terms exceed maximum penalties, that may be due to anomalies in criminal justice practices, habitualized offenses, database errors, etc.
 Each minimum term category is rounded up from the preceding category (for example, the ten-year category includes all minimums longer than five years up to exactly ten years).
 Minimum term averages are based on raw data (with life sentences excluded from the calculations).

 Largest minimum term is reported.
 When minimum terms exceed maximum penalties, that may be due to anomalies in criminal justice practices, habitualized offenses, database errors, etc.
 Each minimum term category is rounded up from the preceding category (for example, the ten-year category includes all minimums longer than five years up to exactly ten years).
 Minimum term averages are based on raw data (with life sentences excluded from the calculations).

 Largest minimum term is reported.
 When minimum terms exceed maximum penalties, that may be due to anomalies in criminal justice practices, habitualized offenses, database errors, etc.
 Each minimum term category is rounded up from the preceding category (for example, the ten-year category includes all minimums longer than five years up to exactly ten years).
 Minimum term averages are based on raw data (with life sentences excluded from the calculations).

 Largest minimum term is reported.
 When minimum terms exceed maximum penalties, that may be due to anomalies in criminal justice practices, habitualized offenses, database errors, etc.
 Each minimum term category is rounded up from the preceding category (for example, the ten-year category includes all minimums longer than five years up to exactly ten years).
 Minimum term averages are based on raw data (with life sentences excluded from the calculations).

Prisoner Population

This section presents descriptions of Michigan's Correctional facilities, and statistics regarding the characteristics of the prisoner population.

The **Map** on page C-2 shows the location of each Michigan prison, as well as a geographic breakdown of the Correctional Facilities Administration (CFA) regions. The map is followed by a description of each facility starting on page C-3.

Chart C shows a breakdown of the net operating capacity of the institutions by security level.

Table Ca shows the end-of-year institution population from 1998 through 2012.

Table Cb and **Cc** shows total prisoner population, prison commitments and Michigan census data from 1953 through 2012.

Beginning with **Table C1**, the total prisoner population is broken down by offense and minimum sentence. The total population includes prisoners housed in institutions, the SAI Prison program and the Intensive Reentry Program. **Tables C1a** through **C1c** reflect this information according to major crime categories (i.e., non-assaultive, drug and assaultive).

Table C2 reflects this same information for female prisoners, for all offenses.

The offenses in **Tables C1** and **C2** are sorted by Michigan Compiled Law (MCL) numbers and Prosecuting Attorney's Coordinating Council (PACC) codes (the sort order used since 1999). Since this

sort order keeps sequential codes together, similar crimes that have identical maximum penalties are not consolidated. This level of detail provides much richer information, but the reader must be careful to watch for related codes when attempting to examine the prison population frequency and minimum term distribution for a particular type of crime. For example, several separate offense codes now appear for the crime of first degree criminal sexual conduct (750.520B--) because each code represents a specific characteristic of the offense.

Tables C3 through **C3b** summarize the 2012 total prisoner population broken down by age, race and location.

The movement of prisoners into and out of the institution population during 2012 is summarized in **Table C4**. To demonstrate the effect of prisoner movement on the size of the institutional population, the table reports only the movements onto and off of the institution count. In other words, the table ignores movement types that do not affect the total count (e.g., movements *between* institutions).

Table C5 shows the number of escapes from secure DOC custody from 2005 through 2012.

Michigan Department of Corrections Correctional Facilities Map

As of December 31, 2012

* Includes reception centers

Note: In October 2012, Ryan Road Correctional Facility was converted to the Detroit Reentry Center. The facility is a reentry center for parole violators and parolees required to complete Parole Board ordered programming prior to their release for community supervision. The facility also houses a small population of prisoners with specific needs.

* Sentences with Insufficient Information = 534

Largest minimum term is reported for prisoners with multiple offenses.

When minimum terms exceed maximum penalties, that may be due to anomalies in criminal justice practices, habitualized offenses, database errors, etc.

Each minimum term category is rounded up from the preceding category (for example, the ten-year category includes all minimums longer than five years up to exactly ten years).

Minimum term averages are based on the raw data figures within the categories above (with life sentences excluded from the calculations).

NOTES: Be sure to check for related offense codes when examining a particular type of crime. They may or may not be in sequential order or even on the same page.

Largest minimum term is reported for prisoners with multiple offenses.

When minimum terms exceed maximum penalties, that may be due to anomalies in criminal justice practices, habitualized offenses, database errors, etc.

Each minimum term category is rounded up from the preceding category (for example, the ten-year category includes all minimums longer than five years up to exactly ten years).

Minimum term averages are based on the raw data figures within the categories above (with life sentences excluded from the calculations).

Largest minimum term is reported for prisoners with multiple offenses.

When minimum terms exceed maximum penalties, that may be due to anomalies in criminal justice practices, habitualized offenses, database errors, etc.

Each minimum term category is rounded up from the preceding category (for example, the ten-year category includes all minimums longer than five years up to exactly ten years).

Minimum term averages are based on the raw data figures within the categories above (with life sentences excluded from the calculations).

* Sentences with Insufficient Information = 12

Largest minimum term is reported for prisoners with multiple offenses.

When minimum terms exceed maximum penalties, that may be due to anomalies in criminal justice practices, habitualized offenses, database errors, etc.

Each minimum term category is rounded up from the preceding category (for example, the ten-year category includes all minimums longer than five years up to exactly ten years).

Minimum term averages are based on the raw data figures within the categories above (with life sentences excluded from the calculations).

C5 Prisoner Escapes from Secure DOC Custody

Calendar Years 2005 - 2012

Prisoner escapes from secure DOC custody include any and all escapes from:

- MDOC institutions.
- MDOC custody (i.e., while under MDOC control, such as while in transit or hospitalized).
- Special Alternative Incarceration (prisoners only).

Parole Board

This section summarizes 2012 data on offender movement to parole, and Parole Board activity and decisions. It also examines the parole outcomes of offenders who paroled in 1998-2009.

Table-Chart D shows the total number of prisoner movements to parole each year from 1998 through 2012.

Table D1 compares 2012 Parole Board activity and decisions to that of the previous twenty years. **Table D1a** provides more detail regarding the 2012 activity of the Parole Board.

Table D3 in this report was the product of work to re-engineer the tracking of offender outcomes following parole. The new effort began with tracking outcomes for a standardized two years (shorter only in the event of return to prison as a failure). This has since been extended to a standardized follow-up period of three years to meet legislative reporting requirements — thus eliminating the D2 Table. The table shows outcomes for several annual parole release cohorts to enable comparisons over time.

Table D3 represents a change from what was reported on this subject in annual MDOC Statistical Reports prior to 2005; so further explanation is warranted. The genesis of Prisoner Reentry – discussed in Section G – required a re-engineering of the old parole outcomes analysis methodology. The past table format was based on very old computer programming that tracked outcomes only until the parole terms expired. So, there were no controls on time at risk of failure in the tables because parole terms ranged from as short as a couple of months for parole-to-max cases to as long as four years for paroled lifers, while the most common parole terms are 18 to 24 months. Outcomes subsequent to the expiration of the parole terms were not reflected in the data.

The old production analysis that was generated by the data system for parole outcomes also provided only statewide results and could not be analyzed in greater depth than was present in the report tables. As Prisoner Reentry began to be planned and implemented, it quickly became apparent that a more robust method of outcome tracking would be needed. A bridge to the past would also be needed to enable new annual parole cohorts to be compared to older release years using a consistent methodology.

Calendar year 1998 was established as the baseline parole release year of the analysis for comparison with the outcomes of future annual parole cohorts. Calendar 1998 was selected as the baseline year because it was the most recent year that would provide a full four years of potential follow-up for an entire cohort year before the follow-up periods would reach into calendar year 2003 when the Prisoner Reentry initiative began.

As can be seen from the **D3 Table**, the current primary definition of failure continues to be return to prison as either a parole violator technical return or with a new sentence (although the latter can now occur after the parole term expired).

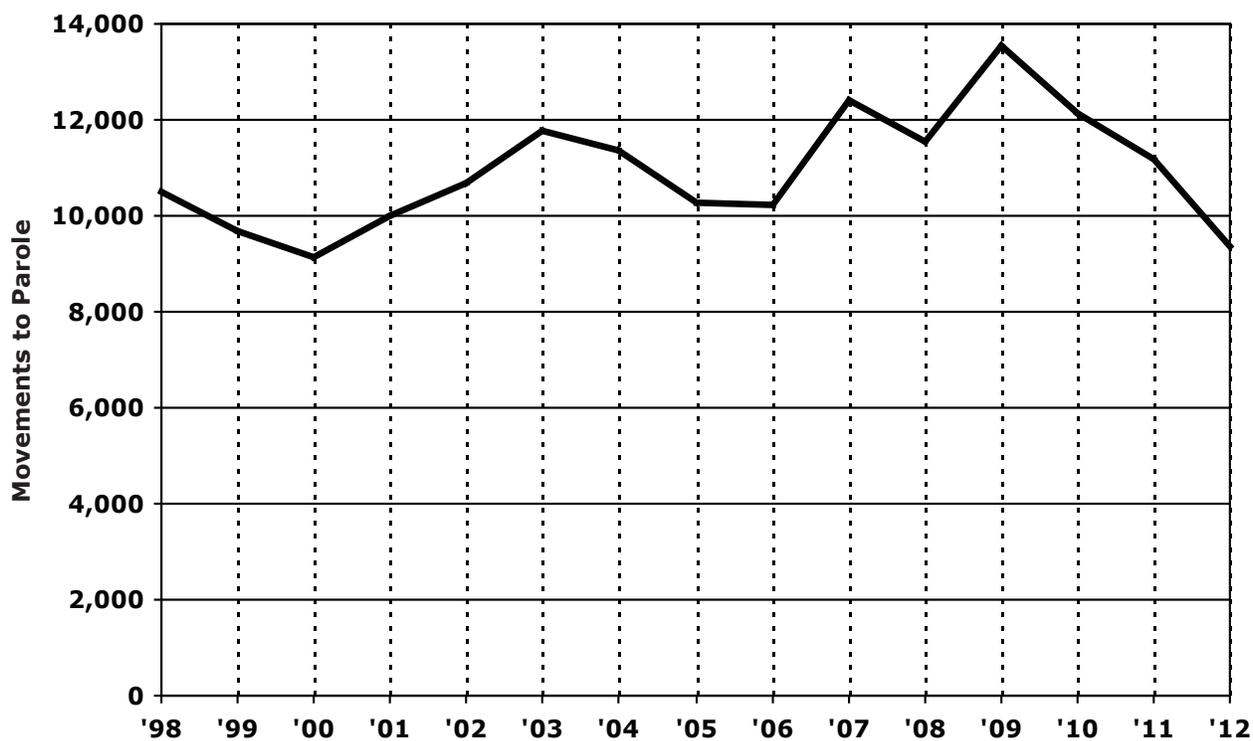

Table D3 also shows offenders who were on parole absconder status at the end of the follow-up period. While on absconder status, parolees are obviously not succeeding at that point; but it is also important to note that they are not automatically headed back to prison. The determining factor in the disposition of a parole absconder is an assessment of offender risk. When risk is determined to be low (such as when an absconder is still employed and generally following parole rules, but failed to report), then the parole agent may continue to work with the case and impose local sanctions, possibly increase supervision of the case, and engage the community in service delivery designed to intervene in the behavior that led to the abscond and enable the absconder to become a successful parolee.

¹Follow-up includes three years from parole for prisoners paroled to Michigan counties.

²Still on Parole status after three years from parole; either parole term given is longer than three years or parole term extended.

³Discharged are cases not Still on Parole; they include death.

⁴On Abscond status after three years from parole.

⁵If a prisoner returned as a Technical Violator but also received a New Sentence within three years of parole without reparing, the case is counted only in the New Sentence column.

⁶Includes all new sentence commitments to prison within three years of release including cases discharged from parole and recommitted to prison.

⁷Return to Prison only includes cases that were returned on upheld Technical Violations or for a New Sentence within three years of release.

6.5% of the 2009 parole releases from prison received an uttered felony jail sentence that did not rise to the level of being returned to prison by the judge.

Probation and Parole Supervision

This section contains data and information regarding the supervision programs for probationers and parolees within the Department's Field Operations Administration (FOA).

FOA is responsible for the supervision of all adult felons on probation and parole. Selected parolees and probationers are also supervised on electronic monitoring.

In addition, FOA is responsible for administration and operation of the Department's residential Reentry programs located in Lake and Wayne Counties. These programs assist parolees with housing, employment, substance abuse treatment, and other adjustment problems. These programs are now included under the umbrella of Prisoner Reentry, a collaborative effort between the Michigan Department of Corrections and the departments of Community Health, Labor and Economic Growth, Human Services, and numerous community partners.

Field operations are administered through Regional and Area offices (see the map on page E-2). The Metropolitan Region covers Wayne, Oakland, Macomb, and Washtenaw counties; and the Outstate Region covers the rest of the lower peninsula and all of the upper peninsula.

Table E1 shows the number of parolees returned to prison for technical violations and new sentences, broken down by gender and year. This table also shows the number of parole revocation hearings held each year.

Chart E2a presents a breakdown of Field Operations *personnel* by type of offender supervised and by employee job classification. **Chart E2b** displays a breakdown of Field Operations *funds* by type of offender supervised.

Chart E3a shows the distribution of investigations conducted, by type, and **Chart E3b** shows a breakdown of the average number of offenders supervised, by type.

Chart E4 displays the number of pre-sentence investigations conducted each year for the last ten years.

Chart E5 shows the average number of parolees, and **Chart E6** the average number of probationers under supervision for the last ten years.

Investigations

¹ Pre-Sentence Investigations: In-depth analysis of the individual and circumstances of the offense.

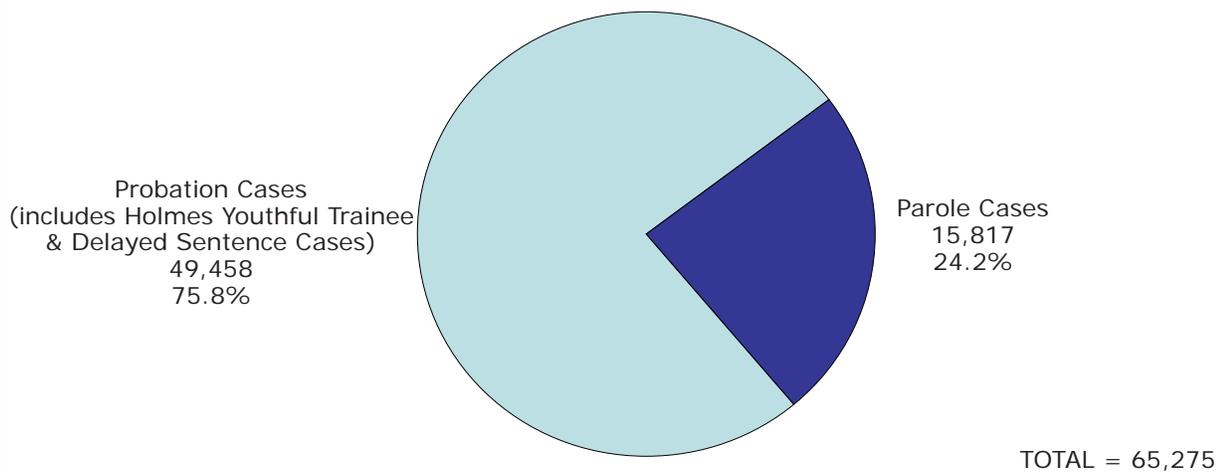

² Special Investigations: Assignments completed at the request of the Governor, other states, the parole board, or the court.

³ Pre-Parole Investigations: Prior to inmate release, living arrangements and job placement are investigated.

⁴ Violations Investigations: Reports prepared following a parole or probation violation.

Supervision: Average Number of Offenders Supervised

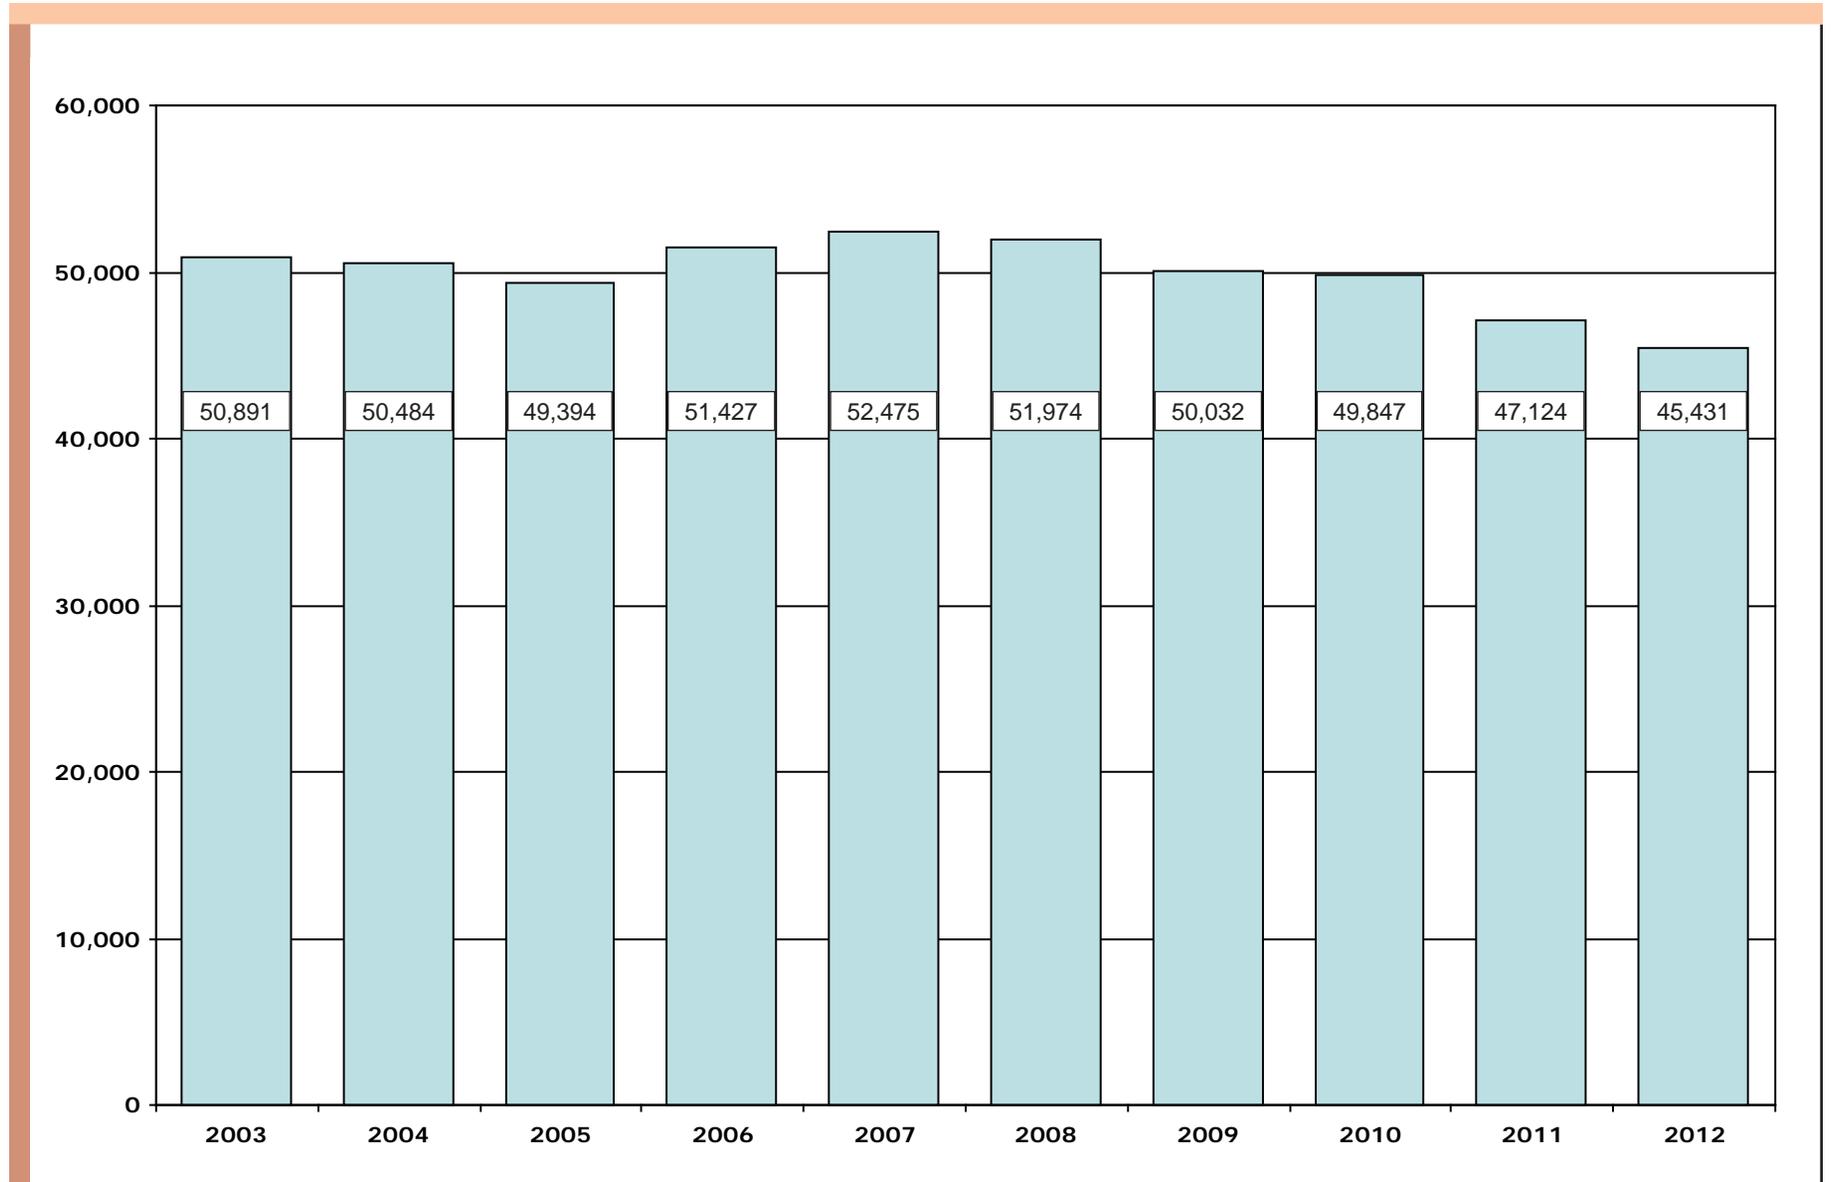

Supervision is the process in which parole or probation agents work with offenders who are under the jurisdiction of the Department of Corrections (parole) or the jurisdiction of the Courts (probation, Holmes Youthful Trainee, and delayed sentences). The case numbers in the chart represent the average number of cases under supervision during the year.

Department Operations

This section contains data and information about a variety of Departmental programs and administrative functions, operations and services.

There are four subsections:

- *Prisoner Program, Disciplinary and Litigation Statistics*
- *Michigan State Industries*
- *Bureau of Health Care Services*
- *Department Expenditures and Personnel Summaries*

Prisoner Program, Disciplinary and Litigation Statistics

Table F1 provides statistics regarding the faith preferences of the prisoner population.

Table F2 provides the number of prisoners enrolled in academic and vocational programs. The education statistical reporting format was revised in 2005. The year-to-date (YTD) completion figures represent cumulative totals for FY 2012, while the enrollment and waiting list figures are based on numbers from the fourth quarter of FY 2012 (July 2012 - September 2012)

Tables F3a - F3c provide enhancements to what in previous years was referred to as **Table F3**, 'Major Misconduct Statistics'. Effective November 1, 2010, policy changes were made to the prisoner disciplinary process, such that former major misconducts are now split in to Class I and Class II misconducts and the former minor misconducts are now Class III misconducts. While reconstructing the tables to separate Class I and Class II misconducts, a minor correction was made such that the actual location and date of the misconduct is the basis for the data instead of the location and date of the misconduct hearing.

Class I misconduct violations may result in a prisoner's placement in segregation or loss of sentence credits (for those still serving eligible sentences). Statute requires Class I misconducts be conducted by attorney hearing officers due to the potential for placement in segregation or loss of sentence credits resulting from a guilty finding. Class II and Class III misconducts are handled through an informal hearing process conducted by facility staff instead of attorney hearing officers. Under the new policy, any Class II misconduct may be elevated to a Class I by the reviewing officer prior to the hearing based on the seriousness of the charge. In addition, a hearing officer can find cause at a hearing to reduce a Class I or Class II misconduct to a Class II or Class III offense based on the evidence on the record.

Table F4 is a summary of the number of lawsuits filed against the Department, by category and year (2008 - 2012).

F1 2012 Total Prisoner Faith Preferences

This table represents the approved religions in the MDOC facilities and the number of prisoners claiming each as their religious preference.

¹ This table reproduces what in previous years was referred to as Table F3 (Major Misconduct Statistics). Table F3a includes all Class I's and Class II's - including all Class I's reduced to a Class II. As in previous years, Table F3a generally excludes Class III (Minor) Misconducts - except for Class I's and Class II's reduced to a Class III. It is important to note that due to 'reduced' charges, the totals in Tables F3b and F3c will not add up to the totals found in Table F3a.

Michigan State Industries

Michigan State Industries (MSI), a division of The Office of Employment Readiness, provides prisoners of the Michigan Department of Corrections academic, career and technical education, along with workplace skills and training programs in order to acquire and maintain a job. MSI provides manufactured goods and services to State Agencies, Federal Government and 501(c)3 Non-Profit Organizations. The types of products and services include garments, dental, janitorial, printing, recycling, safety apparel, signage and much more.

Chart F5 is a 7 year history of total sales and net margin for MSI.

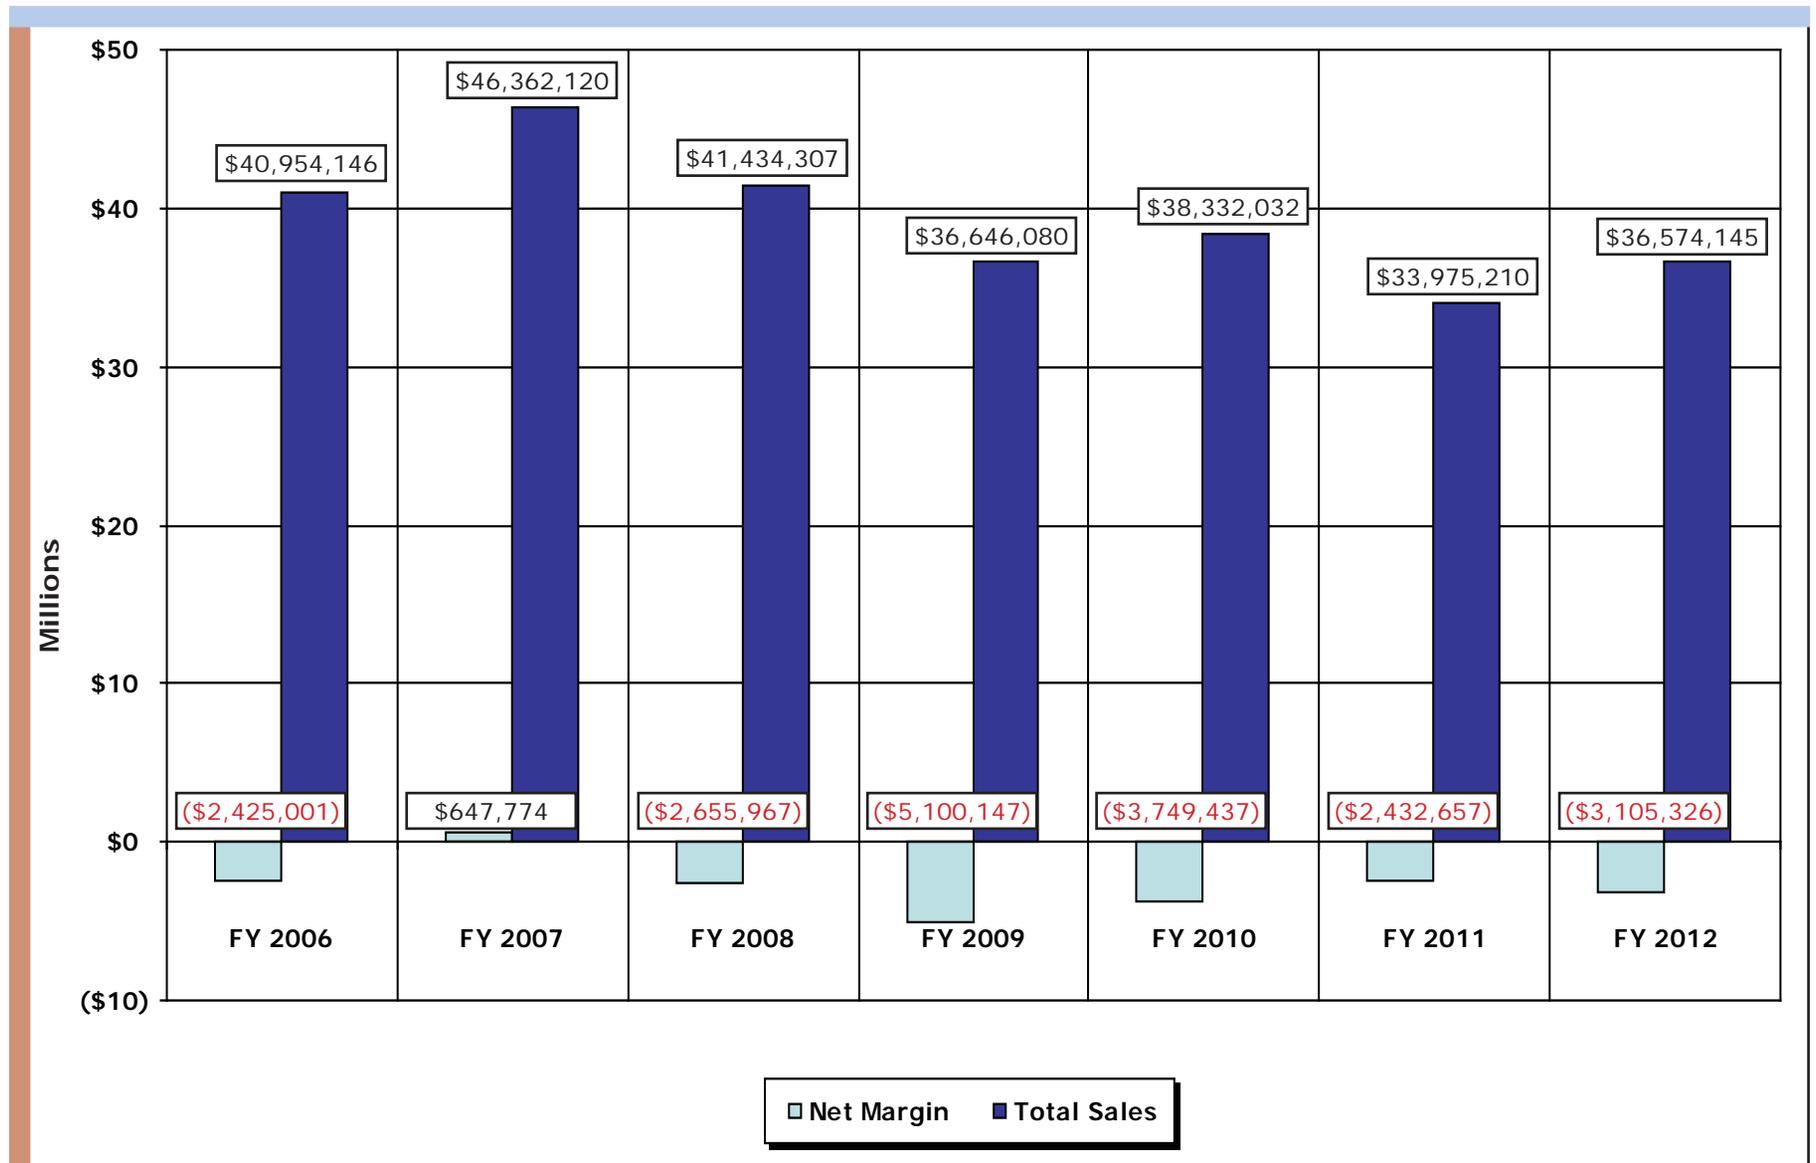

Table F6 provides a comparison of total sales and net margin from factory operations, broken down by individual factory and fiscal years (FY 2011 and FY 2012).

Table F7 shows the hourly pay schedule for prisoners employed in correctional industries.

CLASS	Automatic Increases		
	Start	30-Day	60-Day
	A	B	C
2. Semi-Skilled	.35	.40	.45
3. Skilled	.50	.55	.60
4. Highly Skilled	.65	.70	.75
5. Specialist	.80	.85	.90

NOTE: There is no Class 1 pay grade. Prisoners start at 2A and receive automatic increases up to 3C.

Class 4 & 5 rates are not automatic increases. Each factory has a finite number of 4 & 5 positions. Prisoners bid on openings as they become available.

Merit increases have been eliminated. Anyone currently at a pay rate which exceeds the maximum rate for that classification will be frozen.

Bureau of Health Care Services

This section presents charts regarding the cost of health care services for prisoners. Services are provided by the Bureau of Health Care Services. The Bureau has two main goals:

- Provide cost-effective care.
- Provide quality care.

Charts F8 and F9 summarize the Department's prisoner health care costs.

- **Chart F8** is a table/graph combination showing costs per prisoner health care for FY 2003 through FY 2012. Prior to February 2011, F8 distinguishes between medical, dental and psychological services provided or controlled directly by the Department of Corrections versus mental health care costs provided directly by the Department of Community Health (DCH) for prisoners with serious mental illness. Effective February 2011, all mental health services are provided by the MDOC.
- **Chart F9** shows a detailed breakdown of the trend of prisoner health care costs for FY 2003 through FY 2012 under direct control of the Department of Corrections.

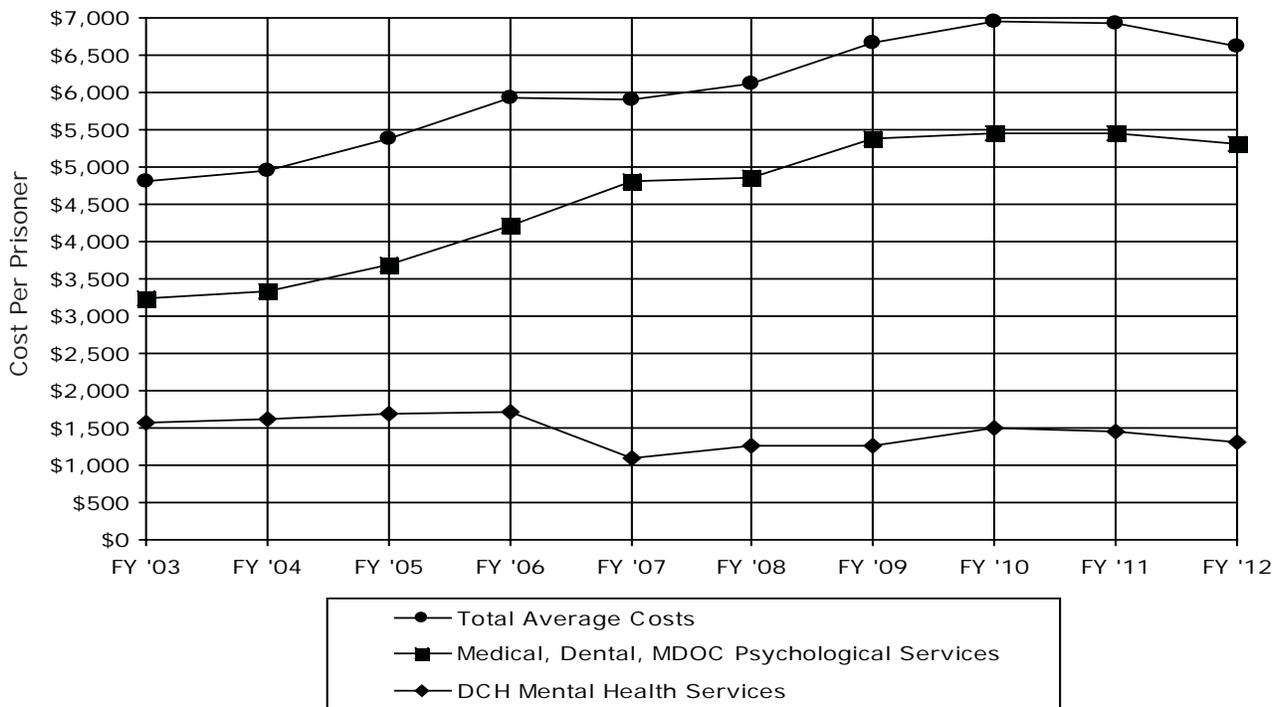

The former **Chart F10**, *Consent Decree Health Care Expenditures*, was last published in the 2008 Statistical Report. The conclusion of the Consent Decree made the chart obsolete.

* Based on Service Population. Service population includes Correctional Facilities and Reentry Centers.

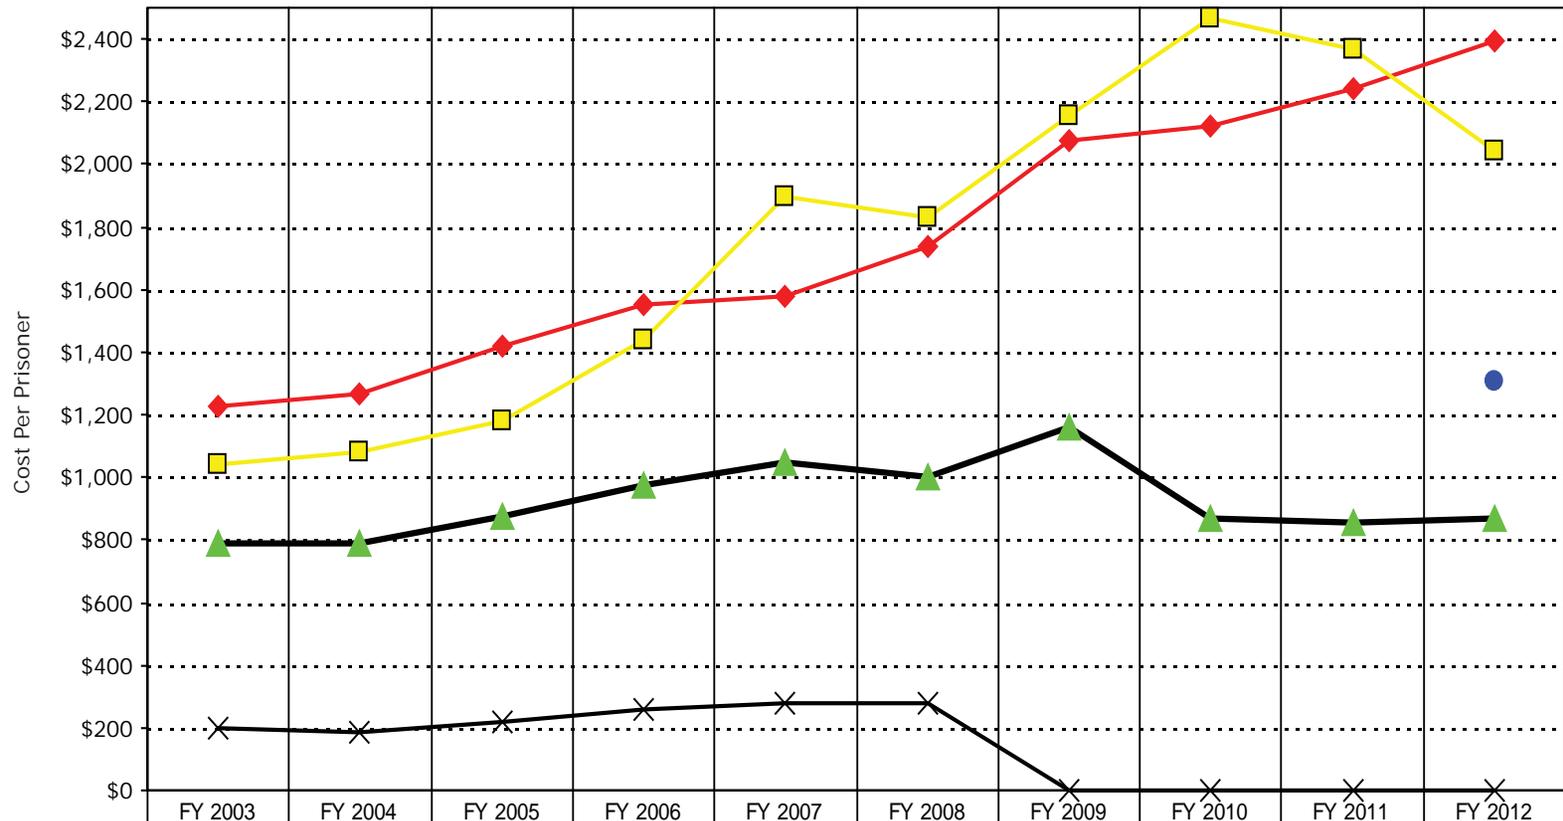

** Mental health services provided to prisoners meeting Michigan's definitions of seriously mentally ill. Until February 2011, these services were provided by the Department of Community Health (DCH). Effective February 2011, these DCH employees have become MDOC employees and all mental health services are provided by the MDOC.

Department Expenditures and Personnel Summaries

This section summarizes how the Department spent its fiscal year 2012 appropriations and presents statistics regarding the Department's employees.

Table F11 shows spending broken down by facilities and other Departmental operations. **Table F11a** is a summary chart of Department spending by function.

The **Tables F12** and **F12a** present information about the number and characteristics of Department employees by location.

Michigan Prisoner Reentry

Michigan Prisoner Reentry (MPR), implemented in the summer of 2005 as a state-wide initiative - spearheaded by the Governor and supported by various state departments, local elected officials, and faith-based and community-based organizations in partnership with the Michigan Department of Corrections - is how we now do business, and is thus no longer just an initiative. The graphic on Page **G-3** demonstrates the Michigan Prisoner Reentry Model. Pages **G-4 through G-8** explores the Michigan Prisoner Reentry process in greater detail, including each of the three phases and our utilization of the Transition Accountability Plan (TAP). The map on page **G-9** shows the current status of the statewide MPR sites and in-reach prisons.

VISION

The Michigan Department of Corrections (MDOC) envisions the placement of an offender into the community as a carefully planned process. It is guided by a Transition Accountability Plan (TAP) which provides the prisoner with a course of learning, upon incarceration, and is meant to prepare him or her for a legally and socially acceptable adjustment to life in the community by the time they have completed the minimum term of imprisonment ordered by the court. Supported by experienced professionals in the public and private sectors before, during, and after release from incarceration, the prisoner will have the tools necessary to prepare him or herself for parole. And, following parole, the offender will have the resources and guidance necessary to support successful community adjustment.

MISSION

The mission of Prisoner Reentry is to enhance public safety by reducing offender recidivism through a seamless plan of services and supervision, delivered through state and local collaboration. This plan will be developed with each prisoner from the time of his or her entry into the prison system through parole and reintegration into the community.

MICHIGAN PRISONER REENTRY: A Success Story

- From the inception of Michigan Prisoner Reentry in 2005, through December 2012, nearly 37,000 prisoners were paroled from standard Reentry in-reach facilities. ¹
- Outcomes tracking for Michigan Prisoner Reentry release cohorts through December 2011 showed a relative rate reduction of 38% fewer returns to prison for violation of parole conditions or new crime compared to baseline expectations, controlling for time at risk and history of prior parole failure.
- The 38% improvement in outcomes under Michigan Prisoner Reentry translated into an absolute reduction of 5,193 fewer returns to prison through December 2011 compared to what would otherwise have been anticipated under the baseline rates.
- As implementation of the full Michigan Prisoner Reentry model progressed over time, the successive Reentry release cohorts yielded better and better outcomes.
- Now that Michigan Prisoner Reentry is statewide and up-to-scale, reentry is no longer just an initiative, but rather it is how the Michigan Department of Corrections does business. All offenders released from prison have had risk and need assessments and either receive necessary criminogenic programming/services while incarcerated or have that arranged upon return to the community. So, we are now tracking all releases from prison as reentry releases.

-
- Michigan Prisoner Reentry has been a major contributor to lower recidivism rates overall for the State.
 - Recidivism rates for Michigan's annual parole releases have gradually improved over the past eleven years, from a contemporary high of 45.7% of 1998 paroles being returned to prison within 3 years following release, to a new low of 30.6% of 2009 paroles being returned to prison within 3 years following release. ²
 - Annual admissions to prison of parole violators with new sentences have declined by a total of 31% during the past four years.
 - Michigan Prisoner Reentry is smart on crime. It enables higher parole approval rates via releasing authority confidence in improved risk assessment, offender accountability, and better parole outcomes. It lowers the parole revocation rate while maintaining public safety via successful offender transition back home. And it thereby also reduces the size of the prison system as a side benefit, enabling reinvestment of taxpayer dollars for other purposes. Consequently, Michigan Prisoner Reentry has widespread support among our community partners and the general public.

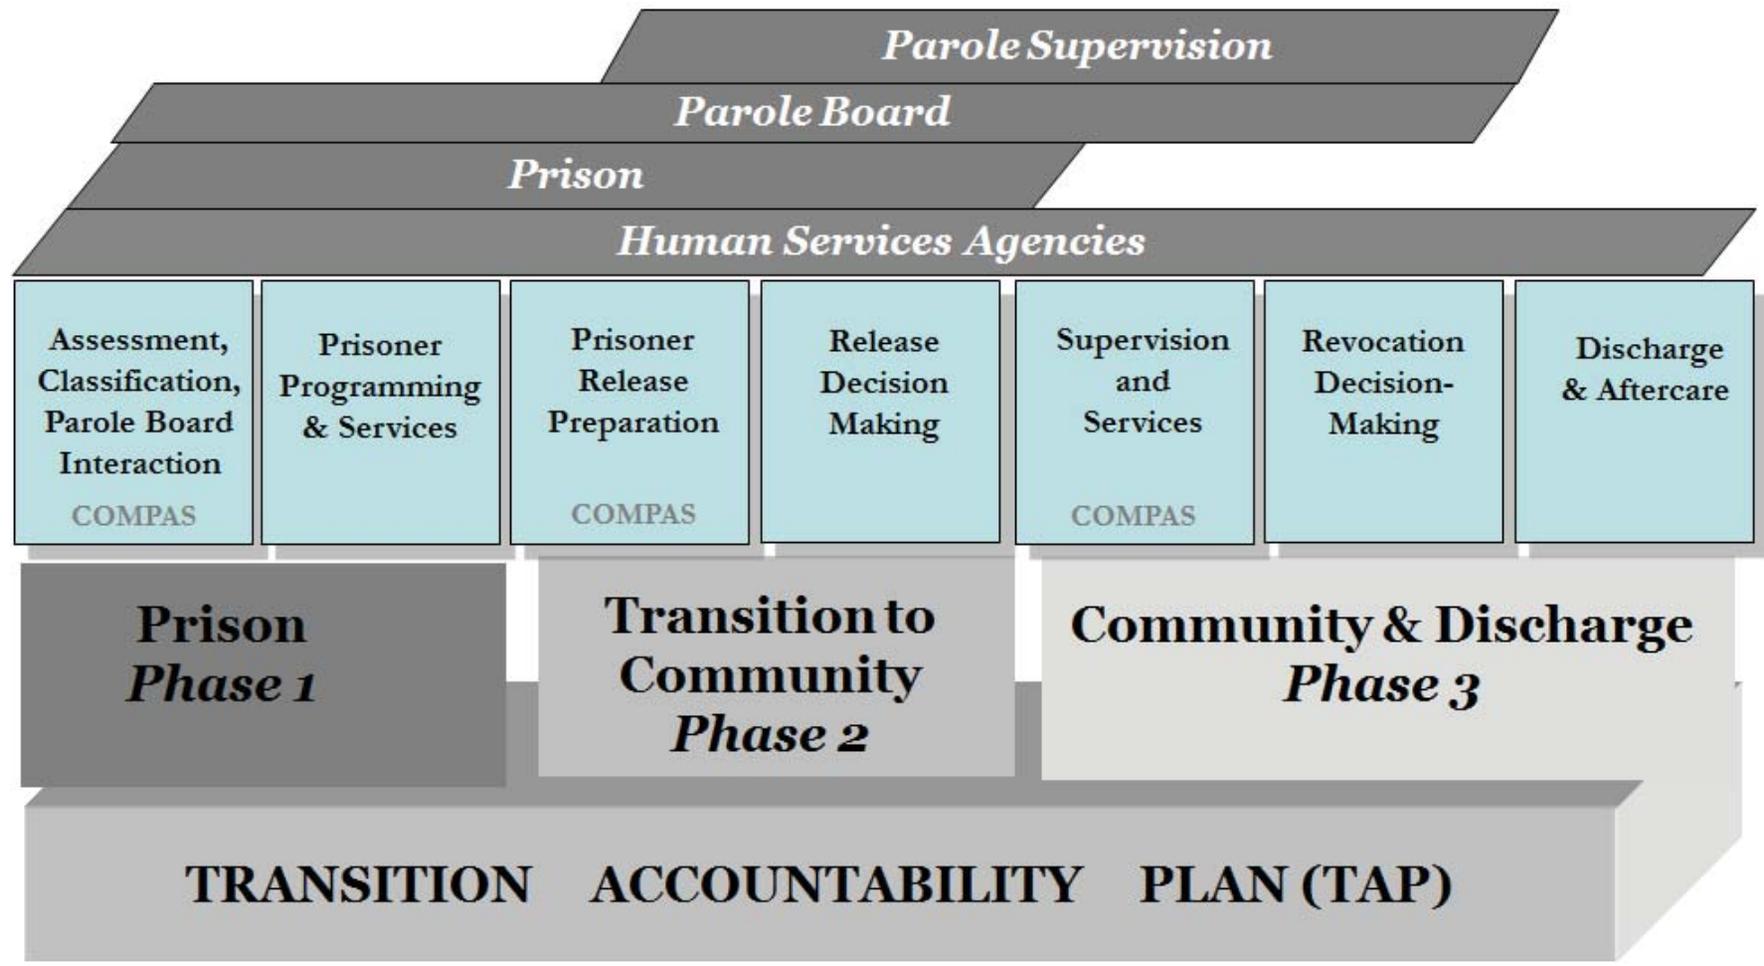

¹ Specialized subpopulations of additional inmates have also been engaged in the Prisoner Reentry Mentally Ill Project and the Special Alternative Incarceration (SAI) Intensive Reentry Program, both of which were tracked separately and also show improved outcomes against baseline comparisons.

² 2009 releases were the most recent cohort to have completed a full 3-year follow-up period at the end of 2012.

Michigan Prisoner Reentry: Phases and Transition Planning

Phases Of Prisoner Reentry

Michigan Prisoner Reentry (MPR) includes three phases:

PHASE ONE – Prison

Phase I involves the first two major decision points of Assessment and Programming. The prison phase begins with the pre-sentence investigation report, followed by administration of risk and needs assessments or a psychological evaluation at prison intake. A case plan or transitional accountability plan (TAP) is developed based on the results of the assessments and evaluations. The case plan is fluid and is responsive to changes in risk and needs during the term of incarceration. The case plan follows the prisoner throughout his or her term of incarceration until parole or upon discharge at the end of the maximum term.

1. Assessment, Classification, Parole Board Interaction:

- a) Measure prisoner's risks, needs, and strengths and engage the Parole Board in the design and approval of the TAP.
- b) Conduct comprehensive assessments for each individual whose screening identifies psychological and mental health issues, physical health problems, and substance abuse dependency.
- c) Assess the prisoner's interpersonal skills and basic literacy.
- d) Review each prisoner's previous and current program history and determine what steps will be needed to transition the individual into those programs upon parole.
- e) Assess the special needs of populations such as females, youthful prisoners, mentally ill prisoners, and developmentally disabled prisoners

2. Prisoner Programming & Services:

- a) Develop for each prisoner an individualized case plan, approved by the Parole Board, which is based on information obtained from assessments and explains what programming should be provided during the period of incarceration.
- b) Ensure programs incorporate the principles of "cultural and gender competency."
- c) Include in the programming plan periodic reassessments during the prisoner's incarceration which identifies the need for modifications of the plan.
- d) Establish a uniform, state-wide, recordkeeping database of programming provided by Department staff and contracted vendors.
- e) Integrate prevention of disease, education, and good health promotion into correctional health services.
- f) Promote comprehensive integrated medical, mental health, and substance abuse treatment services within correctional facilities and as a central component of corrections-community linkages.
- g) Ensure up-to-date medical records transfer with the offender from one provider to the next.
- h) Engage community-based mental health care systems, if appropriate, in providing pre-parole and post-parole services to offenders with mental health needs.
- i) Assess prisoners for substance abuse program participation and prioritize treatment for drug-dependent prisoners and those approaching parole or discharge on their maximum sentence.
- j) Assist prisoners and their families to establish, reestablish, or strengthen relationships through visitation and family reunification programs where appropriate.
- k) Provide cognitive behavioral therapy, peer support, mentoring, and basic living skills programs to improve prisoners' thinking, attitudes, motivation, and ability to live independently.
- l) Teach prisoners functional, educational, and vocational competencies based on employment market demand and public safety requirements.

-
- m) Provide prisoners with opportunities to participate in work assignments and skill-building programs that enhance their employability in the community.
 - n) Establish work programs that involve non-profit, volunteer, and community service organizations where possible to permit prisoners to gain work experience.
 - o) Ensure prisoners released from prison have appropriate forms of identification and information on how to apply for services and assistance for which they are potentially eligible.

PHASE TWO – Transition to Community

Phase II involves the next two major decision points, Preparation for Prisoner Release and Release Decision-Making. The transition to community phase begins when the prisoner's parole readiness is assessed in light of his or her earliest release date (ERD). At a point in each prisoner's incarceration when there remains sufficient time for additional training or programming, if needed, the prisoner's Phase I conduct and compliance with the TAP must be reviewed. The goal of preparing the prisoner for parole by the ERD relies on an ongoing evaluation of the prisoner's behavior and the effectiveness of the TAP to meet its objectives for mitigating risk. The parole eligibility report or a similar assessment will inform the Parole Board of the prisoner's parole readiness. At the discretion of the Board, in conjunction with positive parole action, prisoners with moderate or high criminogenic needs may be referred to an InReach facility where transition services are available. There, reentry plans are finalized with the assistance of a local transition team to address important needs such as housing, employment, and treatment for addiction or mental illness.

3. Prisoner Release Preparation:

- a) Ensure the prisoner is ready to return to the community and that programming is developed in the community to support a realistic and public safety-conscious parole plan.
- b) Determine, on an individual basis, the parole placement needs for each offender released from prison, taking into consideration the requirements for individuals with special needs and populations with special stipulations, such as sex offenders.
- c) Evaluate the appropriateness of an offender living with family members; taking into account the risk of domestic violence or child abuse based on the offender's history or risk assessments and the vulnerability of family members.
- d) Ensure that prisoners who anticipate having to rely on reentry resources for commercial transitional housing understand that such provisions are temporary and that their parole plan must include a strategy for becoming self-sufficient to secure his or her own housing.
- e) Encourage private sector or nonprofit housing developers and community-based organizations to develop housing options to serve as transitional parole placements for offenders who do not have viable placements with family or friends upon release.
- f) Ensure that prisoner health care is documented and delivered in such a way that recommended care and support can be continued in the community upon release.
- g) Ensure prisoners understand their individual health care needs sufficiently to know where to go for help and what to ask when they become responsible for guiding their own care.
- h) Promote employment and transitional job opportunities for parolees in local communities and educate employers about financial incentives such as the federal bonding program, work opportunity tax credit, and welfare to work programs which may make offenders more appealing employment candidates.
- i) Identify or establish community service, transitional employment, apprenticeships, internships, and other opportunities for offenders to acquire work experience and skills as they seek permanent employment.
- j) Engage prospective employers to become members of prisoners' transition teams where possible.

4. Release Decision-Making:

- a) Ensure that the Parole Board is fully informed about the prisoner's progress toward achieving TAP objectives; provide the Board with an accurate, up-to-date risk and needs assessment and parole guidelines score.
- b) Ensure registered victims have an opportunity to provide input into the parole consideration process.
- c) Ensure that the conditions of parole in each case recognize the particular strengths, weaknesses, and needs of the prisoner, the resources in the community, evidence of their efficacy for case management purposes, and that the term of parole contains conditions that the Board is prepared to enforce.
- d) Ensure that the decisions of the Parole Board to deny parole include an explanation to the prisoner of the decision and any recommendations the Parole Board may have for steps the prisoner might take to enhance his or her readiness for parole at his or her next consideration date. The Parole Board's recommendation may include a referral to a prison based program.

PHASE THREE – Community & Discharge

Phase III involves the final three major decision points of the Transition Process; Supervision, Revocation, and Discharge/Aftercare. The community and discharge phase begins when the prisoner is paroled from prison and continues until discharge from community supervision. During this phase, the parolee, the parole officer, human services providers and the offender's personal support network must collaborate to optimize the parolee's chances for a successful adjustment to community living. Although discharge from his or her sentence represents the end of the reentry work for the parole officer, mentoring and social services may still be appropriate in some cases for offenders who seek such continuing support after discharge.

5. Supervision and Services:

- a) Review and prioritize the Parole Board terms and conditions of parole and develop a supervision strategy that corresponds to the risk and needs of the individual offender and the resources available in the community.
- b) Transfer the prisoner designated by the Parole Board for participation in InReach programming and services to a correctional facility nearest to the community in which the prisoner will be placed upon parole.
- c) Engage community members, including representatives from the local law enforcement community, community organizations, the faith community, business community, and contracted reentry partners to serve on a transition team with corrections staff for the purpose of meeting with the prisoner prior to his or her release to facilitate planning and support for reentry into the community.
- d) Apply the information from the risk and needs assessments, psychological evaluations, offender relapse prevention plans, pre-sentence investigation reports, Department policy and procedural directives, and other sources to classify each prisoner to the appropriate level of supervision and then create a plan or supervision strategy tailored to the prisoner.
- e) Assign a parole officer to manage the case, and ensure a placement investigation is completed to confirm that the proposed parole placement is suitable.
- f) Provide the prisoner with a copy of the conditions of parole during the orientation by the supervising parole officer to ensure the offender clearly understands what is expected of him or her during the supervision period.
- g) Provide the prisoner with a 30-day supply of essential medication, as determined by health care staff, upon release to the community to avoid a gap in prescribed medical care.
- h) Concentrate community supervision resources on the period immediately following release from prison and adjust supervision strategies as the needs of the offender, victim, and community change over time.
- i) Focus case management activity on interaction between the parole officer and the parolee in the field, where the offender lives and works.
- j) Leverage community-based networks to assist with case management efforts; engaging law enforcement

partners, the offender's family members, the employer, therapist, and mentors as members of the case management team.

- k) Work continuously to establish and verify the offender's compliance with parole conditions; correcting behavior and thinking through casework options, including both positive and negative reinforcement as appropriate.
- l) Train parole officers in motivational interviewing, collaborative case management, and other training as appropriate.
- m) Engage the services of contracted providers, as needed, to assist with the coordination of case management efforts.

6. Revocation Decision-Making:

- a) Respond to offender non-compliance with interventions to correct behavior and promote self-discipline.
- b) Refer parolees to the Parole Board whose violation behavior represents a threat to public safety.
- c) Provide parole officers with a range of interventions and sanctions to correct behavior and re-orient offenders to pursue TAP objectives when possible.

7. Discharge & Aftercare:

- a) Develop post-supervision plans with parolees.
- b) Assess the needs of all prisoners who will discharge on their maximum terms from prison and provide them with guidance on how and where to seek care and services in the community. Pay particularly close attention to establish written plans for prisoners with special needs and those convicted of sex offenses.

Transition Accountability Plan (TAP)

The TAP integrates the prisoner's transition from prison to the community by developing phases in the transition process. It is a collaborative plan involving prison staff, the prisoner, the Parole Board, field staff, human services providers (public and private), victims, neighborhood and community organizations.

The TAP identifies the objectives to be met in order to prepare prisoners for release from prison, defines the terms of their release to the community, and specifies the services he or she will need in the community and the programs needed to successfully complete the community supervision term. The TAP provides the prisoner with an outline of programming, based on his or her needs as identified by an actuarial risk assessment (i.e., COMAPS, VASOR, Static-99R), which will be completed during his or her incarceration and prior to the parole consideration process. The objective of the TAP is to increase overall community protection by lowering the risk to persons and property by increasing the individual prisoner's positive adjustment upon parole to the community, including offender self-sufficiency.

The TAP process begins soon after intake into the prison system; continues during the prisoner's term of confinement and parole as an evolving framework for aftercare provided by human service agencies or other means of self-help and support. The TAP increases efficiency in terms of parole dates and actions (and timing of actions) that need to be taken by prisoners, prison staff, the Parole Board, field staff, and partnering agencies. This program continuity is geared to motivate prisoners to participate in the TAP process and become engaged in fulfilling their responsibilities. It provides clear guidelines where all parties are held accountable for timely performance of their respective responsibilities.

TAP Principles:

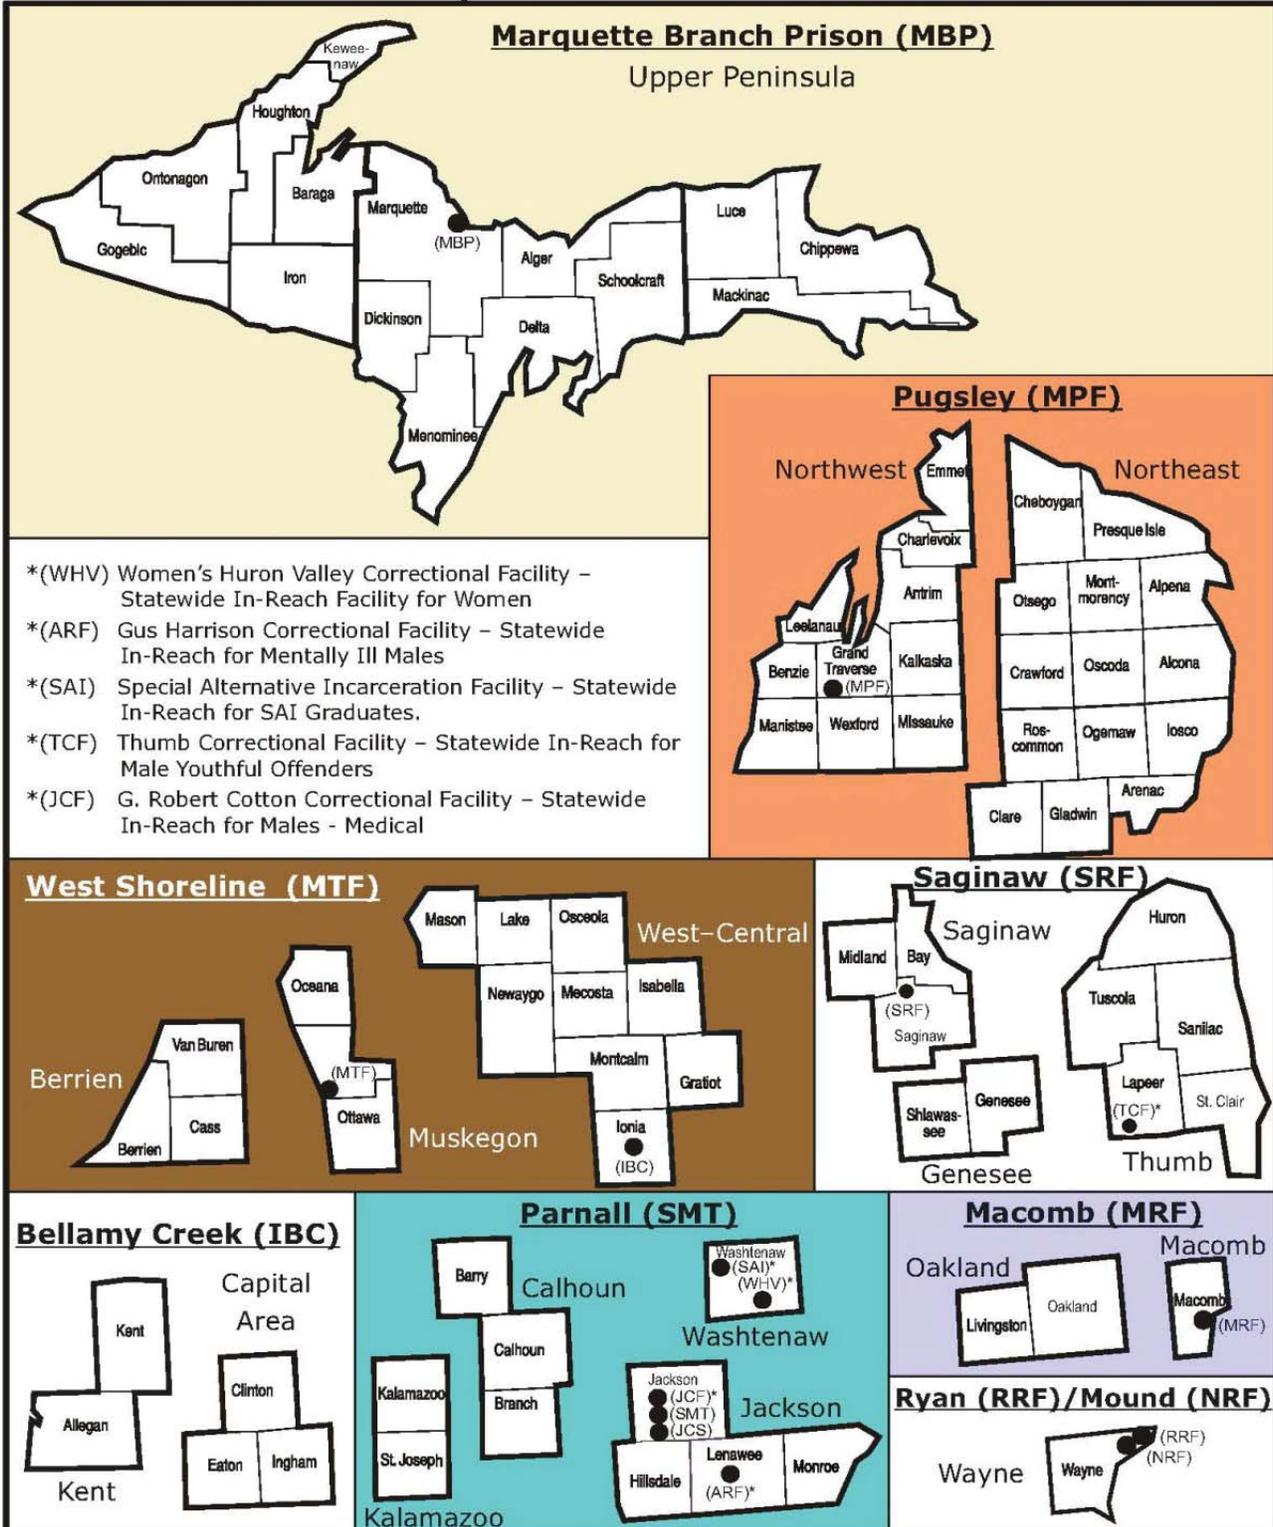

1. This process begins during the initial classification following admission to prison and continues through discharge.
2. The TAP defines programs or interventions to modify the prisoner's risk factors as identified in a risk and needs assessment.
3. The TAP is sensitive to the need for public safety, and the timing and availability of services. In an ideal system, every prisoner would have access to programs and services to mitigate risk factors. But, in a system constrained by finite resources, the Department must rationally allocate access to resources according to risk management strategies.
4. Reentry partners should participate in the planning and implementation of each individual prisoner's TAP.
5. Individual TAPs delineate the responsibilities of prisoners, correctional agencies, and partners in the creation, modification, and effective application of the plans, and hold prisoners accountable for their actions.
6. TAPs provide a long term road map to achieve continuity in the delivery of treatment and other services as well as the sharing of requisite information over time across and between agencies.
7. A case management process is used to arrange, advocate, coordinate, and monitor the delivery of a group of services needed to meet the needs of individual prisoners. During the prison phase, prison staff serve as case managers. As prisoners prepare for parole and adjust to community supervision, a parole officer will become the case manager. Following discharge, a staff member from a human service agency may assume case management responsibilities for offenders who choose to seek continued services or support.

The collaborative effort which the TAP requires is based in part on the training of staff to ensure that all situations involving offender interaction are conducted in a pro-social manner. This is accomplished by engaging all partners in a collaborative process that holds the prisoner accountable for his or her behavior with the goal of increasing offender success. Prisoner Reentry partners will create, maintain, and operate a seamless system of collaboration that includes assessment, programming, planning, and management. Collaborative Case Management (CCM) focuses on offender success, holding the prisoner accountable, utilizing evidence-based practices, reinforcing a strength-based approach to behavior change, and recognizes that no approach will completely eliminate crime.

Prisoner Reentry

Prisoner Reentry Sites and In-Reach Prisons

Community Reentry Program and Electronic Monitoring

The Community Reentry Program impacts prison admissions by intervening and diverting eligible parole violators who would otherwise be returned to prison. At the end of 2012, the average time before reparole for a parole technical violator was 12.5 months. The 2012 average successful Residential Reentry Program (RRP) stay was 65.1 days, or 2.1 months, which saved an average of 10.4 months per parole technical violator RRP participant. The following two programs fall under the Community Reentry Program:

- The Residential Reentry Program (RRP), which currently operates as two sites – the Lake County Residential Reentry Program (LCRRP) and the Detroit Reentry Center (DRC).
- The Intensive Detention Reentry Program (IDRP) which provides parole agents the opportunity to detain parolees with compliance problems before they become more serious parole violators. The IDRP currently operates at two sites - the Ingham County Jail IDRP and the Wayne County IDRP located within the DRC.

Electronic Monitoring allows for the monitoring and enforcement of curfews and other conditions of community supervision. Electronic Monitoring includes radio frequency (RF) electronic tether monitoring and global positioning system (GPS) monitoring:

- RF electronic monitoring is a curfew monitoring program that allows the MDOC to verify the offender's compliance with a court or parole board ordered curfew. RF electronic monitoring may be imposed as an initial condition of sentencing or release, or as a sanction for violation behavior. RF monitoring consists of three broad offender types: probationers, parolees, and contractual. Probationers and parolees may be further divided by whether they participated in the Special Alternative Incarceration (SAI) program or not. The Electronic Monitoring

Center also contracts to provide monitoring services for Community Electronic Monitoring (CEM) and for the Regional Detention Services System (RDSS).

- GPS monitoring allows for the tracking of offender movement in order to determine compliance with supervision plans. The Department only uses active GPS monitoring, which constantly monitors offender movements and provides agents with dynamic alerts of boundary violations. Offenders monitored on GPS consist of parolees, probationers who are monitored based on extenuating circumstances surrounding the nature of their offense, and offenders who have completed their parole and are wearing Lifetime GPS.

H1 New Community Reentry Program Participants Monthly by Program Site

Calendar Years 2011 and 2012

In October 2007, the Intensive Detention Reentry Program (IDRP) was brought into the Community Reentry Programs. The IDRP began in July of 2004 as a result of the need to have an alternative for technical parole violators in counties where jail overcrowding had diminished the Department's ability to detain them. The goal was to provide parole agents the opportunity to detain parolees with compliance problems before they became more serious parole violators and, if needed, repeated incidents of noncompliance could be handled with repeated detentions.

Currently, the Department contracts with the Ingham County Jail to house parole violators for an average stay of about 30 days. In October 2012 the contract with the Clinton County Jail ended and the Wayne County IDRP was established within the Detroit

Reentry Center. One field agent is assigned to the Ingham County Jail to supervise the IDRP population. The field agent at the jail assists field agents in the community by developing an updated release plan for the parolee, which includes updated placement information, and outpatient or residential substance abuse recommendations based on assessments to determine level of care needed. While in the jails, parolees receive cognitive programming and Michigan Works employability skills training, including enrollment in the Michigan Works Talent Bank. Parolees complete and receive copies of resumes to use while searching for employment upon release.

The Residential Reentry Program (RRP) is currently operating at two sites. In 2008, the last Technical Rule Violator (TRV) center,

Lake County TRV, changed its focus to Reentry by becoming the Lake County Residential Reentry Program. In October 2012, the Ryan Correctional Facility was repurposed and renamed the Detroit Reentry Center (DRC). The Tuscola Residential Reentry Program closed on October 23, 2012 and the program was reestablished inside the DRC.

Both sites house and work with parolees who need a Reentry refresher course when their behavior exhibits early signs of parole failure. DRC also provides programming to new parolees placed as a condition of their parole. DRC houses male parolees. Lake County houses both male and female parolees.

The below table shows the number of new Community Reentry Program participants by month and program site.

H2 Community Reentry Program Terminations Monthly by Program Site

Calendar Years 2011 and 2012

In 2012, out of the total 3,559 IDRPs (Clinton, Ingham, and Wayne), there were 3,554 parolees that successfully completed the IDRP. Among the total 2,185 RRP terminations (Lake County, Tuscola, and Detroit), 2,111 parolees successfully completed the RRP. The 2012 average successful stay for parolees in the IDRP was 24.3 days (down from 26.8 days in 2011), and for the RRP 65.1 days (down from 66.5 days in 2011).

Unsuccessful IDRPs and RRP terminations occurred in about 1.4% of all terminations for 2012. Parolees failed the RRP after an average of 35.9 days in 2012, compared to 39.3 days in 2011. Typical reasons for unsuccessful terminations from the RRP include:

- Abscond violation
- Medically/Psychologically unmanageable
- Substance abuse violations
- Rule violation (non-substance abuse)

- New felony/misdemeanor
- Threatening/assaultive behavior
- Creating a disturbance
- Failure to follow rules of Reentry Center
- As determined by Central Office or Area Manager/Center Manager

H4 New Electronic Monitoring Participants Monthly by Offender Type

Calendar Years 2011 and 2012

The Electronic Monitoring Center is staffed 24/7 year round. Monitored probationers and parolees are assigned to and supervised by field agents throughout the State, but all monitoring of the equipment, alert processing and notification, and inventory control is managed through the Monitoring Center. The Center also contracts to provide monitoring services for Community Electronic Monitoring (CEM) and for the Regional Detention Services System (RDSS).

H5 Monthly Electronic Monitoring Terminations by Offender Type

Calendar Years 2011 and 2012

The table below shows the monthly electronic monitoring terminations by offender type. The following are typical reasons for unsuccessful terminations on electronic monitoring:

- Substance abuse violation
- Curfew violation
- Tampering with tether device
- Abscond violation

- New felony
- Administrative termination, which occurs when the offender is unable to continue for reasons beyond their control, such as loss of home placement, hospitalization, or commitment to a treatment program.

H6 End of Month Electronic Monitoring Populations by Offender Type Calendar Years 2011 and 2012

The Electronic Monitoring Center has equipment to handle approximately 2,800 offenders on RF monitoring. While fully operational at that level in the past, a considerable reduction in numbers has occurred since the implementation of the 1998 Truth-in-Sentencing legislation, which has caused the number of prisoners in the Community Residential Program (CRP) to fall from around 1,500 prisoners on electronic monitoring

to no prisoners in the CRP as of December 31, 2009.

H7 Monthly GPS Electronic Tether Program Activity

Calendar Year 2012

The use of Global Positioning System (GPS) monitoring allows for the tracking of offender movement in order to determine compliance with supervision plans. The Department only uses active GPS monitoring which constantly monitors offender movements and provides agents with dynamic alerts of boundary violations. Passive GPS monitoring, which stores offender movement information for later review, is no longer used by the Department.

Offenders monitored on GPS consist of parolees who may be monitored up to 2 years, 19 probationers who are monitored based on extenuating circumstances surrounding the nature of their instant offense, and 23 offenders who have completed their parole and are wearing Lifetime GPS.

Pursuant to state law, if an offender is sentenced to prison for CSC 2nd the sentencing court also must sentence the offender to lifetime GPS if the offense was committed on or after August 28, 2006, at the time of the offense the offender was 17 years of age or older, and the victim was less than 13 years of age. The same held true for CSC 1st offenders until an appellate court ruling dated

May 17, 2012 which stated that if an offender is sentenced to prison for CSC 1st for an offense that was committed on or after August 28, 2006 the sentencing court must also sentence the offender to lifetime GPS regardless of the age of the defendant or the age of the victim.

Alerts for Lifetime GPS offenders who have completed their parole are routed through the Michigan State Police for investigation and possible referral for a new felony warrant. The Department does not have any jurisdiction over Lifetime GPS offenders who have completed their parole. To balance public safety interests and available resources, parolees released from prison on or after January 8, 2007 whose current offense requires registration under the Sex Offender Registration Act shall be monitored on some form of electronic monitoring whenever practical. The Parole Board may waive GPS monitoring when medical and/or mental capacity issues make it impractical. GPS monitoring may also be used for select parolees as an intervention or sanction for non-compliance with the order for parole.

GPS electronic monitoring shall be used for prisoners granted parole for offenses listed below:

Conviction Charge	Technology/Length (Revised March 2, 2012)
CSC - 1st Degree	<p>If Lifetime GPS: GPS for life (current term and beyond).</p> <p>If not Lifetime GPS case:</p> <ul style="list-style-type: none"> - If any VASOR (or any other MDOC approved sex offender assessment tool) or COMPAS (Violence/Recidivism) score is HIGH or victim was a stranger or non-family member, GPS is required for their entire term. - If the offenders highest VASOR (or any other MDOC approved sex offender assessment tool) or COMPAS (Violence/Recidivism) score is MODERATE or LOW and the victim was a family member, GPS is only required for the first year. If the parolee is in compliance with supervision they shall be reduced to RF for the remainder of their parole term.
CSC - 2nd Degree	<p>If Lifetime GPS: GPS for life (current term and beyond).</p> <p>If not Lifetime GPS case: GPS for the first year. If the parolee is in compliance with supervision they shall be reduced to RF for the remainder of their parole term.</p>
CSC - 3rd Degree	GPS for the first year. If the parolee is in compliance with supervision they shall be reduced from GPS to RF for the remainder of their term.

Conviction Charge	Technology/Length (Revised March 2, 2012)
Requires Sex Offender Registration	GPS for a minimum of the first 6 months. If the parolee is in compliance with supervision they shall be reduced from GPS to RF for the remainder of their term.
Failure to Register as Sex Offender	GPS for a minimum of the first 6 months. If the parolee is in compliance with supervision they shall be reduced from GPS to RF for the remainder of their term.
Aggravated Stalking or serving any other sentence with a concurrent probation term for Aggravated Stalking	GPS for the entire term of parole.
Domestic Violence - Third Offense	GPS for the first six months for offenders whose parole date is on or after 2/17/12. For offenders who paroled prior to 2/17/12, RF for the first six months. Parolees convicted of Domestic Violence 3rd on or after 2/17/12 who are not returned to prison as a result of the conviction are required to be on GPS for six months after community supervision continues.
Parole Board Ordered to GPS	GPS for a minimum of the first 6 months. If the parolee is in compliance with supervision they shall be reduced from GPS to RF for a minimum of 6 additional months.

During 2012, there were 2,892 GPS activations and 3,208 terminations. Of the 3,208 terminations, 365 (11.4%) were for administrative reasons. For the remaining 2,843 terminations, 442 (15.5%) were a result of technical violations, 68 (2.4%) were a result of new sentence failures, 125 (4.4%) are currently absconders, and 2,208 (77.7%) were a result of

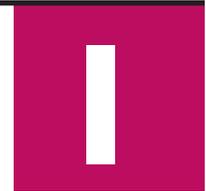

successful completion of GPS. Of the 442 terminations that were a result of technical violations, 138 were for uncharged criminal behavior, making up 31.2% of technical violations and 4.3% of all terminations.

The table below shows the 2012 end of month GPS populations.

Special Alternative Incarceration Program

This section describes offenders committed to the Special Alternative Incarceration Program (SAI). The program has evolved over the years, but its objectives continue to be ending criminal behavior by developing offender self-esteem and self-discipline, a sense of individual responsibility and a positive work ethic.

In 1988, SAI opened as a 90-day military ‘Boot Camp’ style program for male probationers, under the Department’s Field Operations Administration (FOA). The program was patterned after military basic training, involved physical fitness and programming (education, substance abuse awareness, basic life skills and counseling), with an optional component for residential placement in the community while on parole or probation

In 1992, the program was expanded to include females. The program was later expanded to also include prisoners serving a minimum sentence of 36 months or less.

In 2003, the program’s component for intensive parole or probation supervision in the community was replaced with regular community supervision.

In 2004, SAI transferred from FOA to the Department’s Correctional Facilities Administration (CFA), and was assigned to the Cooper Street Correctional Facility for administrative oversight.

In 2008, SAI was redesigned to adhere to the evidence-based practices of Prisoner Reentry. Most significant was dropping the old military-style, ‘boot camp’ setting. Under the ‘boot camp’ philosophy, trainees received a complete set of standard programs whether they had the need for the programs or not. As an In-Reach Facility under MPRI, each trainee receives individualized custom programming based on their needs, risks, and strengths as determined by a COMPAS assessment. In addition to programming changes, SAI also began accepting trainees who had selected mental health and medical histories which may have precluded admittance to SAI in previous years. Each trainee was assessed to determine his or her level of participation in the more physical portion of the program.

In 2010, a major change was including prisoners who were past their Earliest Release Date (ERD) to be referred by the Parole Board for SAI programming. These participants are referred to as Intensive Reentry trainees (IR). The Parole Board recommends prisoner placement in the IR program from the institutions to demonstrate an ability to conform and adjust to challenges presented to them. Prior to the implementation of this program, this population probably would not have received positive Parole Board action and would have remained in the prison for at least 12 more months.

While these prisoners do not fall under the jurisdiction of the SAI statute, since they are past their ERD, they are well served by the SAI program offerings and re-entry preparation.

In 2011, programming was increased for the female population at SAI by providing gender-responsive programming while still keeping the basic tenets of a boot camp. Trainees are still required to march in formation, participate in physical fitness training, if able, as well as compete in drill competitions. SAI continues the use the COMPAS assessment for programming but also added reviews of prior criminal histories and the Pre-Sentence investigation Report combined with a personal interview by programming staff. These changes have allowed us to meet the individual needs of each trainee.

Public Works assignments continue to be a main stay of programming at SAI. This allows trainees who meet screening requirements to go into the community under the supervision of a corporal and give back to the community through hard work.

Tables 11 and **12** show SAI prisoner and probationer intake by offense. **Table 13** reflects probationer intake by Field Operations Administration (FOA) region. **Tables 14** and **15** summarize SAI Phase I program performance. **Tables 16** and **17** summarizes SAI Phase I post-program outcome. Additional information about the SAI program (such as the offender eligibility criteria) is available in a separate annual report, Special Alternative to Incarceration Program.¹

Office of Community Corrections

This section provides data on the Office of Community Corrections (OCC).

OCC works with local units of government and criminal justice professionals to implement Michigan's Community Corrections Act, P.A. 511 of 1988. The purpose of the Act is to increase the range and utilization of community sanctions and services for non-violent offenders in order to reduce admissions to prison. The OCC implements program policies, guidelines and standards, and provides technical assistance to local units of government to develop and implement locally-developed comprehensive corrections plans. These plans outline criminal justice problems and how policies and practices and P.A. 511 funds will address them.

Local governments voluntarily participate in the implementation of the Act through forming Community Corrections Advisory Boards (CCABs) which have responsibilities for developing comprehensive corrections plans. The plans establish the framework for applications for funds. At various times since 1989, 80 of the 83 counties across the state have elected to participate in implementation of the Act through the formulation of single-county, multi-county and county-city Community Corrections Advisory Boards.

During Fiscal Year 2012, \$13,520,478 was awarded for community corrections plans and services to 73 counties, \$18,075,500 for probation residential services, and \$1,421,825 for the drunk driver jail reduction and community treatment program.

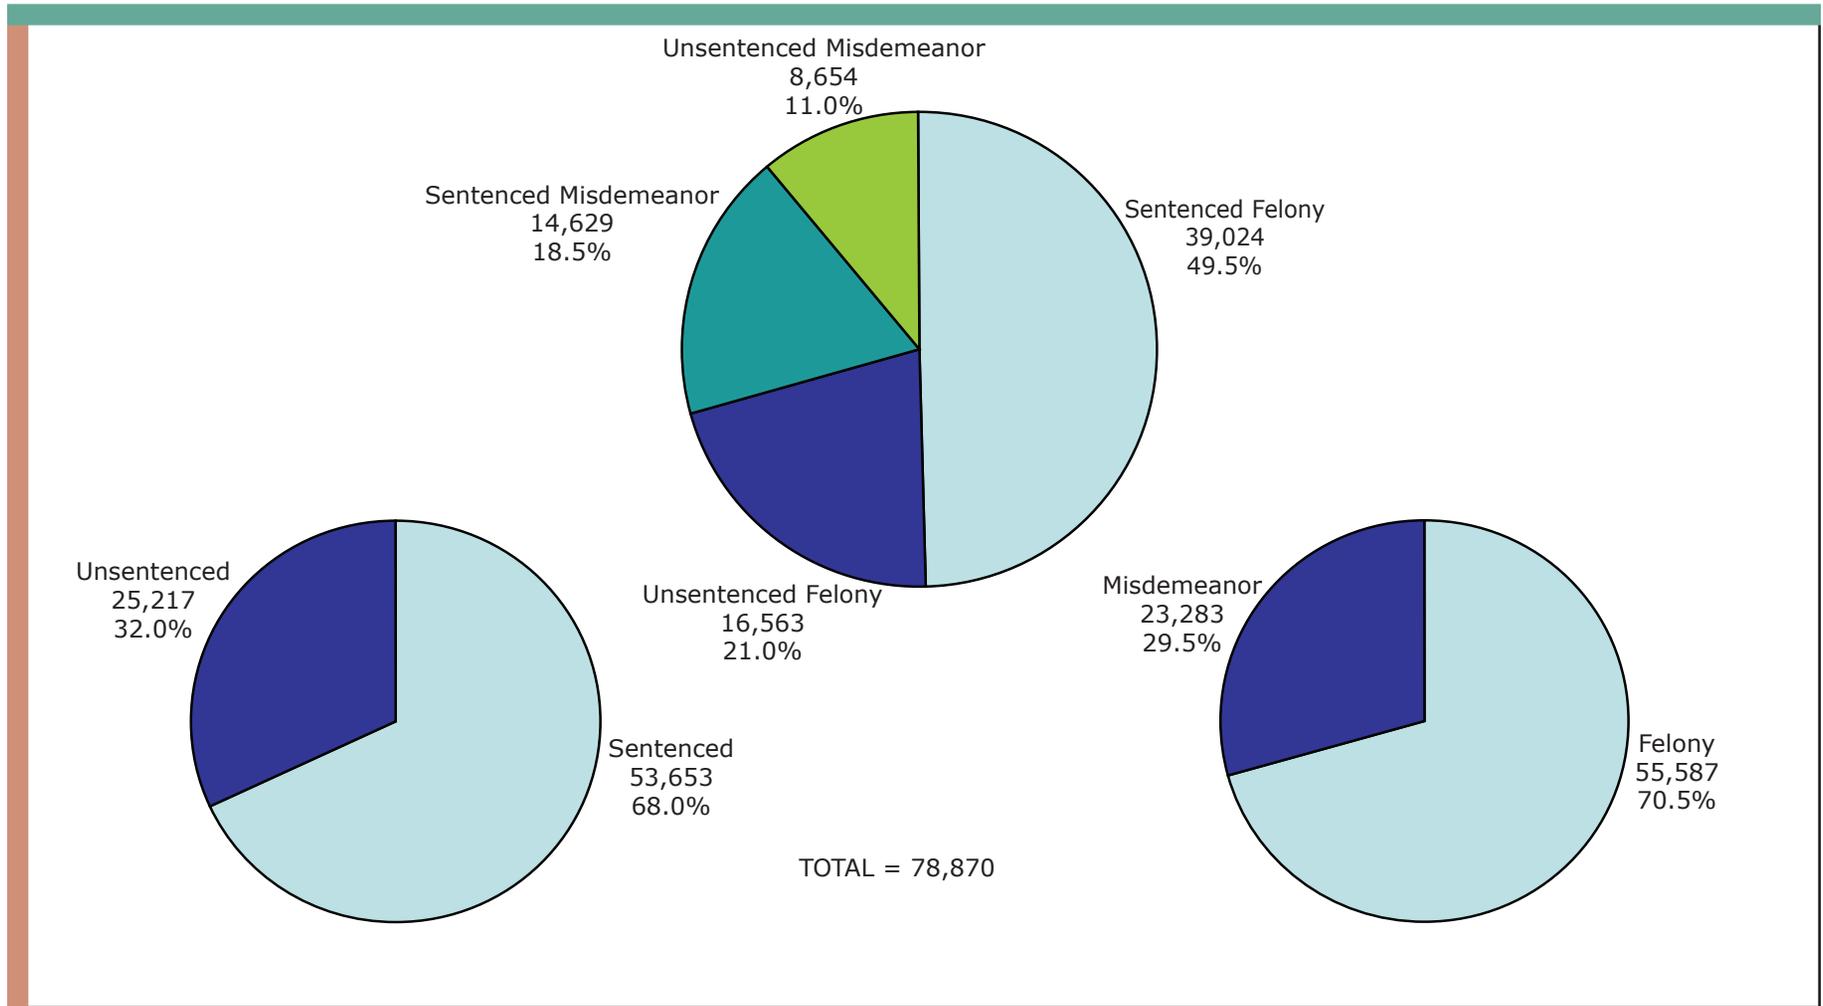

The number of new enrollees in community corrections programs during FY 2012 was 78,870. **Chart J1** shows the number of offenders determined eligible and enrolled in programs by crime class and legal status. **Chart J2** shows the award of comprehensive plans and services funds by program category. **Table J3** details the actual average daily population of probation residential services.
