2016 STATISTICAL REPORT

Rick Snyder, Governor

Heidi Washington, Director
Michigan Department of Corrections

September 5, 2017
(See next page for a list of revisions and releases.)

2016 STATISTICAL REPORT

INTRODUCTION

Since the 2000 edition of the MDOC Statistical Report, bound paper copies have no longer been produced and distributed. Instead, these annual statistical reports are published only on the official MDOC web site on the Internet. The MDOC home page web address is <http://www.michigan.gov/corrections>, and the Statistical Reports are located under the *News & Publications* link.

The crime breakdowns in the core tables of the first three sections of the report, regarding felony court dispositions, prison commitments and prison population, are sorted by offense code rather than by crime frequency or maximum term. Since the sort order keeps sequential offense codes together, similar crimes that have identical maximum penalties are not consolidated. This level of detail provides much richer information than in the past.

However, the additional detail also makes the crime tables much longer; the reader must be careful to watch for related offense codes when attempting to examine the data for a particular type of crime. For example, several separate offense codes now appear for the crime of first degree criminal sexual conduct (750.520B--) in each crime table, because each code represents a specific characteristic of the offense.

Summary narrative reflecting on the Department's observations about what the data show has again been kept to a minimum, as the Department now produces a separate Annual Report for that purpose.

Section Overview

This report is divided into ten major sections (A-J).

- **Section A, Court Dispositions**, contains data on statewide felony court dispositions broken down by offense, sentencing jurisdiction, and type of disposition.
- **Section B, Prison Commitments**, provides prison intake data by the number and characteristics of new prisoners received by the Department.
- **Section C, Prisoner Population**, presents descriptions of Michigan's Correctional Facilities and statistics regarding the characteristics of the prisoner population.
- **Section D, Parole Board**, summarizes data on offender movement to parole and Parole Board activity and decisions, and examines the parole outcomes.
- **Section E, Probation and Parole Supervision**, contains data and information regarding the community supervision programs and functions of the Department's Field Operations Administration (FOA).
- **Section F, Department Operations**, contains data and information about a variety of Department programs and administrative functions/operations. Section F contains the following subsections:
 - *Prisoner Program, Disciplinary and Litigation Statistics*
 - *Michigan State Industries*
 - *Bureau of Health Care Services*
 - *Department Expenditures and Personnel Summaries*
- **Section G, Prisoner Reentry**, was a new section in 2005 and reflects the development of the statewide initiative by several stakeholders, one of whom is MDOC. The first year that prisoners were paroled to the community under this initiative was in 2005.
- **Section H, Community Reentry Program and Electronic Monitoring**, brings the Residential Reentry Program and the Intensive Detention Reentry Program under the umbrella of Prisoner Reentry; along with Curfew, GPS, SCRAM and Remote Breath monitoring.
- **Section I, Special Alternative Incarceration Program (SAI)**, is administered by the Correctional Facilities Administration (CFA) with Cooper Street Correctional Facility serving administratively as the parent institution. SAI has been redesigned to operate under Prisoner Reentry principles.
- **Section J, Office of Community Corrections**, provides data regarding the utilization of community sanctions and services for non-violent offenders in order to reduce admissions to prison.

Court Dispositions

This section contains data on statewide felony court dispositions broken down by offense, sentencing county and type of disposition. Offenders may have committed multiple offenses that the felony courts handle as a single court disposition or sentencing event. Both offender-based data and offense-based data have distinct uses that are not interchangeable, therefore, offender-based data is presented in **A1 Series of Tables**, and offense-specific data is presented in **A2 Series of Tables**.

Tables A and **A1** through **A1c** aggregate multiple offenses and/or disposition (sentencing) dates into offenders. In other words, offenders with multiple offenses and/or multiple dispositions from the same sentencing county during the year were reported as follows:

- Offenses/Dispositions for the same offender that occurred on different days were reported as separate disposition events. (It is possible that these separate events were combination events, as discussed in the next bullet.)
- Offenses/Dispositions for the same offender that occurred on the same day were aggregated together into one disposition event using the following sequence in order to report the most severe details for the disposition:
 - The most severe disposition was reported (e.g., a disposition to prison was reported over a disposition to jail).
 - If the dispositions were of equal severity, then the disposition with the longest minimum term was reported.
 - If the dispositions and minimum terms were of equal severity, then the disposition with the longest maximum term was reported. (Minimum term is used as the first severity tie-breaker, since it represents the minimum penalty imposed by the judge based on the mitigating/aggravating facts of the offender's current criminal activity, whereas the maximum term represents the Legislature's statutory limitations on judicial discretion for the current criminal activity.)

The **A1 Series of Tables** are based on offenders, so multiple offenses/dispositions for the same offender are aggregated and reported per the above sequence.

Table A shows the statewide prison commitment rates of offenders for the current year and the previous ten years.

Table A1 shows the court dispositions of offenders broken down by disposition type and by sentencing county within each of the ten Field Operations Administration (FOA) regions and two FOA territories.

Tables A1a through **A1c** show the information in **Table A1** broken down by major crime categories (i.e., non-assaultive, drug and assaultive offenses).

The **A2 Series of Tables** are based on all offenses, so multiple offenses/dispositions for the same offender are reported individually by offense.

Table A2 shows the court dispositions of offenses broken down by disposition type and offense.

Tables A2a through **A2c** show the information in **Table A2** broken down by major crime categories (i.e., non-assaultive, drug and assaultive offenses).

The crimes in the **A2 Series of Tables** are sorted by Michigan Compiled Law (MCL) numbers and Prosecuting Attorney's Coordinating Council (PACC) codes (the sort order used since 1999). Since this sort order keeps related codes together, similar crimes that have identical maximum penalties are not consolidated. This level of detail provides much richer information, but the reader must be careful to watch for related codes when attempting to examine the frequency and disposition pattern for a particular type of crime. For example, several separate offense codes appear for the crime of first degree criminal sexual conduct (750.520B--) because each code represents a specific characteristic of the offense.

A Statewide Prison Commitment Rates

Calendar Years 2005 - 2016

Page 1 of 2

Year	Felony Dispositions (Offenders)	Felony Dispositions to Prison	Percent of Felony Dispositions to Prison
2005	56,155	11,761	20.9
2006	59,357	12,859	21.7
2007	60,177	12,480	20.7
2008	58,113	11,292	19.4

Prison Commitments

B

This section provides data on prison commitments and intake — the number and characteristics of prisoners receiving court commitments to the Department of Corrections (DOC).

The difference between commitments and intake is the exclusion of one category of commitments, called additional sentence imposed. Additional sentence imposed commitments are excluded from intake because rather than new offenders committed to the DOC, these are active prisoners who, while incarcerated receive an additional sentence, either because of a crime committed while incarcerated or because of later sentencing on a previously existing pending charge. Additional sentence imposed commitments do not represent additional prisoners but instead represent additional sentence time for known prisoners.

Tables B1a and **B1b** show prison intake, excluding additional sentence imposed commitments, which show the volume of new prisoners committed to the DOC. All of the other tables and charts in this section include the additional sentence imposed commitments and show characteristics of all court commitments to the DOC.

Tables B2 through **B2c** and **B3** report offenders with multiple sentences at the time of commitment as follows:

- The sentence with the longest minimum term was reported.
- If the minimum terms were of equal length, then the sentence with the longest maximum term was reported. (Minimum term is used as the first tie-breaker, since it represents the minimum penalty imposed by the judge based on the mitigating/aggravating facts of the offender’s current criminal activity, whereas the maximum term represents the Legislature’s statutory limitations on judicial discretion for the current criminal activity.)

Table B2 shows the prison commitments broken down by offense and minimum sentence. **Tables B2a** through **B2c** show the information in **Table B2** broken down by major crime categories (i.e., non-assaultive, drug and assaultive). **Table B3** shows female intake broken down by offense and minimum sentence.

The offenses in **Tables B2** through **B2c** and in **Table B3** are sorted by Michigan Compiled Law (MCL) numbers and Prosecuting Attorney’s Coordinating Council (PACC) codes (the sort order used since 1999). Since this sort order keeps sequential codes together, similar crimes are not consolidated. This level of detail provides much richer information, but the reader must be careful to watch for related codes when attempting to examine the prison intake frequency and minimum term distribution for a particular type of crime. For example, several separate offense codes now appear for the crime of first degree criminal sexual conduct (750.520B--) because each code represents a specific characteristic of the offense.

Tables B4a through **B7** summarize commitments to prison broken down by various other characteristics — including age, race, gender, commitment type, and major crime type.

B1a Annual Prison Intake

*Excluding Additional Sentence Imposed
Calendar Years 2002 - 2016*

Year	Prison Intake	Numerical Change	Percent Change
2002	11,050	1,440	15.0

NOTES: Be sure to check for related offense codes when examining a particular type of crime. They may or may not be in sequential order or even on the same page. Largest minimum term is reported. When minimum terms exceed maximum penalties, that may be due to anomalies in criminal justice practices, habitualized offenses, database errors, etc. Each minimum term category is rounded up from the preceding category (for example, the ten-year category includes all minimums longer than five years up to exactly ten years). Minimum term averages are based on raw data (with life sentences excluded from the calculations).

 Largest minimum term is reported.
 When minimum terms exceed maximum penalties, that may be due to anomalies in criminal justice practices, habitualized offenses, database errors, etc.
 Each minimum term category is rounded up from the preceding category (for example, the ten-year category includes all minimums longer than five years up to exactly ten years).
 Minimum term averages are based on raw data (with life sentences excluded from the calculations).

NOTES: Be sure to check for related offense codes when examining a particular type of crime. They may or may not be in sequential order or even on the same page.
 Largest minimum term is reported.
 When minimum terms exceed maximum penalties, that may be due to anomalies in criminal justice practices, habitualized offenses, database errors, etc.
 Each minimum term category is rounded up from the preceding category (for example, the ten-year category includes all minimums longer than five years up to exactly ten years).
 Minimum term averages are based on raw data (with life sentences excluded from the calculations).

NOTES: Be sure to check for related offense codes when examining a particular type of crime. They may or may not be in sequential order or even on the same page.
 Largest minimum term is reported.
 When minimum terms exceed maximum penalties, that may be due to anomalies in criminal justice practices, habitualized offenses, database errors, etc.
 Each minimum term category is rounded up from the preceding category (for example, the ten-year category includes all minimums longer than five years up to exactly ten years).
 Minimum term averages are based on raw data (with life sentences excluded from the calculations).

Prisoner Population

This section presents descriptions of Michigan’s Correctional facilities, and statistics regarding the characteristics of the prisoner population.

The **Map** on page C-2 shows the location of each Michigan prison, as well as a geographic breakdown of the Correctional Facilities Administration (CFA) regions. The map is followed by a description of each facility starting on page C-3.

Chart C shows a breakdown of the net operating capacity of the institutions by security level.

Table Ca shows the end-of-year institution population from 2002 through 2016.

Table Cb and **Cc** shows total prisoner population, prison commitments and Michigan census data from 1956 through 2016.

Beginning with **Table C1**, the total prisoner population is broken down by offense and minimum sentence. The total population includes prisoners housed in institutions, the SAI Prison program and the Intensive Reentry Program. **Tables C1a** through **C1c** reflect this information according to major crime categories (i.e., non-assaultive, drug and assaultive).

Table C2 reflects this same information for female prisoners, for all offenses.

The offenses in **Tables C1** and **C2** are sorted by Michigan Compiled Law (MCL) numbers and Prosecuting Attorney’s Coordinating Council (PACC) codes (the sort order used since 1999). Since this sort order keeps

sequential codes together, similar crimes that have identical maximum penalties are not consolidated. This level of detail provides much richer information, but the reader must be careful to watch for related codes when attempting to examine the prison population frequency and minimum term distribution for a particular type of crime. For example, several separate offense codes now appear for the crime of first degree criminal sexual conduct (750.520B--) because each code represents a specific characteristic of the offense.

Tables C3 through **C3b** summarize the 2016 total prisoner population broken down by age, race and location.

The movement of prisoners into and out of the institution population during 2016 is summarized in **Table C4**. To demonstrate the effect of prisoner movement on the size of the institutional population, the table reports only the movements onto and off of the institution count. In other words, the table ignores movement types that do not affect the total count (e.g., movements *between* institutions).

Table C5 shows the number of escapes from secure DOC custody from 2009 through 2016.

* Sentences with insufficient information = 9.

NOTES: Be sure to check for related offense codes when examining a particular type of crime. They may or may not be in sequential order or even on the same page. Largest minimum term is reported for prisoners with multiple offenses. When minimum terms exceed maximum penalties, that may be due to anomalies in criminal justice practices, habitualized offenses, database errors, etc. Each minimum term category is rounded up from the preceding category (for example, the ten-year category includes all minimums longer than five years up to exactly ten years). Minimum term averages are based on raw data (with life sentences excluded from the calculations). HYTA cases are included in the data.

NOTES: Be sure to check for related offense codes when examining a particular type of crime. They may or may not be in sequential order or even on the same page.
 Largest minimum term is reported for prisoners with multiple offenses.
 When minimum terms exceed maximum penalties, that may be due to anomalies in criminal justice practices, habitualized offenses, database errors, etc.
 Each minimum term category is rounded up from the preceding category (for example, the ten-year category includes all minimums longer than five years up to exactly ten years).
 Minimum term averages are based on raw data (with life sentences excluded from the calculations).
 HYTA cases are included in the data.

NOTES: Be sure to check for related offense codes when examining a particular type of crime. They may or may not be in sequential order or even on the same page. Largest minimum term is reported for prisoners with multiple offenses. When minimum terms exceed maximum penalties, that may be due to anomalies in criminal justice practices, habitualized offenses, database errors, etc. Each minimum term category is rounded up from the preceding category (for example, the ten-year category includes all minimums longer than five years up to exactly ten years). Minimum term averages are based on raw data (with life sentences excluded from the calculations). HYTA cases are included in the data.

NOTES: Be sure to check for related offense codes when examining a particular type of crime. They may or may not be in sequential order or even on the same page.
 Largest minimum term is reported for prisoners with multiple offenses.
 When minimum terms exceed maximum penalties, that may be due to anomalies in criminal justice practices, habitualized offenses, database errors, etc.
 Each minimum term category is rounded up from the preceding category (for example, the ten-year category includes all minimums longer than five years up to exactly ten years).
 Minimum term averages are based on raw data (with life sentences excluded from the calculations).
 HYTA cases are included in the data.

NOTES: Be sure to check for related offense codes when examining a particular type of crime. They may or may not be in sequential order or even on the same page. Largest minimum term is reported for prisoners with multiple offenses. When minimum terms exceed maximum penalties, that may be due to anomalies in criminal justice practices, habitualized offenses, database errors, etc. Each minimum term category is rounded up from the preceding category (for example, the ten-year category includes all minimums longer than five years up to exactly ten years). Minimum term averages are based on raw data (with life sentences excluded from the calculations). HYTA cases are included in the data.

2016 Prisoner Movement Summary Institutions Only

INTAKE

New Court Commitment.....	4,734
Probation Violator (Technical or New Sentence).....	2,245
Parole Violator New Sentence	1,105
Escaper New Sentence.....	0
TOTAL.....	8,084

EXITS

Movement to Parole.....	10,626
Release to Court on Writ	2,528
Return to Parole Status After Temporary Prison Return	0
Discharge from Sentence	648
Temporarily Housed at a County Jail	2
Death.....	111
Release to Mental Health Hospital or Criminal Justice Agency	3
Escape	1
TOTAL.....	13,919

RETURNS

Return from Court <i>without</i> Additional Sentence Imposed	1,290
Technical Parole Violator Return	1,956
Return from Court <i>with</i> Additional Sentence Imposed.....	1,003
Return from County Jail	2
Temporary Prison Return While on Parole Status.....	73
Return from Mental Health Hospital or Criminal Justice Agency	3
Return from Escape of MDOC Custody	2
TOTAL.....	4,329

2016 Institution Population Change - **1,506**
(INTAKE - EXIT + RETURN = POPULATION CHANGE)

NOTES: Includes institution and SAI-Prison movements.
Only movements affecting the total population count are shown (e.g., excludes movements between institutions and temporary movements to/from hospitals).

Parole Board

This section summarizes 2016 data on offender movement to parole, and Parole Board activity and decisions. It also examines the parole outcomes of offenders who paroled in 1998-2013.

Table-Chart D shows the total number of prisoner movements to parole each year from 2002 through 2016.

Table D1 compares 2016 Parole Board activity and decisions to that of the previous twenty years. **Table D1a** provides more detail regarding the 2016 activity of the Parole Board.

Table D3 in this report was the product of work to re-engineer the tracking of offender outcomes following parole. The new effort began with tracking outcomes for a standardized two years (shorter only in the event of return to prison as a failure). This has since been extended to a standardized follow-up period of three years to meet legislative reporting requirements – thus eliminating the D2 Table. The table shows outcomes for several annual parole release cohorts to enable comparisons over time.

Table D3 represents a change from what was reported on this subject in annual MDOC Statistical Reports prior to 2005; so further explanation is warranted. The genesis of Prisoner Reentry – discussed in Section G – required a re-engineering of the old parole outcomes analysis methodology. The past table format was based on very old computer programming that tracked outcomes only until the parole terms expired. So, there were no controls on time at risk of failure in the tables because parole terms ranged from as short as a couple of months for parole-to-max cases to as long as four years for paroled lifers, while the most common parole terms are 18 to 24 months. Outcomes subsequent to the expiration of the parole terms were not reflected in the data.

The old production analysis that was generated

by the data system for parole outcomes also provided only statewide results and could not be analyzed in greater depth than was present in the report tables. As Prisoner Reentry began to be planned and implemented, it quickly became apparent that a more robust method of outcome tracking would be needed. A bridge to the past would also be needed to enable new annual parole cohorts to be compared to older release years using a consistent methodology.

Calendar year 1998 was established as the baseline parole release year of the analysis for comparison with the outcomes of future annual parole cohorts. Calendar 1998 was selected as the baseline year because it was the most recent year that would provide a full four years of potential follow-up for an entire cohort year before the follow-up periods would reach into calendar year 2003 when the Prisoner Reentry initiative began.

As can be seen from the **D3 Table**, the current primary definition of failure continues to be return to prison as either a parole violator technical return or with a new sentence (although the latter can now occur after the parole term expired).

Table D3 also shows offenders who were on parole absconder status at the end of the follow-up period. While on absconder status, parolees are obviously not succeeding at that point; but it is also important to note that they are not automatically headed back to prison. The determining factor in the disposition of a parole absconder is an assessment of offender risk. When risk is determined to be low (such as when an absconder is still employed and generally following parole rules, but failed to report), then the parole agent may continue to work with the case and impose local sanctions, possibly increase supervision of the case, and engage the community in service delivery designed to intervene in the behavior that led to the abscond and enable the absconder to become a successful parolee.

D

¹Follow-up includes three years from parole for prisoners paroled to Michigan counties.

²On Abscond status after three years from parole.

³If a prisoner returned as a Technical Violator but also received a New Sentence within three years of parole without reparing, the case is counted only in the New Sentence column.

⁴Includes all new sentence commitments to prison within three years of release including cases discharged from parole.

⁵Return to Prison only includes cases that were returned on upheld Technical Violations or for a New Sentence within three years of release.

Probation and Parole Supervision

This section contains data and information regarding the supervision programs for probationers and parolees within the Department's Field Operations Administration (FOA).

FOA is responsible for the supervision of all adult felons on probation and parole. Selected parolees and probationers are also supervised on electronic monitoring.

Field operations are administered through 10 Regional offices (see the map on page E-2).

Table E1 shows the number of parolees returned to prison for technical violations and new sentences, broken down by gender and year. This table also shows the number of parole revocation hearings held each year.

Chart E2a presents a breakdown of Field Operations *personnel* by employee job classification.

Chart E2b shows funding for Field Operations for the past 10 years.

Chart E3a shows the distribution of investigations conducted, by type, and **Chart E3b** shows a breakdown of the average number of offenders supervised, by type.

Chart E4 displays the number of pre-sentence investigations conducted each year for the last ten years.

Chart E5 shows the average number of parolees, and **Chart E6** the average number of probationers under supervision for the last ten years.

E3a 2016 Field Operations Work Distribution

Investigations

¹ Pre-Sentence Investigations: In-depth analysis of the individual and circumstances of the offense.

² Special Investigations: Assignments completed at the request of the Governor, other states, the parole board, or the court.

³ Pre-Parole Investigations: Prior to inmate release, living arrangements and job placement are investigated.

⁴ Violations Investigations: Reports prepared following a parole or probation violation.

E3b 2016 Field Operations Work Distribution

Supervision: Average Number of Offenders Supervised

Supervision is the process in which parole or probation agents work with offenders who are under the jurisdiction of the Department of Corrections (parole) or the jurisdiction of the Courts (probation, Holmes Youthful Trainee, and delayed sentences). The case numbers in the chart represent the average number of cases under supervision during the year.

Department Operations

This section contains data and information about a variety of Departmental programs and administrative functions, operations and services.

There are four subsections:

- Prisoner Program, Disciplinary and Litigation Statistics
- Michigan State Industries
- Bureau of Health Care Services
- Department Expenditures and Personnel Summaries

Prisoner Program, Disciplinary and Litigation Statistics

Table F1 provides statistics regarding the faith preferences of the prisoner population.

Table F2 provides the number of prisoners enrolled in academic and vocational programs. The education statistical reporting format was revised in 2005. The year-to-date (YTD) completion figures represent cumulative totals for FY 2016, while the enrollment and waiting list figures are based on numbers from the fourth quarter of FY 2016 (July 2016 - September 2016).

Tables F3a - F3c provide enhancements to what in previous years was referred to as **Table F3**, 'Major Misconduct Statistics'. Effective November 1, 2010, policy changes were made to the prisoner disciplinary process, such that former major misconducts are now split in to Class I and Class II misconducts and the former minor misconducts are now Class III misconducts. While reconstructing the tables to separate Class I and Class II misconducts, a minor correction was made such that the actual location and date of the misconduct is the basis for the data instead of the location and date of the misconduct hearing.

Class I misconduct violations may result in a prisoner's placement in segregation or loss of sentence credits (for those still serving eligible sentences). Statute requires Class I misconducts be conducted by attorney hearing officers due to the potential for placement in segregation or loss of sentence credits resulting from a guilty finding. Class II and Class III misconducts are handled through an informal hearing process conducted by facility staff instead of attorney hearing officers. Under the new policy, any Class II misconduct may be elevated to a Class I by the reviewing officer prior to the hearing based on the seriousness of the charge. In addition, a hearing officer can find cause at a hearing to reduce a Class I or Class II misconduct to a Class II or Class III offense based on the evidence on the record.

Table F4 is a summary of the number of lawsuits filed against the Department, by category and year (2012 - 2016).

F1

2016 Total Prisoner Faith Preferences

Faith Preference	Number of Prisoners	Percent
Asatru/Odinism	546	1.33%
Atheism	70	0.17%
Buddhism	1,209	2.94%
Catholicism	3,820	9.29%
Hare Krishna	13	0.03%
Jehovah's Witnesses	681	1.65%
Judaism	584	1.42%
Morrish Science Temple	2,468	6.00%
Islam	2,137	5.20%
Nation of Islam	2,782	6.76%
Native American Traditional Ways	1,068	2.60%
Protestantism	17,842	43.39%
Scientology	57	0.14%
Seventh Day Adventist	457	1.11%
Wicca	370	0.90%
All Other Faiths/Religions	916	2.23%
No Preference	4,502	10.95%
Unknown Faith	1,600	3.89%
Total	41,122	100.00%

NOTE: Faith programming varies among the different facilities depending on population and classification levels.

¹ This table reproduces what in previous years was referred to as Table F3 (Major Misconduct Statistics). Table F3a includes all Class I's and Class II's - including all Class I's reduced to a Class II. As in previous years, Table F3a generally excludes Class III (Minor) Misconducts - except for Class I's and Class II's reduced to a Class III. It is important to note that due to 'reduced' charges, the totals in Tables F3b and F3c will not add up to the totals found in Table F3a.

NOTE: This information is reported based upon the date and location at which the misconduct occurred. Offenders currently serving HYTA sentences might be reported within the facility and overall total.

Michigan State Industries

Michigan State Industries (MSI), a division of The Office of Employment Readiness, provides prisoners of the Michigan Department of Corrections academic, career and technical education, along with workplace skills and training programs in order to acquire and maintain a job. MSI provides manufactured goods and services to State Agencies, Federal Government and 501(c)3 Non-Profit Organizations. The types of products and services include garments, dental, janitorial, printing, recycling, safety apparel, signage and much more.

Chart F5 is a 7 year history of total sales and net margin for MSI.

Table F6 provides a comparison of total sales and net margin from factory operations, broken down by individual factory and fiscal years (FY 2015 and FY 2016).

Table F7 shows the hourly pay schedule for prisoners employed in correctional industries.

F5 MSI Seven-Year History of Total Sales and Net Margin

FY 2010 - FY 2016

F7**2016 Correctional Industries Hourly Pay Schedule**

CLASS	Automatic Increases		
	Start	30-Day	60-Day
	A	B	C
2. Semi-Skilled	.35	.40	.45
3. Skilled	.50	.55	.60
4. Highly Skilled	.65	.70	.75
5. Specialist	.80	.85	.90

NOTE: There is no Class 1 pay grade. Prisoners start at 2A and receive automatic increases up to 3C.

Class 4 & 5 rates are not automatic increases. Each factory has a finite number of 4 & 5 positions. Prisoners bid on openings as they become available.

Merit increases have been eliminated. Anyone currently at a pay rate which exceeds the maximum rate for that classification will be frozen.

Bureau of Health Care Services

This section presents charts regarding the cost of health care services for prisoners. Services are provided by the Bureau of Health Care Services. The Bureau has two main goals:

- Provide cost-effective care.
- Provide quality care.

Charts F8 and F9 summarize the Department's prisoner health care costs.

- **Chart F8** is a table/graph combination showing costs per prisoner health care for FY 2007 through FY 2016. Prior to February 2011, F8 distinguishes between medical, dental and psychological services (MDPS) provided or controlled directly by the Department of Corrections versus mental health care costs provided directly by the Department of Community Health (DCH) for prisoners with serious mental illness. Effective February 2011, all mental health services are provided by the MDOC. For FY 2016, mental health expenditures are reflected in MDPS as the appropriations for clinical and mental health are combined.
- **Chart F9** shows a detailed breakdown of the trend of prisoner health care costs for FY 2007 through FY 2016 under direct control of the Department of Corrections.

F8 Health Care Expenditures Profile

FY 2007 - FY 2016

Fiscal Year	Average Population*	Annual Percent Change	Average Cost Per Prisoner			
			Medical, Dental, MDOC Psychological Services (MDPS)†	MDPS Annual Percent Change	Mental Health Services**†	Total
2007	51,397	1.6%	4,801	13.7%	1,107	5,908
2008	50,577	(1.6%)	4,849	1.0%	1,260	6,109
2009	48,435	(4.2%)	5,392	11.2%	1,265	6,657
2010	45,652	(5.8%)	5,460	1.3%	1,503	6,963
2011	44,262	(3.0%)	5,464	0.1%	1,454	6,918
2012	44,025	(0.5%)	5,303	(2.9%)	1,308	6,611
2013	44,423	0.9%	5,413	2.1%	1,400	6,813
2014	44,702	0.6%	5,258	(2.9%)	1,302	6,560
2015	44,475	(0.5%)	5,154	(2.0%)	1,330	6,484
2016	43,338	(2.6%)	7,576	47.0%	0	7,576

Total Average Cost Per Prisoner

* Based on Service Population. Service population includes Correctional Facilities and Reentry Centers.

** Mental health services provided to prisoners meeting Michigan's definitions of seriously mentally ill. Until February 2011, these services were provided by the Department of Community Health (DCH). Effective February 2011, these DCH employees have become MDOC employees and all mental health services are provided by the MDOC.

† For FY 2016, mental health expenditures are reflected in MDPS as appropriations for clinical and mental health are combined.

NOTE: Numbers in this table reflect a system of reporting expenditures in the year they were paid.

Sources: Correctional Facilities Administration, Bureau of Health Care Services

F9 Trend of Per Prisoner Health Care Expenditures Under Direct Control of MDOC FY 2007 - FY 2016

F - 15

* As of 2012, mental health services expenditures are under the direct control of the MDOC. Until February 2011, mental health services were provided by the Department of Community Health (DCH). Effective February 2011, these DCH employees have become MDOC employees and all mental health services are provided by the MDOC.

† For FY 2016, expenditures for mental health services are reflected in Medical, Dental, and Psychological Services (MDPS).

NOTE: Costs in this table reflect a system of reporting expenditures in the year they were paid. Hadix and DOJ Consent Decree funding transferred to various accounts. Sources: Correctional Facilities Administration, Bureau of Health Care Services

Department Operations

Department Expenditures and Personnel Summaries

This section summarizes how the Department spent its fiscal year 2016 appropriations and presents statistics regarding the Department's employees.

Table F11 shows spending broken down by facilities and other Departmental operations. **Table F11a** is a summary chart of Department spending by function.

The **Tables F12** and **F12a** present information about the number and characteristics of Department employees by location.

F11 Gross Expenditures and Encumbrances Excluding Capital Outlay

FY 2016

Community Reentry Program and Electronic Monitoring

The Community Reentry Program impacts prison admissions by intervening and diverting eligible parole violators who would otherwise be returned to prison. The following two programs fall under the Community Reentry Program:

- The Residential Reentry Program (RRP), which currently operates as two sites – the Lake County Residential Reentry Program (LCRRP) and the Detroit Reentry Center (DRC).
- The Intensive Detention Reentry Program (IDRP) which provides parole agents the opportunity to detain parolees with compliance problems before they become more serious parole violators. The IDRP currently operates at two sites - the Ingham County Jail IDRP and the Wayne County IDRP located within the DRC.

Electronic Monitoring allows for the monitoring and enforcement of curfews and other conditions of community supervision. Electronic Monitoring includes Curfew Monitoring, Global Position System (GPS) monitoring, Secure Continuous Remote Alcohol Monitoring (SCRAM) and Remote Breath:

- Curfew monitoring is an electronic monitoring program that allows the MDOC to verify the offender's compliance with a court or Parole Board ordered curfew. Curfew monitoring may be imposed as an initial condition of sentencing or release, or as a sanction for violation behavior. Curfew monitoring consists of three broad offender types: probationers, parolees, and contractual. Probationers and parolees are no longer divided by whether or not they participated in the Special Alternative Incarceration (SAI) program. The Electronic Monitoring Center also contracts to provide monitoring services for Community Electronic Monitoring (CEM) and for the Regional Detention Services System (RDSS).
- GPS monitoring allows for the tracking of offender movement in order to determine compliance with supervision plans. The Department only uses active GPS monitoring, which constantly monitors offender movements and provides agents

with dynamic alerts of boundary violations. Offenders monitored on GPS consist of parolees, probationers and specified sex offenders sentenced to lifetime GPS upon completion of a term of incarceration and subsequent parole.

- SCRAM provides 24/7 alcohol testing for probationers, parolees and CEM.
- Remote Breath is a handheld, portable breath alcohol device which includes automated facial recognition technology. It was not used by the Department prior to Septemeber 2015. The Remote Breath population includes parolees, probationers and CEM.

Table H1 shows the number of new Community Reentry Program participants by month and program site.

Table H2 shows the number of Community Reentry Program terminations by month and program site.

Table H3 shows the end of month populations by program site for the Community Reentry Program.

H4 New Curfew Monitoring Participants Monthly by Offender Type

Calendar Years 2015 and 2016

The table below breaks down the new Curfew Monitoring participants by month and offender type. This table is comparable to the 2014 H4 Table.

The Electronic Monitoring Center is staffed 24/7 year round. Monitored probationers and parolees are assigned to and supervised by field agents throughout the State, but all monitoring of the equipment, alert processing and notification, and inventory control is managed through the Monitoring Center. The Center handles all Law Enforcement Information

Network (LEIN) notification activity in the Department, due to their alert processing and notification responsibilities. The Center also contracts to provide monitoring services for Community Electronic Monitoring (CEM) and for the Regional Detention Services System (RDSS).

H5 Monthly Curfew Monitoring Terminations by Offender Type

Calendar Years 2015 and 2016

The table below shows the monthly curfew monitoring terminations by offender type. This table is comparable to the 2014 H5 Table.

The following are typical reasons for unsuccessful terminations on electronic monitoring:

- Substance abuse violation
- Curfew violation
- Tampering with tether device

- Abscond violation
- New felony
- Administrative termination, which occur when the offender is unable to continue for reasons beyond their control, such as, loss of home placement, hospitalized, or commitment to a treatment program.

H6 End of Month Curfew Monitoring Populations by Offender Type

Calendar Years 2015 and 2016

The monthly new Curfew Monitoring participants (Table H4) and monthly Curfew Monitoring terminations (Table H5) resulted in the end of month Curfew Monitoring populations shown in the table below. This table is comparable to the 2014 H6 Table.

The Electronic Monitoring Center is staffed 24/7 year round. Monitored probationers and parolees are assigned to and supervised by field agents throughout the State, but all monitoring of the equipment, alert processing and notification, and inventory control is managed through the

Monitoring Center. The Center handles all Law Enforcement Information Network (LEIN) notification activity in the Department, due to their alert processing and notification responsibilities. The Center also contracts to provide monitoring services for Community Electronic Monitoring (CEM) and for the Regional Detention Services System (RDSS).

H6a End of Month GPS Monitoring Populations by Offender Type

Calendar Years 2015 and 2016

The following table is an updated version of the former Table H7. The monthly new GPS Monitoring participants (Table H4a) and monthly GPS Monitoring terminations (Table H5a) resulted in the end of month GPS Monitoring populations shown in the table below.

The use of GPS monitoring allows for the tracking of offender movement in order to determine compliance with supervision plans. The Department only uses active GPS monitoring which constantly monitors

offender movements and provides agents with dynamic alerts of boundary violations. Offenders on GPS consist of parolees, probationers and specified sex offenders sentenced to lifetime GPS upon completion of a term of incarceration and subsequent parole.

H6b End of Month Population Totals by Monitoring Technology

Calendar Years 2015 and 2016

The monthly new participant totals (Table H4b) and monthly terminations totals (Table H5b) resulted in the end of month population totals shown in the table below.

SCRAM provides 24/7 alcohol testing for probationers, parolees and CEM.

Remote Breath is a handheld, portable breath alcohol device which includes automated facial recognition technology. It was not used by the Department prior to September 2015. The Remote Breath population includes parolees, probationers and CEM.

Special Alternative Incarceration Program

This section describes offenders committed to the Special Alternative Incarceration Program (SAI). The program has evolved over the years, but its objectives continue to be ending criminal behavior by developing offender self-esteem and self-discipline, a sense of individual responsibility and a positive work ethic.

In 1988, SAI opened as a 90-day military 'Boot Camp' style program for male probationers, under the Department's Field Operations Administration (FOA). The program was patterned after military basic training, involved physical fitness and programming (education, substance abuse awareness, basic life skills and counseling), with an optional component for residential placement in the community while on parole or probation

In 1992, the program was expanded to include females. The program was later expanded to also include prisoners serving a minimum sentence of 36 months or less.

In 2003, the program's component for intensive parole or probation supervision in the community was replaced with regular community supervision.

In 2004, SAI transferred from FOA to the Department's Correctional Facilities Administration (CFA), and was assigned to the Cooper Street Correctional Facility for administrative oversight.

In 2008, SAI was redesigned to adhere to the evidence-based practices of Prisoner Reentry. As an In-Reach Facility under Prisoner Reentry, each trainee receives individualized custom programming based on their needs, risks, and strengths as determined by a COMPAS assessment. In addition to programming changes, SAI also began accepting trainees who had selected mental health and medical histories which may have precluded admittance to SAI in previous years. Each trainee was assessed to determine his or her level of participation in the more physical portion of the program.

In 2010, a major change was including prisoners who were referred by the Parole Board for SAI programming. These participants are referred to

as Intensive Reentry/In Reach trainees (IR). The Parole Board recommends prisoner placement in the IR program from the institutions to demonstrate an ability to conform and adjust to challenges presented to them. Prior to the implementation of this program, this population probably would not have received positive Parole Board action and would have remained in the prison for at least 12 more months.

While these prisoners do not fall under the jurisdiction of the SAI statute, since they are near or past their ERD, they are well served by the SAI program offerings and reentry preparation.

In 2011, programming was increased for the female population at SAI by providing gender-responsive programming while still keeping the basic tenets of a boot camp. Trainees are still required to march in formation, participate in physical fitness training, if able, as well as compete in drill competitions. SAI continues the use of the COMPAS assessment for programming but also added reviews of prior criminal histories and the Pre-Sentence Investigation Report, combined with a personal interview by programming staff. These changes have allowed us to meet the individual needs of each trainee.

In 2014, all female SAI and IR prisoners were relocated to Huron Valley Women's Correctional Facility.

Public Works assignments continue to be a main stay of programming at SAI. This allows trainees who meet screening requirements to go into the community under the supervision of a corporal and give back to the community through hard work.

Tables I1 and **I2** show SAI prisoner and probationer intake by offense. **Table I3** reflects probationer intake by Field Operations Administration (FOA) region. **Tables I4** and **I5** summarize SAI Phase I program performance. **Tables I6** and **I7** summarizes SAI Phase I post-program outcome. Additional information about the SAI program (such as the offender eligibility criteria) is available in a separate annual report, Special Alternative to Incarceration Program. *

* The report is available online at <http://www.michigan.gov/corrections>. Click on "News & Publications," and then click on "Legislative Reports" and finally, click on the PDF entitled "Special Alternative Incarceration - A PR In-Reach Facility"

Office of Community Corrections

This section provides data on the Office of Community Corrections (OCC).

OCC works with local units of government and criminal justice professionals to implement Michigan's Community Corrections Act, P.A. 511 of 1988. The purpose of the Act is to increase the range and utilization of community sanctions and services for non-violent offenders in order to reduce admissions to prison. The OCC implements program policies, guidelines and standards, and provides technical assistance to local units of government to develop and implement locally-developed comprehensive corrections plans. These plans outline criminal justice problems and how policies and practices and P.A. 511 funds will address them.

Local governments voluntarily participate in the implementation of the Act through forming Community Corrections Advisory Boards (CCABs) which have responsibilities for developing comprehensive corrections plans. The plans establish the framework for applications for funds. At various times since 1989, 80 of the 83 counties across the state have elected to participate in implementation of the Act through the formulation of single-county, multi-county and county-city Community Corrections Advisory Boards.

During Fiscal Year 2016, \$12,158,000 was awarded for community corrections plans and services to 61 counties, \$15,055,000 for probation residential services, and \$1,055,404 for the drunk driver jail reduction and community treatment program.

The number of new enrollees in community corrections programs during FY 2016 was 66,847. **Chart J1** shows the number of offenders determined eligible and enrolled in programs by crime class and legal status. **Chart J2** shows the award of comprehensive plans and services funds by program category. **Table J3** details the actual average daily population of probation residential services.
