

Sidewalk Chalk

With this recipe you can create any size, color, and shape of sidewalk chalk imaginable.

WHAT YOU WILL NEED

1/3 cup quick setting plaster of Paris

1 Tbs powdered Tempura paint

3 Tbs water

Plastic cookie cutters, candy mold, or toilet paper rolls.

HOW TO MAKE IT

1. Mix plaster, powdered tempura paint, and water together in a small bowl until blended
2. Quickly spoon the mixture into a cookie cutter, candy mold, or toilet paper tube with one end duct taped closed.
3. Let the chalk dry 30-45 minutes.
4. Carefully pop the chalk out of the cookie cutter or candy mold. If you used a toilet paper tube peel the tube a way from the stick of chalk.

PROJECT TIPS & IDEAS

- ❖ You can create sidewalk chalk in a wide assortment of shapes by using plastic molds such as ice cube trays and paper cups. Use your imagination for the mold shapes.
- ❖ Try adding 1 tsp of glitter to the plaster before adding water to make your chalk sparkle.
- ❖ You can make rainbow colors by putting several thin layers of mix in the mold.
