(c) The State may also conduct its own reviews to assess accessibility and compliance with the State's Digital Accessibility Standards and Contractor must remediate all issues resulting from any such review in a manner and timeframe agreed upon by the parties in writing.

3. Contractor Responsibilities. Contractor is responsible for establishing and maintaining a data privacy and information security program, including physical, technical, administrative, and organizational safeguards, that is designed to:

- (a) ensure the security and confidentiality of the State Data;

The State reserves the right to terminate Contractor's and/or subcontractor(s) or any Contractor Personnel's access to State Systems if the State determines a violation has occurred.

5. Protection of State's Information. Throughout the Term and at all times in connection with its actual or required performance of the Services, Contractor will:

5.1 If Hosted Services are provided by a Hosting Provider, ensure each Hosting Provider maintains FedRAMP authorization for all Hosted Services environments throughout the Term, and in the event a Hosting Provider is unable to maintain FedRAMP authorization, the State, at its sole discretion, may either a) require the Contractor to move the Software and State Data to an alternative Hosting Provider selected and approved by the State at Contractor's sole cost and expense without any increase in Fees, or b) immediately terminate this Contract for cause;

5.2 for Hosted Services provided by the Contractor, maintain either a FedRAMP authorization or an annual SSAE 18 SOC 2 Type II audit based on State required NIST Special Publication 800-53 MOD Controls using identified controls and minimum values as established in applicable State PSPs;

5.3 ensure that the Software and State Data is securely stored, hosted, supported, administered, accessed, backed up in the United States, its territories or Canada;

Amount for Failing to Meet the Service Level Agreements	The following credits per occurrence will be assessed for any identified contract deficiency addressed in a Corrective Action Plan that is recurring or unresolved after the second attempt to resolve. Occurrence 1 Amount: \$250.00 Additional service credits may be assessed for each additional occurrence: Occurrence 2 Amount: \$500.00 Occurrence 3 Amount: \$750.00 Extenuating circumstances will be reviewed by the MDOC Contract Manager in good faith before any Service Credits are assessed. SCHEDULE G

Terms for Hardware

1. **Definitions.** All capitalized terms in this Schedule that are not defined herein shall have the respective meanings given to them in the Contract Terms.
 - a. **"Agency"** means the State.
 - b. **"Hardware"** or **"Devices"** means all hardware or other equipment that Contractor is required to or otherwise does provide to the State under this Contract and otherwise in connection with any Services, including but not limited to all cameras, docks, mounting units, camera data storage and other accessories, IT hardware, and all items identified as equipment or hardware in the applicable Statement of Work.
2. **Hardware.** Contractor must provide fully functioning Hardware that conforms to the Documentation and the requirements of this Contract, including but not limited to integrating with the Software. All Hardware must be new, and not refurbished.
3. **Delivery and Shipping.** Contractor must deliver the Hardware F.O.B. destination, to the locations designated by the State and within the State premises with all shipping, transportation, handling, and insurance charges paid by Contractor. All containers and packaging become the State's exclusive property upon Acceptance. Contractor is responsible for all shipping costs, including the costs of packaging, shipping, transportation, delivery and insurance, to ship defective Hardware back to Contractor, and the costs of shipping replacement Hardware to the State.
4. **Acceptance.** All Hardware is subject to inspection and testing by the State within 10 business days of the State's receipt ("**State Review Period**"), unless otherwise provided in the applicable Statement of Work. Hardware will either be: (a) accepted in writing by the State's Program Manager or (b) deemed accepted if the State does not notify Axon of partial or full rejection within the 10-business day timeframe. ("**Accept**" or "**Accepted**" or "**Acceptance**"). If the Hardware is not fully Accepted by the State, the State will notify Contractor by the end of the State Review Period that either: (a) the Hardware is Accepted, but noted deficiencies must be corrected; or (b) the Hardware is rejected ("**Reject**" or "**Rejected**" or "**Rejection**"). If the State finds material deficiencies, it may; (i) Reject the Hardware without performing any further inspections; (ii) demand performance at no additional cost; or (iii) terminate this Contract.

Within 10 business days from the date of Contractor's receipt of notification of Acceptance with deficiencies or Rejection of any Hardware, Contractor must cure, at no additional cost, the deficiency and deliver unequivocally acceptable Hardware to the State. If Acceptance with deficiencies or Rejection of the Hardware impacts the content or delivery of other non-completed Hardware, the parties' respective Program Managers must determine an agreed to number of days for re-submission that minimizes the overall impact to the Contract. However, nothing herein affects, alters, or relieves Contractor of its obligations to correct deficiencies in accordance with the time response standards set forth in this Contract.

If Contractor is unable or refuses to correct the deficiency, within the time response standards set forth in this Contract, the State may cancel the relevant order in whole or in part. If the State so cancels or terminates the relevant order, Contractor must refund to the State all

sums previously paid to Contractor for the Hardware under such order, including any sums paid for related products or services such as a related TAP Warranty, within ten (10) Business Days of the State's written notice of termination, and the State will be relieved of all obligations thereunder.

Defects found after the 10-day rejection period will be managed via the warranty and support processes.

5. **Risk of Loss and Title.** Until final Acceptance, title, risk of loss or damage remains with Contractor. Contractor is responsible for filing, processing, and collecting all damage claims. The State will record and report to Contractor any evidence of visible damage. If the State Rejects the Hardware, Contractor will be responsible for any cost incurred by the State in removing the Rejected Hardware from the premises within 10 days after notification of Rejection. The risk of loss of Rejected or non-confirming Hardware remains with Contractor. Contractor must reimburse the State for costs and expenses incurred in storing or effecting removal or disposition of Rejected Hardware. Title passes to the State upon final Acceptance of the Hardware.
6. **Documentation.** Contractor must provide to the State all end-user documentation for the Hardware. The documentation, at a minimum, must include all the documentation available to consumers from the manufacturer of the Hardware about the technical specifications of the Hardware, installation, procedure requirements, and operating instructions, as well as details about the software programs with which the Hardware functions.
7. **Support for Hardware.** Contractor will provide maintenance and support of the Hardware in accordance with the requirements set forth in this Schedule. Contractor will:
 - a. Provide unlimited telephone support. Live phone support will be available Monday – Thursday, 6:00AM – 12:00AM (Arizona Time), Friday; 6:00AM – 12:00AM and Sunday, 4:00PM – 12:00AM. Critical Incident/Emergency assistance will be available 24/7. For technical or Customer Service assistance, you may contract a customer service representative at 800-978-2737 , or via email at support@axon.com.
 - b. Provide unlimited online support 24 hours a day, seven days a week.
 - c. Provide online access to technical support bulletins and other user support information and forums, to the full extent Contractor makes such resources available to its other customers.
 - d. Respond to and resolve all support requests.
8. Contractor will provide the TAP extended warranty described in the Technology Assurance Plan Appendix incorporated below. All replaced Hardware is subject to Acceptance testing in Section 4 above.

Appendix to Schedule G

Technology Assurance Plan Appendix

This Technology Assurance Plan (“**TAP**”) Appendix is hereby incorporated in the Contract. All capitalized terms in this Appendix that are not defined herein shall have the respective meanings given to them in the Contract.

1. **TAP Warranty**. The TAP warranty is an extended warranty that starts at the end of the 1-year Hardware Limited Warranty and extends throughout the Term of this Contract (“TAP Warranty Term”).
 - 1.1 **TAP Warranty**. Throughout the TAP Warranty Term, Axon will repair or replace a Device that is not functioning for any reason except for damage related to: (a) failure to follow Axon Device use instructions; (b) Devices used with equipment not manufactured or recommended by Axon (unless Axon provided written permission); (c) abuse, misuse, or intentional damage to Device; (d) force majeure; (e) Devices repaired or modified by persons other than Axon without Axon’s written permission; or (f) Devices with a defaced or removed serial number.
 - 1.2 If Axon receives a warranty claim for an Axon manufactured Device during the TAP Warranty Term, Axon’s sole responsibility is to repair or replace the Device with the same or like Device, at Axon’s option and expense. Unless the State otherwise agrees in writing, a replacement Axon Device will be new and will be at least the same or equivalent version. Axon will warrant the replacement Axon Device for the TAP Warranty Term. If Agency exchanges a device or part, upon the State’s Acceptance of the replacement Device, the replacement item becomes Agency’s property, and the replaced item becomes Axon’s property. Before delivering an Axon Device for service, Agency must upload Axon Device data to Axon Evidence or download it and retain a copy. Axon is not responsible for any loss of software, data, or other information contained in storage media or any part of the Axon Device sent to Axon for service.
2. **Officer Safety Plan**. The State is not purchasing an Officer Safety Plan (“**OSP**”).
3. **OSP 7 Term**. State is not purchasing an Officer Safety Plan (“**OSP**”).
4. **TAP BWC Upgrade**. If Agency has no outstanding undisputed payment obligations, Axon will provide Agency a new Axon body-worn camera (“**BWC Upgrade**”) as scheduled in the Quote for Axon Body Worn Cameras and TAP attached to Change Notice 1. Axon will provide a BWC Upgrade that is the same or like Device, at Axon’s option, and such BWC Upgrade will be new and will be the newest model Axon has available. Axon makes no guarantee the BWC Upgrade will utilize the same accessories or Axon Dock. Pursuant to Section 5 of this Appendix, Agency will be eligible for Axon Dock upgrades.
5. **TAP Dock Upgrade**. If Agency has no outstanding undisputed payment obligations, Axon will provide Agency a new Axon Dock as scheduled in the Quote (“**Dock Upgrade**”). Accessories associated with any Dock Upgrades are subject to change at Axon discretion. Dock Upgrades will only include a new Axon Dock bay configuration unless a new Axon Dock core is required for BWC compatibility. If Agency originally purchased a single-bay Axon Dock, the Dock Upgrade will be a single-bay Axon Dock model that is the same or like Device, at Axon’s option. If Agency originally purchased a multi-bay Axon Dock, the Dock Upgrade will be a multi-bay Axon Dock that is the same or like Device, at Axon’s option. Notwithstanding the foregoing, Axon will ensure that any Dock Upgrade is new, will be a version that is the newest model Axon has available, and that any Dock Upgrade will function with the BWC Upgrade the State is receiving pursuant to Section 4.

- 6 **Upgrade Delay.** Axon may not ship the BWC and Dock Upgrades without prior confirmation from the State Program Manager.
- 7 **Upgrade Change.** If Agency wants to change Device models for the offered BWC or Dock Upgrade, Agency must pay the price difference between the MSRP for the offered BWC or Dock Upgrade and the MSRP for the model desired. If the model Agency desires has an MSRP less than the MSRP of the offered BWC Upgrade or Dock Upgrade, Axon will not provide a refund. The MSRP is the MSRP in effect at the time of the upgrade.
- 8 **Return of Original Device.** Within 30 days of receiving a BWC or Dock Upgrade, Agency must return the original Devices to Axon or destroy the Devices and provide a certificate of destruction to Axon including serial numbers for the destroyed Devices. If Agency does not return or destroy the Devices, Axon will deactivate the serial numbers for the Devices received by Agency.
- 9 **Termination.**
 - 9.1 **Termination for Axon's Breach:** If Agency terminates this Agreement due to Axon's uncured breach, Agency will retain title to Axon body worn cameras, Axon Docks, and other Devices and accessories that are in its possession. In the event the State is owed a BWC Upgrade or Dock Upgrade pursuant to Sections 4 and 5, Axon will provide such upgrades to Agency. In the event Agency has paid amounts towards a future BWC Upgrade or Dock Upgrade but is not owed a BWC Upgrade or Dock Upgrade, Axon will return any prepaid but unearned fees.
 - 9.2 **Termination for Non-Appropriation:** If Agency terminates this Agreement due to non-appropriation of funding, TAP coverage will terminate as of the date of termination and no refunds will be given. Axon will not and has no obligation to provide the Upgrade Models after the date of termination. Agency will retain title to the Axon body worn cameras, Axon Docks, and other Devices and accessories that are in its possession.
 - 9.3 **Termination for Convenience:** If Agency terminates this Agreement for convenience, TAP coverage will terminate as of the date of termination and no refunds will be given. Axon will not and has no obligation to provide the Upgrade Models after the date of termination. Agency will retain title to the Axon body worn cameras, Axon Docks, and other Devices and accessories that are in its possession.

The Michigan Department of Natural Resources Law Enforcement Division (DNR-LED) was founded in 1887 and is Michigan's oldest statewide law enforcement agency. The Division has multiple responsibilities while playing a primary and vital role in safeguarding Michigan's vast array of natural resources for current and future generations. Our Law Enforcement Division team consists of highly dedicated sworn officers and civilians who strive to protect our citizens and our natural resources.

3. PURPOSE

Today's process and tools to collect and manage digital evidence are cumbersome and outdated often relying on multiple devices used by officers to record and manage digital evidence. Currently DNR-LED does not use body cameras and only 4 LED patrol vehicles have vehicle cameras all other tools to collect digital evidence are voice recorders and hand-held cameras. As of August 2017, all sworn officers were issued Apple iPhone 6's with data plans from either Verizon or AT&T based on the officer's preference regarding coverage in their area. The DNR-LED wishes to procure new tools to collect, store and manage digital evidence and also capitalize on the investment made by the Department to have a downloadable mobile app loaded on the officers' smart phones to capture digital evidence in the field specifically; pictures, videos & voice recordings. A Digital Evidence Management System (DEMS) web-based cloud back-end application is needed to store and manage the data.

The Contractor Project Manager will be responsible for maintaining an MS Project schedule (or State approved alternative) identifying tasks, durations, forecasted dates and resources – both Contractor and State - required to meet the timeframes as agreed to by both parties.

Changes to scope, schedule or cost must be addressed through a formal change request process with the State and the Contractor to ensure understanding, agreement and approval of authorized parties to the change and clearly identify the impact to the overall project.

SUITE Documentation

In managing its obligation to meet the above milestones and deliverables, the Contractor is required to utilize the applicable [State Unified Information Technology Environment \(SUITE\)](#) methodologies, or an equivalent methodology proposed by the Contractor and approved by the State.

SUITE's primary goal is the delivery of on-time, on-budget, quality systems that meet expectations. SUITE is based on industry best practices, including those identified in the Project Management Institute's PMBoK and the Capability Maturity Model Integration for Development. It was designed and implemented to standardize methodologies, processes, procedures, training, and tools for project management and systems development lifecycle management. It offers guidance for efficient, effective improvement across multiple process disciplines in the organization, improvements to best practices incorporated from earlier models, and a common, integrated vision of improvement for all project and system related elements.

While applying the SUITE framework through its methodologies is required, SUITE was not designed to add layers of complexity to project execution. There will be no additional costs from the Contractor, since it is expected that they are already following industry best practices which are at least similar to those that form SUITE's foundation.

SUITE's companion templates are used to document project progress or deliverables. In some cases, Contractors may have in place their own set of templates for similar use. Because SUITE can be tailored to fit specific projects the State Project Manager may decide to use the Contractor's provided templates, as long as they demonstrate fulfillment of the SUITE methodologies.

The State reserves the right to give final approval of substituted documents and items marked as non-applicable by Contractor.

(b) Response and Resolution Time Service Levels. Response and Resolution times will be measured from the time Contractor receives a Support Request until the respective times Contractor has (i) responded to, in the case of response time and (ii) Resolved such Support Request, in the case of Resolution time. **“Resolve”** (including **“Resolved”**, **“Resolution”** and correlative capitalized terms) means that, as to any Service Error, Contractor has provided the State the corresponding Service Error correction and the State has confirmed such correction and its acceptance thereof. High Service Error	One (1) hour	Four (4) hours
Medium Service Error	Three (3) hours	Two (2) Business Days
Low Service Error	Three (3) hours	Five (5) Business Days

(c) Escalation. (d) Corrective Action Plan. If two or more Critical Service Errors occur in any thirty (30) day period during (a) the Term or (b) any additional periods during which Contractor does or is required to perform any Hosted Services, Contractor will promptly investigate the root causes of these Service Errors and provide to the State within five (5) Business Days of its receipt of notice of the second such Support Request an analysis of such root causes and a proposed written corrective action plan for the State’s review, comment and approval, which, subject to and upon the State’s written approval, shall be a part of, and by this reference is incorporated in, the Contract as the parties’ corrective action plan (the **“Corrective Action Plan”**). The Corrective Action Plan must include, at a minimum: (a) Contractor’s commitment to the State to devote the appropriate time, skilled personnel, systems support and equipment and other resources necessary to Resolve and prevent any further occurrences of the Service

Errors giving rise to such Support Requests; (b) a strategy for developing any programming, software updates, fixes, patches, etc. necessary to remedy, and prevent any further occurrences of, such Service Errors; and (c) time frames for implementing the Corrective Action Plan. There will be no additional charge for Contractor's preparation or implementation of the Corrective Action Plan in the time frames and manner set forth therein.

6.1 Force Majeure Events. Subject to **Section 6.3**, neither party will be liable or responsible to the other party, or be deemed to have defaulted under or breached the Contract, for any failure or delay in fulfilling or performing any term hereof, when and to the extent such failure or delay is caused by: acts of God, flood, fire or explosion, war, terrorism, invasion, riot or other civil unrest, embargoes or blockades in effect on or after the date of the Contract, national or regional emergency, or any passage of law or governmental order, rule, regulation or direction, or any action taken by a governmental or public authority, including imposing an embargo, export or import restriction, quota or other restriction or prohibition (each of the foregoing, a "**Force Majeure Event**"), in each case provided that: (a) such event is outside the reasonable control of the affected party; (b) the affected party gives prompt written notice to the other party, stating the period of time the occurrence is expected to continue; (c) the affected party uses diligent efforts to end the failure or delay and minimize the effects of such Force Majeure Event.

6.2 State Performance; Termination. In the event of a Force Majeure Event affecting Contractor's performance under the Contract, the State may suspend its performance hereunder until such time as Contractor resumes performance. The State may terminate the Contract by written notice to Contractor if a Force Majeure Event affecting Contractor's performance hereunder continues substantially uninterrupted for a period of five (5) Business Days or more. Unless the State terminates the Contract pursuant to the preceding sentence, any date specifically designated for Contractor's performance under the Contract will automatically be extended for a period up to the duration of the Force Majeure Event.

6.3 Exclusions; Non-suspended Obligations. Notwithstanding the foregoing or any other provisions of the Contract or this Schedule:

- (a) in no event will any of the following be considered a Force Majeure Event:
 - (i) shutdowns, disruptions or malfunctions of Contractor Systems or any of Contractor's telecommunication or internet services other than as a result of general and widespread internet or telecommunications failures that are not limited to the Contractor Systems; or
