Notwithstanding the foregoing, the State may retain control of the defense and settlement of a claim by written notice to Contractor given within ten (10) days after the State's receipt of Contractor's information requested by the State pursuant to clause (ii) of this paragraph if the State determines that Contractor has failed to demonstrate to the reasonable satisfaction of the State Contractor's financial ability to carry out its defense and indemnity obligations under this Section. Any litigation activity on behalf of the State of Michigan, or any of its subdivisions pursuant to this Section, must be coordinated with the Department of Attorney General.

In the event the insurer's attorney represents the State pursuant to this Section, the insurer's attorney may be required to be designated as a Special Assistant Attorney General by the Attorney General of the State of Michigan.

- (c) If Contractor does not deliver a Notice of Election relating to any claim of which it is notified by the State as provided above, the State shall have the right to defend the claim in such manner as it may deem appropriate, at the cost and expense of Contractor. If it is determined that the claim was one against which Contractor was required to indemnify the State, upon request of the State, Contractor shall promptly reimburse the State for all such reasonable costs and expenses.

Except as set forth herein, neither the Contractor nor the State shall be liable to the other party for indirect or consequential damages, even if such party has been advised of the possibility of such damages. **2.6 Breach of Contract****2.601 BREACH DEFINED**

Failure to comply with articles, sections, or subsections of this agreement, or making any false statement in this agreement will be considered a material breach of this agreement giving the state authority to invoke any and all remedies available to it under this agreement.

In addition to any remedies available in law and by the terms of this contract, if the Contractor breaches Sections 2.508, 2.509, or 2.510, such a breach may be considered as a default in the performance of a material obligation of this contract.

In the event of a curable breach by the Contractor, the State shall provide the Contractor written notice of the breach and a time period to cure said breach described in the notice. This section requiring notice and an opportunity to cure shall not be applicable in the event of successive or repeated breaches of the same nature or if the State determines in its sole discretion that the breach poses a serious and imminent threat to the health or safety of any person or the imminent loss, damage or destruction of any real or tangible personal property.

2.603 EXCUSABLE FAILURE

1. Neither party shall be liable for any default or delay in the performance of its obligations under the Contract if and to the extent such default or delay is caused, directly or indirectly, by: fire, flood, earthquake, elements of nature or acts of God; riots, civil disorders, rebellions or revolutions in any country; the failure of the other party to perform its material responsibilities under the Contract (either itself or through another contractor); injunctions (provided the injunction was not issued as a result of any fault or negligence of the party seeking to have its default or delay excused); or any other cause beyond the reasonable control of such party; provided the non-performing party and its subcontractors are without fault in causing such default or delay, and such default or delay could not have been prevented by reasonable precautions and cannot reasonably be circumvented by the non-performing party through the use of alternate sources, workaround plans or other means, including disaster recovery plans. In such event, the non-performing party will be excused from any further performance or observance of the obligation(s) so affected for as long as such circumstances prevail and such party continues to use its best efforts to recommence performance or observance whenever and to whatever extent possible without delay provided such party promptly notifies the other party in writing of the inception of the excusable failure occurrence, and also of its abatement or cessation.
2. If any of the above enumerated circumstances substantially prevent, hinder, or delay performance of the services necessary for the performance of the State's functions for more than 14 consecutive days, and the State determines that performance is not likely to be resumed within a period of time that is satisfactory to the State in its reasonable discretion, then at the State's option: (a) the State may procure the affected services from an alternate source, and the State shall not be liable for payments for the unperformed services under the Contract for so long as the delay in performance shall continue; (b) the State may cancel any portions of the Contract so affected and the charges payable hereunder shall be equitably adjusted to reflect those services canceled; or (c) the Contract will be canceled without liability of the State to the Contractor as of the date specified by the State in a written notice of cancellation to the Contractor. 23(g) OSHA RESTRICTIONS AND CONDITIONS

A number of restrictions and conditions are applicable to all grantees and are made a part of these assurances and certifications by the Occupational Safety and Health Administration (OSHA). These include program elements mandated by the Occupational Safety and Health Act of 1970 as amended and implementing regulations that are not addressed through other available monitoring and reporting mechanisms, and a number of other restrictions:

1. The grantee assures that the following mandated program elements are and will continue to be implemented in accordance with all statutory and regulatory requirements: (1) prohibition against advance notice of inspection; (2) employee access to hazard and exposure information; (3) safeguards to protect an employer's trade secrets; (4) employer recordkeeping; (5) legal procedures for compulsory process and right of entry; (6) posting of employee protections and rights; (7) right of an employee representative to participate in walk-around; (8) right of an employee to review a decision not to inspect (following a complaint) and; (9) voluntary compliance programs.
2. The grantee agrees to pay OSHA for mainframe processing services and telecommunication services provided through the Integrated Management Information System (IMIS), based on quarterly bills. The fourth quarter payment will be based on an estimated bill. All bills must be paid upon receipt but no later than September 15th. Any adjustments between actuals and estimates will be made in the first quarter of the following fiscal year, as necessary.
3. State recipients who participate in OSHANet agree to adhere to all requirements for such participation (including hardware and software specifications) and to pay OSHA for certain services provided, including telecommunication charges, an annual service fee for operation and maintenance costs, and annual user fees for remote access. (For items billed quarterly, the fourth quarter payment will be based on an estimated bill. All bills must be paid upon receipt no later than September 15th. Any adjustments between actual and estimates will be made in the first quarter of the following fiscal year, as necessary.) Any state participating in the OSHANet may be required to have a signed Memorandum of Agreement on file.
4. State recipients not participating in OSHANet are encouraged to consult with the Directorate of Information Technology prior to expending Federal or State matching funds for the purchase of any data processing/computer equipment or software that will be used to connect

(locally or remotely) to or provide information to OSHA. Desktop or laptop computers and software that will be used to access OSHA systems including the CSHO and Consultation PC Applications, etc., must meet the minimum OSHA specifications. Specifications will be posted under the Help Desk on the Limited Access Page.

5. Non-OSHANet Use of the Standalone CSHO Applications: Desktops and laptops that are used by non-OSHANet State Plans for the standalone CSHO applications must meet OSHA's minimum specifications and use Windows XP Professional operating system. Although the Windows 98 version of the standalone application will continue to run, no further releases or upgrades will be made, and Microsoft itself will discontinue support of Windows 98 as of September 30, 2004.
6. No section 23(g) grant or matching State funds may be expended for the purchase of internal peripherals in conjunction with the NCR equipment without prior approval from the Directorate of Information Technology.
7. No section 23(g) grant or matching State funds may be expended for the development or operation of a substitute/alternative or supplemental IMIS system unless it provides all data required by OSHA and the OSHA IMIS, in a timely manner and in an acceptable electronic format. Any State developing an alternative or supplemental system must continue to provide data to OSHA that are identical to that required by the Federal IMIS and that are submitted in the same manner and to the same extent as though continuing to participate in the IMIS system. Data must be timely submitted through download into IMIS and must be provided in a format that meets OSHA's current as well as any future requirements. There may be no interruption in submission of data to OSHA during the development of such alternative or supplemental systems.
8. No section 23(g) grant or matching State funds may be expended for programs coming within the jurisdiction of and/or funded by another Federal agency, whether or not the federal program is administered by the designated State plan agency.
9. OSHA reserves the right to transfer title to equipment acquired under this agreement with a unit cost of \$5,000 or more.
10. The grantee agrees to pay OSHA for industrial hygiene sample analysis services provided by the Salt Lake Technical Center (SLTC) laboratory. Any State using the SLTC as its primary analytical laboratory must have a signed Memorandum of Agreement on file. The fourth quarter payment will be based on an estimated bill. All bills must be paid upon receipt but no later than September 15th. Any adjustments between actuals and estimates will be made in the first quarter of the following fiscal year, as necessary.

11. No section 23(g) or matching state funds may be expended for activities prohibited under OSHA's Appropriation Riders. One hundred percent (100%) State funds only must be used if the State chooses to perform prohibited activities; an accounting mechanism must be in place to assure that no section 23(g) or matching State funds are expended on these activities. (Any State using 100% State funds for such prohibited activities must appropriately utilize available IMIS coding to reflect this.)
12. States are encouraged to promote safety or health professional certification by a nationally recognized accrediting organization of their employees. State Plan Grant/Cooperative Agreement funds may be used to pay for the costs associated with a professional certification preparation course and the examination, including travel and per diem. No section 23(g)/21(d) or matching State funds may be expended for costs associated with a second or subsequent attempt to obtain certification by employees who fail on their first attempt, except for the cost of the examination itself and related travel and/or per diem for a second attempt only. Certification costs cannot exceed the percentage of time for which an employee is dedicated to the grant/cooperative agreement.
13. No 23(g)/21(d) or matching State funds may be expended for annual maintenance fees associated with maintaining professional certifications.
