

Informational Sheet: Minimum Wage Tipped Employees

The Improved Workforce Opportunity Wage Act, Public Act 337 of 2018, as amended, allows employers to take a tip credit on minimum wage under certain conditions for those employees who customarily and regularly receive tips. This information sheet is intended to summarize the requirements for taking a minimum wage tip credit. The statutory provisions covering tip credit can be found at MCL 408.934d of the Michigan Compiled Laws. Anyone interested in information on the minimum wage tip credit should consult the statute for the complete text.

The state’s minimum wage rate also applies to certain employees in federally covered businesses because the state rate for those employees is higher than the federally required rate.

The following conditions apply to taking a tip credit on the state minimum wage rate:

- The employee is in a position which customarily and regularly receives gratuities from a guest, patron, or customer for services rendered to that guest, patron, or customer.
- If the gratuities plus the minimum hourly wage rate under subsection 4d do not equal or exceed the minimum hourly wage otherwise established under section 4, the employer pays any shortfall to the employee.
- The gratuities are proven gratuities as indicated by the employee's declaration for federal insurance contribution act, 26 USC 3101 to 3128 purposes.
- The employee was informed by the employer of the provisions of section 4d, MCL 408.934d.
- If a credit is taken for gratuities received by an employee, then the employment records shall contain for each pay period in which the credit was taken a written statement of the amount of gratuities received by the employee. The statement shall be signed by the employee and dated before the date the paycheck was received.

The minimum hourly rate of pay for a worker subject to tip credit provisions is:
