

Wanted: Youth Ideas

The Sexton Health Center is looking for youth and young adults, grades 9-12, that want to share their opinions about how to make the health center a better place for all of Sexton's students!

We have exciting projects lined up:

- Help us find the best ways to recruit new patients
- Help us design the programs offered in the health center that would help your peers at school!
- Help us create and use social media (Facebook and Twitter) to let patients know of services offered.
- Help us create a press conference and open house for your center!
- Anything else **YOU** think would make the school and neighborhoods a healthier place!

Our Next Meeting:
March 23rd
1:05pm
Health Center

How Often We Will Meet:
Once a Month
