

New Planet Activity Sheet

Due to the pollution in the air, the Earth's ozone layer is way too thin. Days are getting hotter and hotter. In a couple of days, the Earth is going to be too hot for humans to survive. NASA has a rocket that will send people to a new planet so that they can repopulate and the human species will not become extinct...the only problem is the rocket can only take 10 people!!!

Talk to your group and decide which 10 people should go to the new planet:
