

City of Parchment/Cooper Township

Community Member Quotes

MiPEHS is an **important** and **meaningful** study for the residents of our community. Participants will not only learn about their own PFAS exposure but will be providing valuable information that will contribute to the overall understanding of health implications from these emerging chemicals.

- Robert D. Britigan III, Mayor, City of Parchment

This study is **vital** to empowering our community and helping us move forward in an uncertain future with the tools to protect our collective health.

- Tammy, Resident

I believe the health study is **important** to our community. It gives our residents participation and inclusion to help understand the complexity of the situation at hand.

- Jeff Sorensen, Supervisor of Cooper Township

This study is a way of being **transparent** to our public with the outcomes and hopefully gives everyone a **better understanding** of what the community is dealing with and how it will affect our future.

- Jeff Sorensen, Supervisor of Cooper Township
