You are Invited to a Series of Stakeholder Forums

Connecting and Innovating for Better Health

Please attend and contribute to the development of
Michigan's 5-Year Health Information Technology Roadmap

Michigan Department of Health and Human Services (MDHHS) and the Health Information Technology Commission (HITC) encourage extensive participation in the *Connecting and Innovating for Better Health* series of online stakeholder engagement forums. With generous support from Michigan Health Endowment Fund, MDHHS and the HITC are hosting a series of **16 virtual, online stakeholder forums** to collect input on what should be included in a 5-Year Health IT Roadmap for Michigan.

We want to hear from YOU!

Individuals, businesses, healthcare and social service organizations, providers of all types and across all specialties, payers, consumer and advocacy groups, associations and coalitions, state and local agencies, researchers, data geeks and health policy nerds (it takes one to know one!).....everyone is invited to attend and participate.

To learn more about the development process of the 5-Year Health IT Roadmap for Michigan, visit the Michigan Health Information Technology Commission's website, or contact the Michigan Health IT Roadmap consulting team, CedarBridge Group at miroadmap@cedarbridgegroup.com
