U-20836-0019-CC	08/18/2022	Allison Liu	Michigan Public Service Commission, First, I wanted to say thank you to the commission for hosting the public hearing. It is so important to hear from the community about our needs, especially with something as important as DTE Energy's plan to raise their rates. My name is Allison Liu, and I'm a resident of Troy Michigan. My experience with DTE Energy has been an experience that as included frequent energy outages. It is not right nor does it make sense to be paying some of the highest energy rates in the Midwest for such unreliable service. We have seen DTE increase rates the past 5 years with no changes to the service they are providing, and it is unreasonable for them to do so again by raising our rates once more without making changes to the services they are providing. I'm asking, along with other concerned stakeholders, that the MPSC hold DTE Energy accountable and require them to improve their service without raising rates. Additionally, DTE Energy is one of the biggest offenders of carbon emission, negatively impacting all of us economically and health-wise. As Michiganders and having the fortune to live in a state with such beautiful natural landscapes, it is important for the entire state's well-being to have access to affordable and reliable utilities without destroying our environment. It would mean so much to me and my community for MPSC to show that they are on the side of the citizens they serve and will defend them from unfair corporations. Thank you for taking the time to consider my comment. Allison Liu
