	FOOTNOTE DATA		

Schedule Page: 408 Line No.: 1 Column: b

Page 408-9 Columns (b) & (c):

The Ludington Project is jointly owned by joint licensees Consumers Energy Company and The Detroit Edison Company. Consumers Energy Company is the operator of the project. Information in column (b), Lines 1 through 22, is for entire plant. Information in Column (c), Lines 4 through 11, reflects Detroit Edison Company's 49% undivided interest in the Plant. Lines 13 through 38 reflect the costs and expenses of the Plant as shown on Detroit Edison Company's books. Plant investment reflects the amount in service at December 31, 2004.

- 1. Include on this page steam-electric plants of 25,000 Kw (name plate rating) or more of installed capacity.
- 2. Report the information called for concerning generating plants and equipment at the end of year. Show unit type installation, boiler, and turbine-generator, on same line.
- 3. Exclude plant, the book cost of which is included in Account 121, Nonutility Property.
- 4. Designate any generating plant or portion thereof for which the respondent is not the sole owner. If such property is leased from another company give name of lessor, date and term of lease, and annual rent. For any generating plant, other than a leased plant or portion thereof for which the respondent is not the sole owner but which the respondent operates or shares in the operation of, furnish a succinct statement explaining the arrangement and giving particulars (details) as to

Line No.	
1	The following notes refer to pages 413A through 413B.2.
2 3	(1) Conners Creek Power Plant was reactivated in 1999 and converted to a gas fired unit.
4	(2) St. Clair Unit No. 5 is in economy reserve status and has not operated in 2004
5 6	(3) Name plates do not include minimum hydrogen pressure on corresponding ratings.(4) These boilers also burn blast furnace gas.
7	(5) The Belle River Power Plant is jointly owned with the Michigan Public Power Agency, a non-associated
8	entity. The Respondent's undivided ownership interest is 63% in Unit No. 1, 81% of the portion of the
9	facilities applicable to Belle River used jointly by Belle River and St. Clair Power Plants and 75% in facilities used in common with Unit No. 2. The Respondent is entitled to 81%
11	of the capacity and energy of the entire plant and is responsible for the same percentage of the plant's operation
12 13	and maintenance expenses and capital improvements. Expense accounts affected are steam power generation operation and maintenance accounts, administrative and general operation accounts and taxes other than
14	income taxes. Refer to Note 6 of the Notes to Consolidated Financial Statements in the 2004 Annual Report
15	to Shareholders.
16 17	(6) Marysville Power Plant is in cold standby status and was not operated in 2004.(7) River Rouge Unit No. 1 was sold to River Rouge LLC in 1998.

(1) Respondent and the Consumer Energy Company, a nonassociated company, are co-owners, as tenants in common, of the Ludington Pumped Storage Plant

with Respondent having a 49% undivided interest and Consumer Energy Company a

51% undivided interest. A license for Project No 2680 has been issued

by the Federal Power Commission to the two companies as joint licensees.

The project includes the pumped storage plant, substation and certain

transmission facilities. Consumer Energy Company is operator of the plant and is

responsible for operation and maintenance, except that operating agree-

ment specifies that mutual agreement be sought on major operation and

maintenance matters pertaining to the plant. Consumer Energy Company and Detroit

Thankerlance maters pertaining to the plant. Consumer Energy Company and

Edison are entitled to 51% and 49%, respectively, of the generating

capability and energy output of the plant with pumping energy being

supplied in the same percentages.

28 29
