

Vendors Authorized to Perform Electronic and Remote Notarizations in Michigan

The [Michigan Law on Notarial Acts](#) requires the Department of State to approve vendors authorized to perform electronic/remote notarial acts. Only approved vendor systems can be used to perform an electronic/remote notarization.

The approvals are effective immediately and Notaries can contract with their selected vendor. Their use is optional, and no action is needed to continue performing traditional pen and paper notarizations. **All questions related to system capabilities, cost, training, etc., must be directed to the vendors.**
