REPORT TO THE LEGISLATURE
Pursuant to P.A. 121 of 2024
Section 710
Administrative Segregation Report

Section 710: *(1) From the funds appropriated in part 1, the department shall report not later than March 1 on the annual number of prisoners during the previous fiscal year in administrative segregation and, of those, the number who at any time during the current or prior prison term were diagnosed with serious mental illness or have a developmental disorder and the number of days each of the prisoners with serious mental illness or a developmental disorder have been confined to administrative segregation.*

(2) The report required in subsection (1) must include a chart listing the number of prisoners housed in administrative segregation for each of the following time periods:

(a) A continuous period exceeding 3 months but less than 6 months,

(b) A continuous period exceeding 6 months but less than 12 months.

(c) A continuous period exceeding 12 months or longer.

(3) For any prisoner housed in administrative segregation for 12 months or longer, an explanation of the circumstances surrounding the prisoner's placement in administrative segregation.

Due to the continued efforts of the Michigan Department of Corrections, Fiscal Year (FY) 2024 showed a decline in the total number of prisoner days spent in administrative segregation as compared to the previous fiscal year.

In comparison to FY 2008 when this report was first created, the total time spent in administrative segregation by MDOC prisoners has been reduced by over 355,000 days for the most recent year, or a 74% reduction. For the subpopulation of prisoners with severe mental illness or developmental disabilities, total time in administrative segregation during the year has been reduced by over 16,500 days compared to FY 2008, or 82%.

At the direction of Director Washington and in accordance with the Department's strategic plan, a multidisciplinary team has continued to meet throughout FY 2024 to discuss and develop additional strategies to safely reduce time spent in segregation, improve the environment and operations of these units, and provide staff in these units with the resources and support to ensure their physical and mental wellness.
