REPORT TO THE LEGISLATURE
Pursuant to P.A. 22 of 2025
Section 606
FY 2026 Quarter 1
Michigan Department of Corrections

Sec. 606. (1) From the funds appropriated in part 1, the department shall support medication-assisted treatment clinics at designated correctional facilities that allow the department to treat prisoners with opioid and alcohol use disorder while incarcerated. The department shall collaborate with substance use disorder treatment providers and community-based clinics to provide post release assessment and treatment. Funding must be used by the department to support costs of staff, including nurses, qualified mental health professionals, recovery coaches, and corrections officers, and costs of medication and supplies. Participating prisoners must be encouraged to receive 1 injection of nonaddictive medication, if clinically appropriate, before being released from prison into the community.

(2) The department shall submit quarterly reports on the operation of medication-assisted treatment clinics. A report under this subsection must include, but not be limited to, all of the following:

(a) Clinic site locations.

(b) A listing of medications used in medication-assisted therapies at each clinic site.

(c) The number of prisoners prescribed each medication under subdivision (b), including if the medication is an oral or injectable treatment.

(d) Total expenditures of clinic medications, including oral and injectable medications.

(e) The number of prisoners who received treatment in the community for a duration of at least 3 months.
