

PCSP Legislative Report 3/1/2018 - 2/28/2019

The Parole Certain Sanctions Program (PCSP) operates in nine counties and targets parole violators with a documented history of using cocaine, methamphetamine or heroin. It involves a six month or longer term of random six panel substance abuse testing at the rate of up to ten times per month and immediate sanctions and/or substance abuse treatment for positive or missed tests. The program will now test for Fentanyl in addition to the above three substances, alcohol and benzodiazepines. Parolees are required to complete the program barring a return to prison, death or transferring to a county where the program is not offered.

During the period of 3/1/2018 to 2/28/2019, 478 individuals participated in the program. At the end of this period half (239/50%) were either successfully discharged or active in the program. Using OTIS as a reference, only one successfully discharged participant (.008%) returned to prison while six were re-enrolled in the program. One (.008%) program graduate subsequently absconded from supervision. Of the 119 successful graduates, 61 (51%) completed their parole at the same time. Another 20 (17%) went on to complete their parole term during the above year. Remaining on parole supervision are 13 successful graduates.

Administrative Office:

519 South Park Street, Kalamazoo, Michigan 49007

Unsuccessful discharges are typically absconders or new criminal behavior. Of the 243 unsuccessful discharges by 213 parolees, 19 (9%) returned to prison and 32 (15%) were lodged in non-prison custody. At the time of this writing, 39 (18%) of the unsuccessful discharges were absconders. Discharged clients were re-enrolled 82 times indicative of the tendency towards relapse by treatment clients.

Discharges labeled “Other” totaled 66 and were primarily due to medical issues or jail incarceration over 30 days.
