

## REPORT TO THE LEGISLATURE

Pursuant to P.A. 119 of 2023  
Article 2, Section 302  
Impact of Adjusting Pay Structure for Officers

**Sec. 302. From the funds appropriated in part 1, the department must submit a report by March 1 that assesses the cost of allowing corrections officers and corrections medical officers to reach their highest level of pay within 3 years of service instead of reaching it within 5 years of service.**

Subsequent to the passage of the FY2024 budget, the Civil Service Commission approved its Employment Relations Board impasse panel recommendation for wages for employees covered by the Michigan Corrections Organization bargaining unit. The result of this change is to provide a 5% base-pay increase for all steps in the pay schedule while also eliminating the first two steps of the pay schedule, among other adjustments, that results in moving from a 10-step pay schedule with the highest level of pay achieved after 66 months of service to an 8-step pay schedule with the highest level of pay achieved after 42 months of service. The new pay rate structure will commence in October 2024.
