

WALK A MILE

MENTORING FOR SUCCESS

WHAT TO KNOW

- Participation in the mentoring program is **100% voluntary** for both our Mentees and for Mentors.
- The focus of the mentoring program is the peer mentoring concept. Mentors are those who have shared or lived experience with incarceration and reentry, are now on the "right track" and would be good role models.
- If at any time, the Mentee or Mentor decide not to participate, that will not be held against them.
- Mentor training will be administered via online modules and will include topics such as boundary setting, avoiding manipulation, etc.
- Most mentor relationships will be one-to-one. However, there may be support group mentoring where necessary.
- Mentors will have the opportunity to provide exclusion criteria.
- Successful mentoring relationships are predicated upon trust and confidentiality. With limited exceptions for safety, issues discussed between the Mentor and Mentee will be treated as confidential.

The role and importance of trust in your mentoring efforts cannot be underestimated or under-valued

Online based training provided to all mentors

Mentors and Mentees will be matched via the mentoring software

WALK A MILE

MENTORING FOR SUCCESS

Call for Mentors

Michigan Department of Corrections is seeking Mentors for our new "Walk A Mile" mentoring program. Mentors provide mentees with the opportunity to change, encourage them during difficult times, model positive behavior and help develop pro-social and problem-solving skills.

100%
voluntary

The main objectives of the mentoring program will be to reduce recidivism, reduce abscond rates, reduce technical violations, and reduce drug/alcohol use and/or relapse.
