

Bella Sol Wellness Centers of Michigan, LLC
Social Equity Plan

Bella Sol is committed to participating in programs that address inclusion in the legal cannabis industry. Although we do not qualify as a “Social Equity” applicant, we plan to participate in community efforts surrounding Social Equity. For example, we are drafting plans for an Expungement Clinic in the City of Muskegon. Additionally, we will provide instructors to local organizations who wish to provide cannabis training to minorities seeking cannabis employment. Last, we encourage all employment applicants and contractors to apply for employment and seek bids for work. Last, we believe that lack of capital is a serious barrier to entry for minorities wishing to open cannabis businesses and we support efforts to allow banks to participate in the cannabis industry so minorities have access to small business loans.
