

Custom Built Properties (DBA The Greenhouse of Walled Lake
Social Equity Plan

Cutom Built Properties (DBA The Greenhouse of Walled Lake) is dedicated to assisting registered medical marihuana patients, caregivers and adult use customers obtain safe, clean medication, and also has plans to involve ourselves in a number of charitable endeavors. The positive impact of charities is substantial, and together we know we can make a difference. The following are our plans to locally engage and help our fellow man.

Cutom Built Properties implements a discount program for patients, caregivers and adult use customers that openly volunteers for veteran organizations, the Salvation Army and the Michigan Coalition Against Homelessness. Patients, caregivers and adult use customers can produce verification of volunteer hours and receive 10% off of their entire purchase. We also offer a discount for various organized drives and collections for canned food, and winter coats and blankets.

Cutom Built Properties has plans to pursue a relationship with local hospitals and pharmacies to organize a prescription safe disposal program. This is to ensure medication, of any kind, dose not continue to taint our soil and water supply.

Community Outreach and Education

Cutom Built Properties is fully prepared and excited to get to know our new neighbors. Education in medical marihuana for our residents is at the foundation of our company. We will be offering information classes to residents, with or without medical cards, who would like to learn more about the benefits and risks of cannabis.

An in-depth Patient Education Program has been carefully researched and broke down into layman's terms that everyone can understand.

This is to ensure that every resident can fully understand the medication they are consuming or considering consuming. This program is available for pick up anytime during open business hours. Our staff is also available, with an appointment, for private consultations to address questions and concerns from all Walled Lake residents.
