This entity qualifies for the Bronze level tier of
the Social Equity All-Star Program

Social Equity Plan

JMS 75 LLC d/b/a Exotic Matter

JMS 75 LLC is committed to doing our part to help encourage participation in the cannabis industry by people from communities that have been negatively impacted by the prohibition of cannabis. Our physical location is not located in a designated social equity area, however we are a conscious member of the broader Michigan cannabis community and are taking steps in our operations to demonstrate our genuine commitment to this cause. Please see the bulleted points below that highlight our active and ongoing commitment to achieving social equity in Michigan's Cannabis industry.

- We are committed to wholesaling a portion of our product to retail establishments located in social equity communities.
- We actively look to source supplies and materials from 3rd party vendors located within the state designated social equity communities. By supporting local businesses that are providing ancillary services to the cannabis industry we believe we can have a broad social impact.
- As Social Equity is aimed at providing opportunities and second chances, we are committed to exploring the opportunity to hire qualified individuals at our facility.
