Mission

Green Pharm is committed to providing the best customer experience with the highest quality medical and recreational cannabis. We focus on the needs of our clients and have experienced and trained bud tenders that are here to educate and connect with you to provide a genuine, caring experience. We are also committed to building relationships with local service organizations and partnering with programs dedicated to reversing the effects of the war on drugs.

Goals

1. **Employment Opportunity & Training:** Thunder Bay Provisioning LLC vows to continue to provide employment opportunities for members of marginalized groups within our local community. As well as providing a safe and rewarding environment for all of our staff to grow as individuals.
2. **Licensing & Education:** Reinvesting in our brand to further educate our staff as well as provide free and easy access to information regarding the growing, processing, and consumption of marijuana and providing information and assistance for the expungement of marijuana-related convictions for interested residents.
3. **Community Outreach:** We will meet with local leadership to assess the needs of our local communities to serve them best and collaborate with other local businesses to work together to increase the impact of our community outreach efforts.
