How to Use Verify a License for Medical Facilities

The Verify a License search is used to locate prequalified and licensed marijuana businesses in Michigan. If a business does not appear on Verify a License, you may need to search using different criteria. If, after using multiple criteria to search, a marijuana business cannot be located on Verify a License, the business likely is not prequalified and/or not licensed as a marijuana business in Michigan.

Utilize the General Search to locate the party in question. Records can be found by entering any of the following information:

- License Number
- License Type
- Name of Business
- Doing Business As (DBA) Name
- First
- Last
- Street Number and/or Street Name
- City
- State
- Zip Code

No fields are required to be completed to search; zero to all fields can be utilized. When you have entered the desired criteria, select Search.

The screenshot shows the LARA website interface. At the top, there's a navigation bar with "Home", "Dashboard", "Search", "+ New", and "Help". Below that, there's a "Search & Renew License or Prequalification" section. The "General Search" form is highlighted with a green border. It includes fields for License Number, License Type, Name of Business, Doing Business As (DBA) Name, First, Last, Street No., Street Name, City, State, Zip, and End Date. A green arrow points to the "Search" button at the bottom of the form. The footer of the page reads "© 2015 State of Michigan."
