## Notification of Medical Marijuana Product Recall

The Marijuana Regulatory Agency (MRA) is issuing this health and safety advisory bulletin due to the presence of Vitamin E Acetate in several vape cartridges which failed safety compliance testing in August 2020. These cartridges were manufactured prior to the Emergency Rules for marijuana products intended for inhalation filed on November 22, 2019.

All affected vape cartridges will have a label that indicates the license number of the marijuana facility that sold the marijuana product as well as tag number assigned to the product in the statewide monitoring system.
