B. Use of Estimates in the Preparation of the Financial Statements

The preparation of the financial statements in conformity with Statutory Accounting Principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities. It also requires disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the period. Actual results could differ from those estimates.

C. Accounting Policies

The Company is a Medicare HMO that provides medical coverage to members who qualify under the Federal Medicare guidelines. Premiums collected are recognized as revenue during the months of coverage. Medical Loss Ratio (MLR) rebates are mandated by the Public Health Service Act. Rebates are issued to policyholders if the ratio of medical losses to premiums is below the specified minimum of 85% for large groups. Premiums are reported net of reinsurance and MLR rebates.

Net investment income earned consists primarily of interest less investment related expenses. Interest is recognized on an accrual basis. Net realized capital gains (losses) are recognized on a specific identification basis when securities are sold, redeemed or otherwise disposed. Realized capital losses include write-downs for impairments considered to be other than temporary. Expenses for management and administration of the organization, including acquisition costs such as marketing, are charged to operations as incurred.

In addition, the Company uses the following accounting policies:

1. Short-Term Investments – not applicable.

Based upon guidance in SSAP No. 54, a premium deficiency reserve (PDR) is recorded when the expected claims payments, incurred claims costs, claims adjustment expense, and administrative expense will exceed premium.

11. Method of Establishing Claim and CAE Reserves

Claim reserves are estimated based on five key service categories (i.e., inpatient, SNF, outpatient, emergency room, and therapy). Inpatient, SNF and therapy IBNR estimates are based on a review of open authorizations priced at a reasonable cost per service. Outpatient services and emergency room services IBNR estimates are established based on a run-rate historical cost per member for similar services at comparable plans. Management review is used to ensure the final incurred claims approximate a reasonable final incurred amount for each service. It is important to note that IBNR estimates are subject to favorable or unfavorable changes until sufficient claim experience is developed in the plan to minimize variations in estimation. Loss adjustment expense is typically estimated at 4% of total IBNR reserves and is generally reserved prior to year-end.

12. Capitalization Policy – no change.
13. The method used to estimate pharmaceutical rebate receivables:

On a quarterly basis, Navitus pays Align Senior Care MI, LLC's rebates on a pass-through basis and includes 100% of rebates collected by Navitus. Note 23 – Reinsurance

A. Ceded Reinsurance Report:

The plan has a reinsurance contract with PartnerRe, on an incurred claim basis. The objective of this reinsurance agreement is to mitigate the financial losses that could be incurred due to a medical expense from a catastrophic event. Reinsurance does not legally discharge us from our primary liability to the insured for the full amount of the policies, but it does make the reinsurer liable to us to the extent of the reinsured portion of any loss ultimately suffered.

The premiums are based on a per-member-per-month rate and are paid monthly. The policy provides stop-loss coverage for individual members exceeding the reinsurance attachment point. The coverage period runs from January 2022 to December 2022. The policy covers 100% of covered expenses which exceed \$200,000 during each covered calendar year. During 2022, no individuals exceeded the aggregate claims level which would require reimbursement under the reinsurance agreement.

The plan accrues revenue for known changes to members risks scores using the model published by CMS.

D. Medical Loss Ratio Rebates:

The Company is subject to the minimum loss ratio rebate provisions of the Patient Protection and Affordable Care Act (PPACA). PPACA will require payments to customers covered under the Company's comprehensive medical insurance if certain minimum medical loss ratios are met. Since the accrual reflects the amount of the rebate that would be payable based on year-to-date estimated medical loss ratios, the amount of the rebate will fluctuate as actual claim experience develops each calendar quarter.
