Notes to Financial StatementsNote 1 - Summary of Significant Accounting Policies**A. Accounting Practices**

The accompanying statutory financial statements of McLaren Health Plan Community (the “Company”) have been prepared in conformity with accounting practices prescribed or permitted by the Michigan Department of Insurance and Financial Services (“DIFS”).

DIFS recognizes only statutory accounting practices prescribed or permitted by the state of Michigan for determining and reporting the financial condition and results of operations of an insurance company, which include accounting practices and procedures adopted by the National Association of Insurance Commissioners (“NAIC”) Accounting Practices and Procedures Manual (“NAIC SAP”).

A reconciliation of the Company’s net income and capital and surplus between NAIC SAP and practices prescribed and permitted by DIFS for the periods ending September 30, 2023 and December 31, 2022 is as follows:

B. Assessments

Insurance Provider Assessment

Effective October 1, 2018, the Company is required to pay the annual Insurance Provider Assessment (IPA). The assessment for each HMO is based on the amount determined by the Michigan Department of Health and Human Services (MDHHS) and applied to the prior year member months for the Medicaid and commercial lines of business. The portion of the assessment attributable to the commercial programs is fully reimbursed by MDHHS. The Company recognized \$379,871 of net premium income and \$379,871 as general administrative expenses as of September 30, 2023, related to IPA. The Company has \$127,780 recorded as general expenses due and accrued on the Statutory Statements of Assets, Liabilities and Capital Surplus at September 30, 2023 related to the payments and reimbursements for 2023 assessment.

Note 20 - Fair Value Measurements

A. Fair Value Measurements at Reporting Date:

Accounting standards require certain assets and liabilities be reported or disclosed at fair value in the financial statements and provide a framework for establishing that fair value. The framework for determining fair value is based on a hierarchy that prioritizes the inputs and valuation techniques used to measure fair value.

The following table presents information about the Plan's assets and liabilities measured at fair value at September 30, 2023, and the valuation techniques used by the Plan to determine those fair values.

In general, fair values determined by Level 1 inputs use quoted prices in active market for identical assets or liabilities that the Plan has the ability to access.

Fair values determined by Level 2 inputs use other inputs that are observable, either directly or indirectly.

Level 3 inputs are unobservable inputs, including inputs that are available in situations where there is little, if any, market activity for the related asset.

In instances where inputs used to measure fair value fall into different levels in the above fair value hierarchy, fair value measurements in their entirety are categorized based on the lowest level input that is significant to the valuation. The Plan's assessment of the significance of particular inputs to these fair value measurements requires judgment and considers factors specific to each asset.

E. Risk-sharing Provisions of the Affordable Care Act (ACA)

- Risk adjustment program - Premium adjustments pursuant to the risk adjustment program will be based on the risk scores (health status) of enrollees participating in risk adjustment covered plans, rather than the actual loss experience of the insured. Risk adjustment receivables or payables are estimated based on experience to date and determinations of the Plan's risk score versus the overall market risk score. These amounts represent the estimated amounts receivable or payable for both individual and small group populations and are based on general demographic data and health status of these populations and data assumptions regarding the general health status of the overall market for which there is limited data.

Note 25 - Change in Incurred Claims and Claim Adjustment Expenses

An enrolled actuary has determined the estimated reserve for claims incurred but not reported. Although management believes that the provision for unpaid claims is adequate, no assurance can be given that the ultimate settlement of these liabilities may not be greater or less than such estimates. Any future adjustments to these amounts will affect the reported results of future periods.
