ANNUAL STATEMENT FOR THE YEAR 2023 OF THE AMERIHEALTH MICHIGAN, INC.

NOTES TO FINANCIAL STATEMENTS

These items are based on illustrations taken from the NAIC Annual Statement Instructions

1. Summary of Significant Accounting Policies and Going Concern

- A. Accounting Practices
The financial statements of AmeriHealth Michigan, Inc. (the Company) are presented on the basis of accounting practices prescribed or permitted by the Michigan Department of Insurance and Financial Services (DIFS).

The Michigan DIFS recognizes only statutory accounting practices prescribed or permitted by the State of Michigan for determining and reporting the financial condition and results of operations of an insurance company, and for determining its solvency under the Michigan Insurance Law. The National Association of Insurance Commissioners' (NAIC) *Accounting Practices and Procedures Manual* (NAIC SAP) has been adopted as a component of prescribed or permitted practices by the State of Michigan. The State has adopted certain prescribed or permitted accounting practices that differ from those found in NAIC SAP. As of December 31, 2023, these prescribed accounting practices are not applicable to the Company.

A reconciliation of the Company's net income (loss) and capital and surplus between NAIC SAP and practices prescribed and permitted by the State of Michigan is shown below:

	SSAP #	F/S Page	F/S Line#	2023	2022

- B. Use of Estimates in the Preparation of the Financial Statements
The preparation of financial statements in conformity with accounting practices prescribed or permitted by the Michigan DIFS requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

- C. Accounting Policy
The Company uses the following accounting policies:
- Short-term investments - None
 - Bonds and other debt instruments are stated at amortized cost or at values prescribed by the Michigan DIFS. Bonds with an NAIC designation of 3 through 6 are reported at the lower of amortized cost or fair value. The amortized cost of bonds is adjusted for amortization of premiums and accretion of discounts using the scientific-interest method. Realized investment gains and losses on the sale of investments are recognized on the specific-identification basis as of the trade date. Realized losses also include losses for fair value declines that are considered to be other than temporary. Interest income is recognized when earned.

 - Loan-backed securities - None
 - Investments in subsidiaries, controlled and affiliated (SCA) entities – None
 - Investments in joint ventures, partnerships and limited liability companies – None

 - Accrued Medical Expense/Unpaid Claim Adjustment Expense – Accrued medical expenses and unpaid claims adjustment expenses include medical expenses billed and not paid, an estimate for costs incurred but not reported (IBNR), and estimated costs to process these claims. To estimate the IBNR balance the Company uses the triangulation method. The triangulation method uses estimates of completion factors, which are then applied to the total paid claims net of coordination of benefits to date for each incurred month. This provides an estimate of the total projected incurred claims and total amount outstanding of claims incurred but not reported. Consideration is also given to changes in turnaround time and claims processing, which may impact completion factors. Substantially all of the IBNR balance as of December 31, 2023 relates to the current year.

The Company determines IBNR in accordance with actuarial principles and assumptions that are commonly used by health insurance actuaries and meet Actuarial Standards of Practice. Actuarial Standards of Practice require that the liabilities be adequate under moderately adverse circumstances. Actuarial estimates are based upon authorized healthcare services, past claims payment experience, member census, and other relevant factors. The Company consistently applies its reserving methodology from period to period and periodically reviews actual and anticipated experience compared to the assumptions used to establish medical costs.

While the Company believes the accrual for medical expenses is adequate, actual results could differ from such estimates. The Company recognizes any change in estimates in medical and hospital expenses in the period in which the change is identified.

- Pharmaceutical Rebates - Estimated rebates to be collected are based on rebates invoiced to the pharmaceutical manufacturers.

22. Events Subsequent

Type 1 – Recognized subsequent events – None

Type 2 – Nonrecognized subsequent events

In March 2020, at the start of the COVID-19 pandemic, the U.S. federal government enacted the Families First Coronavirus Response Act, which included a requirement that state Medicaid programs keep their members continuously enrolled throughout the duration of the Public Health Emergency (PHE), creating a backlog in the Medicaid eligibility redetermination process. The Consolidated Appropriations Act of 2023 (CAA), which was signed into law on December 29, 2022, allowed states to resume member eligibility redetermination activities effective April 1, 2023 with a processing deadline to complete all cases by May 31, 2024. Additionally, the CAA called for the sunset of the enhanced Federal Medical Assistance Percentage provided to states during the pause in redeterminations effective December 31, 2023. Recently, the Centers for Medicare and Medicaid Services (CMS) extended certain time-limited flexibilities available to states to facilitate the Medicaid renewal process and published an interim final rule with comment period implementing reporting requirements and enforcement authorities. States that fail to comply with regulatory requirements may be required to submit a corrective action plan, suspend procedural disenrollments or receive civil monetary penalties among other actions. It remains unclear how these developments will impact Medicaid spend or enrollment or if they will lead to an extension of the May 31, 2024 processing deadline. The Company continues to closely monitor evolving developments related to the unwinding of the PHE and any potential corresponding impacts on the Company's financial condition, results of operations and cash flows.

25. Change in Incurred Claims and Claim Adjustment Expenses

Reserves as of December 31, 2022 were \$14,986,527 for incurred claims and claim adjustment expenses. As of December 31, 2023, \$11,335,221 has been paid for incurred claims and claim adjustment expenses attributable to insured events of prior years. Reserves remaining for prior years are now \$1,738 as a result of the re-estimation of unpaid claims and claim adjustment expenses. Therefore, there has been favorable prior year development of \$3,649,568 during 2023 for the year ended December 31, 2022. The favorable reserves developments are attributable to claims settled for amounts less than originally estimated, primarily due to lower health care cost trends as well as the actual claim submission time being faster than assumed in establishing the accrued medical expenses in the prior year. These adjustments are generally the result of ongoing analysis of recent loss development trends. Original estimates are increased or decreased as additional information becomes known regarding individual claims.
