12. RETIREMENT PLANS, DEFERRED COMPENSATION, POSTEMPLOYMENT BENEFITS AND COMPENSATED ABSENCES AND OTHER POSTRETIREMENT PLANS

A. The Corporation has a noncontributory defined-benefit pension plan (the "Plan") covering substantially all of its employees. The benefits are based on years of service and final average earnings of each participating employee. The Corporation's funding policy is to fund an amount based on the recommendation of consulting actuaries that is in compliance with the requirements of the Department of Labor’s Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

Effective December 31, 2011, the Corporation permanently froze the final average pay defined benefit formula for all non-represented participants. Effective January 1, 2012, the Corporation instituted a cash balance defined-benefit formula for all non-represented participants and also for participants represented by United Automobile Workers (UAW) Local Union 600 Office/Non-Exempt Bargaining hired on or after January 1, 2012, and for participants represented by UAW Local Union Sale and Labor participants hired on or after April 1, 2012.

Effective March 16, 2016, the cash balance benefit for those participants in the UAW Local 600 Union Office/Nonexempt Bargaining was frozen and no additional pay credits will be credited. HAP also maintains a “safe harbor” 401(k) plan that provides for up to 3.5% matching employer contribution, for those participants who defer at least 6% of their earnings to the plan. The HAP 401(k) plan also has a secondary account for certain bargaining unit groups that provides for an annual contribution (only) of 3% to 7% of eligible earnings.

Effective December 23, 2017, the cash balance freeze for non-represented active participants resulted in an immediate curtailment, recognition as of December 31, 2017, of the prior service credits that were established in years past for the non-represented employee population. There were no prior service cost/(credits) to recognize in conjunction with the similar cash balance freeze during 2017 for the represented cash balance participants.

Effective January 1, 2018, the Corporation instituted a defined contribution supplemental retirement savings account for each nonunion and union participant who were formerly eligible for the cash balance formula in the frozen pension plan as well as employees hired after December 31, 2017. The Corporation’s contribution to this plan is based on each participant’s age and years of service. The expense related to the defined contribution supplemental retirement savings plan was approximately \$1,592,000 and \$1,786,000 as of December 31, 2023 and 2022, respectively.

The plan was amended in 2021 to allow for the transfer of active and terminated vested participants with accrued benefits of \$5,000 or less as of October 1, 2021 to the Detroit Osteopathic Hospital Corporation Retirement Income Plan (“DOHC Plan”), whom were subsequently mandatorily cashed out as a result of the DOHC Plan termination and the purchase of a group annuity contract for certain participants and beneficiaries in pay status as of January 1, 2021 with a monthly plan benefit of \$1,000 or less.

ANNUAL STATEMENT FOR THE YEAR 2023 OF THE Health Alliance Plan of Michigan

NOTES TO FINANCIAL STATEMENTS

14. LIABILITIES, CONTINGENCIES AND ASSESSMENTS

A. Contingent Commitments

Purchase Price Contingency – The Corporation has recorded a contingent liability of \$8,750,000 related to the purchase price of 40% of the units of HAP Empowered Holding LLC, specifically as it relates to the MMP Purchase Price Reduction clause. It is the intention of the members to qualify HAP CareSource as a Medicare Advantage Organization to offer a Health Insuring Organization Integrated Dual Eligible Special Needs Plan (also known as a HIDE SNP plan) or similar plan following the sunset date (estimated as December 31, 2025) established by the Michigan Department of Health and Human Services (“MDHHS”) for the MI HealthLink program. If HAP CareSource fails to obtain a contract with MDHHS and CMS to offer a plan, then the MMP purchase price of \$17 million shall be reduced by 50% and The Corporation would be obligated to refund the proceeds to CareSource.

B. Assessments

Under the Michigan Insurance Provider Assessment Act, the Corporation incurs an assessment based on certain membership. The Corporation bears the ultimate responsibility of the assessment and therefore, records the tax under the gross method. The taxes collected and paid are recorded in premium revenues and general and administrative expense, respectively. A liability is reflected in general expenses due or accrued in the amount of \$1,320,000 as of December 31, 2023.

The Corporation is not a member of the Michigan Life and Health Insurance Guaranty Association and as such has not incurred any assessments from insolvencies of entities that wrote long-term care contracts.

C. Gain Contingencies - NOT APPLICABLE.

D. Claims related extra contractual obligation and bad faith losses stemming from lawsuits - NOT APPLICABLE.

E. Joint and Several Liabilities – NOT APPLICABLE.

F. All Other Contingencies – The Corporation is also party to other lawsuits incident to its operations and Management believes that the ultimate outcome of these other contingencies will not have a material effect on the accompanying financial statements.

Risk-Adjustment Data Validation Audits (“RADV Audits”)—CMS adjusts capitation payments to Medicare Advantage and Medicare Part D plans according to the predicted health status of each beneficiary, as supported by data provided by health care providers.

The Corporation collects claim and encounter data from providers, who the Corporation generally relies on to appropriately code their claim submissions and document their medical records. CMS then determines the risk score and payment amount for each enrolled member based on the health care data submitted by HAP and member demographic information.

CMS performs RADV Audits of selected Medicare Advantage health plans each year to validate the coding practices of, and supporting documentation maintained by, health care providers. These audits involve a review of medical records maintained by providers and may result in retrospective adjustments to payments made to health plans.

In a final rule released January 30, 2023, CMS finalized technical details regarding the Medicare Advantage (MA) Risk Adjustment Data Validation (RADV) program that CMS uses to recover improper risk adjustment payments made to Medicare Advantage (MA) plans. Specifically, this final rule codifies in regulation that, as part of the RADV audit methodology, CMS will extrapolate RADV audit findings beginning with payment year (PY) 2018. The rule also finalizes a policy that CMS will not apply an adjustment factor, known as an FFS Adjuster, in RADV audits.

As a result of this final rule, CMS will collect the non-extrapolated overpayments identified in the CMS RADV audits and OIG audits between PY 2011 and PY 2017.

CMS is not adopting any specific sampling or extrapolation audit methodology but will rely on any statistically-valid method for sampling and extrapolation that is determined to be well-suited to a particular audit. However, any extrapolation methodology adopted by CMS for RADV audits will be focused on MA contracts that, through statistical modeling and/or data analytics, are identified as being at the highest risk for improper payments. While not required, CMS will continue to disclose the extrapolation methodology, providing MAs with sufficient information to understand how CMS extrapolated the RADV payment error.

The Corporation was selected for CMS RADV Audits related to its Medicare Advantage program for payment years 2014, and 2015. All requested information related to the 2014, and 2015 CMS RADV audits have been submitted. The Corporation has not received any information from CMS after the initial data submission for the CMS RADV for payment years 2014, and 2015. Payment years 2016 and subsequent remain open for Medicare Advantage for selection of the CMS RADV audits.

As of December 31, 2023, the Corporation has estimated and recorded a liability for the 2014 MA RADV audit of \$972,000 based on overpayments identified in the audit.

Under the Affordable Care Act program, the Corporation is subject to a RADV audit on an annual basis. The Corporation has successfully completed and submitted findings to CMS and to date has not had any penalty assessments related to those audit findings.

At December 31, 2023 and December 31, 2022, the Corporation had admitted assets of \$11,631,000 and \$10,524,000, respectively, in Uncollected Premiums. The Corporation routinely assesses the collectability of these receivables. Based upon the Corporation's experience, less than 1% of the balance may become uncollectible and the potential loss is not material to the Corporation's financial condition. As a plan sponsor, the Corporation has a net receivable in the amount of \$1,103,000 from CMS related to Medicare Part D prescription drug insurance coverage. The Corporation receives subsidy amounts for reinsurance and for cost sharing related to low-income individuals. The Corporation has
