NOTES TO FINANCIAL STATEMENTS

NOTE 1 Summary of Significant Accounting Policies

A. Accounting Practices

The financial statements of University of Michigan Health Medicare are presented on the basis of accounting practices prescribed or permitted by the Michigan Department of Insurance and Financial Services (DIFS).

University of Michigan Health Medicare was formed on November 1, 2018 on a non-stock basis and is a wholly owned subsidiary of University of Michigan Health Plan (Formerly Physicians Health Plan (PHP)). University of Michigan Health Medicare operations commenced on January 1, 2020.

DIFS recognizes only statutory accounting practices prescribed or permitted by the state of Michigan for determining and reporting the financial condition and results of operations of an insurance company. The National Association of Insurance Commissioners' (NAIC) Accounting Practices and Procedures Manual, (NAIC SAP) has been adopted as a component of prescribed or permitted practices by the state of Michigan.

A reconciliation of University of Michigan Health Medicare's net income and capital and surplus between NAIC SAP and practices prescribed and permitted by the state of Michigan is shown below:

B. Use of Estimates

In preparing the financial statements in conformity with the NAIC Annual Statement Instructions and Accounting Practices and Procedures Manual, management makes estimates and assumptions that affect the reported amounts of assets and liabilities. It also requires disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the period. Actual results could differ from those estimates.

Such liabilities are necessarily based on assumptions and estimates and while management believes the amount is adequate, the ultimate liability may be in excess of or less than the amount provided. The methods for making such estimates and for establishing the resulting liabilities are continually reviewed and any adjustments are reflected in the period determined.

The principal conditions of our current environment that would raise doubt as to the ability of the plan to continue as a going concern would include the variability and uncertainty of the current health care marketplace. While potentially significant, Management has developed plans to alleviate the potential for going concern by reviewing budgeted trends for the Health System as well as University of Michigan Health Medicare, diversification of the products we offer, and proper underwriting for new and renewing membership.

NOTE 20 Fair Value Measurement

A. Inputs Used for Assets and Liabilities Measured and Reported at Fair Value

(1) Items Measured at Fair Value by Levels 1, 2 and 3

The Company has categorized its assets and liabilities that are reported on the balance sheet at fair value into the three-level fair value hierarchy as reflected in the table below. The three-level fair value hierarchy is based on the degree of subjectivity inherent in the valuation method by which fair value was determined. The three levels are defined as follows:

Level 1 - Quoted Prices in Active Markets for Identical Assets and Liabilities: This category, for items measured at fair value on a recurring basis, includes exchange-traded common stocks and mutual funds. The estimated fair value of the equity securities within this category are based on quoted prices in active markets and are therefore classified as Level 1.

Level 2 - Significant Other Observable Inputs: This category, for items measured at fair value on a recurring basis, includes bonds which are not exchange traded and common stock of a subsidiary which is valued using an adjusted market method. The estimated fair values of some of these bonds were determined by independent pricing services using observable inputs. Others were based on quotes from markets which were not considered actively traded. The Company has no Level 2 assets or liabilities.

Level 3 - Significant Unobservable Inputs: The Company has no Level 3 assets or liabilities.

Description for each class of asset or liability	(Level 1)	(Level 2)	(Level 3)	Net Asset Value (NAV)	Total
a. Assets at fair value					
Cash Equivalents	23,438,647	0	0	0	23,438,647
Total assets at fair value	23,438,647	0	0	0	23,438,647

At the end of each reporting period, the Company evaluates whether or not any event has occurred or circumstances have changed that would cause an instrument to be transferred between Levels 1 and 2. This policy also applies to transfers into or out of Level 3 as stated in paragraph 3 below. No transfers between Levels 1 and 2 occurred during the current year.

(2) Rollforward of Level 3 Items

The Company has no assets or liabilities measured at fair value in the Level 3 category.

(3) Policy on Transfers Into and Out of Level 3

At the end of each reporting period, the Company evaluates whether or not any event has occurred or circumstances have changed that would cause an instrument to be transferred into or out of Level 3. During the current year, no transfers into or out of Level 3 were required.

(4) Inputs and Techniques Used for Level 2 and Level 3 Fair Values

The Company has no assets or liabilities measured at fair value in the Level 2 or 3 categories.

(5) Derivative Fair Values

B. Other Fair Value Disclosures
