

Piping Plover Monitors Wanted:

Locations: Silver Lake State Park and Muskegon State Park

Description: Monitors needed to protect endangered Piping Plover during the nesting season at three Michigan State Parks. Duties include educating park visitors, protecting nest sites, daily monitoring of bird behavior, recording nesting site information, construction of nest enclosures and assisting piping plover researchers.

*** This is a minimum wage seasonal position and housing is not provided ***

Timeframe: Early May thru late August 2022 (*flexible start and end dates*)

Time Required: 40 hours per week during the nesting season

Position Requirements:

- Excellent communication skills, friendly, positive attitude while engaging the public
- Commitment to endangered species conservation
- Ability to accurately collect data and record field notes
- Strong organizational skills and attention to detail
- Must be able to work both independently and as a member of a team
- Ability to comfortably walk/hike long distances with difficult terrain in all weather conditions

Training is Provided:

No experience is necessary, background in natural resources, wildlife management and/or wildlife biology preferred.
